# *School Psychology Internship At NYCSD*

The **Northern York County School District** (NYCSD) serves approximately 3500 students in a district of four elementary schools, a middle school, and a high school located in Dillsburg, a town of about 20,000. Dillsburg is about 15 minutes southwest of Harrisburg. The District is staffed by about 250 teachers with over half of teachers holding a masters degree or higher.

The District serves students in a range of special and regular education settings. Most students with needs are served in the itinerant model of special education, though the district has several self-contained classrooms for speech and language needs, alternative education, and life skills. The District is in the midst of developing an RTI model of service delivery from the Child Study (Instructional Support) Team paradigm.

The school psychology position provides a stipend, office space, a wide range of school psychology experiences, and a full array of school psychology assessment measures, though enthusiasm must be provided.
