

How to Access Employee Self-Service (ESS) and eTime

Step 1: Find your PASSHE AD (ESS) Username and Reset Your Password

1. Open a web browser and go to www.iup.edu/myiup.
2. Choose **Sign In to MyIUP** to log into MyIUP. You will use your IUP e-mail 4 letters and your pin (same password as moodle and d2l) to log in.
3. Select **Personal Info**.
4. Select **IUP Computer Account Information for Employees** under personal information. If you do not see this option, contact the Student Payroll Office at 724-357-2510.
5. Look for the table called **PASSHE Active Directory (AD) Account Information (used for ESS Access)**. This table will display your PASSHE active directory username and password. If you do not see this table, contact the Student Payroll Office at 724-357-2510.
6. Write down your PASSHE AD username. It will be in the format `40username@passhe.lcl` and your username will replace *username*.
7. Just below this table, you will see **If you'd like to reset your PASSHE AD account password, please Click Here**. Click on this link to reset your PASSHE password. (Be patient while the password reset application launches.)
8. Continue through the screens to reset your PASSHE AD password, reading the password requirements very carefully.
9. After you've successfully reset your PASSHE AD password, exit URSA and MyIUP.

Step 2: Set up Your ESS Account for Self-Service

You are required to set up your account for self-service (resetting your own password) even though this function is available in URSA. You must do this before actually logging into ESS.

1. Open a web browser and go to <https://portal.passhe.edu/>.
2. Select **Account Self-Service**. This will appear in the blue menu bar.
3. Select **Indiana University**.
4. Select **Set up Your Account for Self-Service** from the Welcome to the Active Directory Account Self-Service Portal menu.
5. Enter your PASSHE AD username and enter the password you set in step 8 above.
6. Enter a 4 digit pin of your choosing. Do not use anything that someone would easily associate with you.
7. Select a security question from the list, and then enter your answer to the question.
8. Enter your own unique security question, and the answer to the question.
9. Click **Submit**.

Note: Because MyIUP has a password reset feature for PASSHE AD, you may not need to use the self-service portal again, but you are required to establish a PIN number, two security questions and their responses.

Step 3: Log into ESS and Use eTime

1. Open a web browser and go to the PASSHE Employee Self-Service (ESS) portal at <https://portal.passhe.edu>
2. Log on with your PASSHE AD username and password that you set in step 8 above.
3. Select the **eTime** tab. If you do not see the **eTime** tab, contact the Student Payroll Office at 724-357-2510.
4. To enter hours select **my time sheet**.
5. Select the correct department making sure that the position has the dates

Position Valid: 05/21/2012 - 12/31/9999

6. Enter the dates and times that you work and add them
7. When ready, select the time frames and sign them by clicking sign below the hours you entered. These go straight to your supervisor to approve. Once you sign the hours you cannot edit them.

If you do not have an eTime tab or if you have any other problems, contact the Student Payroll Office at 724-357-2510 **as soon as possible** during normal business hours.
