0 lab hours  
3 semester hours  
(3c-01-3sh)

2. Proposed Catalog Description

FIN 320 Corporate Finance

3 class hours  
0 lab hours  
3 semester hours  
(3c-01-3sh)

Prerequisites: FIN 310

The study of corporate financial management and decision-making, its theory and application. This course provides a higher level of study and many of the same topics covered in Fundamentals of Finance, particularly in the area of capital budgeting. Other topics covered include capital asset pricing models, costs of capital, capital structure, leasing bond refunding, and financial distress.

B. Summary of proposed revisions

1. Change Course Title
2. Change Catalog Description

C. Justification/Rationale for Change

"Finance II" gave no indication of the nature of topics included in the course. The new title, "Corporate Finance," reflects the emphasis on corporate financial decision-making and differentiates the course from other advanced courses in finance. The new course description further defines the corporate nature of the material and its relationship to the fundamentals course.

III. Letter of Support

No letters of support are required as no other department is affected by these changes.
