Part II. Description of the Curriculum Change

1. Delete CHEM 116: Basic Inorganic Chemistry 3c-2l-3cr

2. Justification/Rationale

The contents of CHEM 116 were incorporated into CHEM 214 Intermediate Inorganic Chemistry, which was recently created in response to changes in standards by our professional accrediting body, the American Chemical Society.

3. A description of how this change will affect existing courses, programs, etc. and how the deletion(s) will affect students currently enrolled in the program.

The deletion of CHEM 116 will not affect existing courses or programs as these were revised when CHEM 214 was created.

Part III. Letters of Support or Acknowledgement

Attach letters from interested or affected departments. (See page 3 for guidelines.)
