Liberal Studies

Revision Summary:

Prerequisite revision for IFMG-460 Analysis and Logical Design from [IFMG352 and IFMG450] to [IFMG210 and IFMG230 and IFMG352 and IFMG390].

Part II. Description of Curriculum Change

1. Current Catalog description:

IFMG 460 Analysis and Logical Design

3c-0l-3cr

Prerequisites: IFMG 352 and 450

Involves teaching the tools and techniques required for the analysis and design of a business system. Along with in-class discussions of the principles and techniques for analyzing, designing, and constructing the system, the students also formulate system teams in order to analyze the problems of an existing business information system, to design an improved system, and to control the implementation of the new system.

2. New Catalog description:

IFMG 460 Analysis and Logical Design

3c-0l-3cr

Prerequisites: IFMG 210 and 230 and 352 and 390

Involves teaching the tools and techniques required for the analysis and design of a business system. Along with in-class discussions of the principles and techniques for analyzing, designing, and constructing the system, the students also formulate system teams in order to analyze the problems of an existing business information system, to design an improved system, and to control the implementation of the new system.

3. Justification/Rational

The prerequisite course for IFMG-390 is either IFMG-210 or IFMG-230. However, the knowledge of programming from both IFMG 210 and IFMG 230, networking from IFMG352, and database management from IFMG390 are the requirements for IFMG 460 Analysis and Logical Design.

Part III: Letter of Support

N/A the undergraduate course is housed in the same department.
