Business

- A Publication – We may begin collaborating on a ~~on a~~ monthly publication with graphic design students. We need to consider printing costs and distribution and put together an editorial board. This could be a medium for our Save the Penn project and for any other types of articles people want to write. The sky's the limit.
- The Penn – A good discussion was had about the Penn's **ails** and how we should help. The list of things to do includes:
  - θ op-eds

- θ letters to the editor
- θ write articles – If you think the quality of the writing is going down, write something!
- θ Tables in the Oak Grove/HUB
- θ Petitions
- θ Contact alumni
- θ Tee-shirts
- θ Letters to anyone we can think of
- θ We need to do this all quickly!
- Fundraising – Ideas for fundraisers included an SPJ sponsored concert and an oddity show.
- Committees – We need to put together committees to get the stuff we need done done. Penn outreach, workshops, symposiums. **List of committees? What's next?**
  - θ Symposiums – In the fall: assisting with the diabetes symposium and a possible one on health and science reporting. In the spring: global warming.
- **Next Meeting**
  - θ COOKOUT! More to come. **When, where?**

Adjourned : 8:15 p.m.

Reminder: There are membership forms on the SPJ bulletin board on the fourth floor of Davis. The \$36 dues are annual and should be included with the paperwork. To send forms, turn them in to Dr. Loomis.
