Welcome!

Welcome to the clinically-oriented MS in Speech-Language Pathology at IUP! Our program provides basic training for all clinical practice settings. Our graduates are trained to work across the lifespan—working with neonatal patients, infants and toddlers, school-age children and adolescents, young and middle-aged adults, and seniors. The program is designed to teach you the best practices to help them with their communication skills, voice quality, articulation, speech fluency, feeding, and swallowing. In addition, students will gain experience with providing services in a wide range of settings including hospitals, rehabilitation centers, skilled nursing facilities, home health, schools, child care centers, pediatric clinics, and more.

Indiana University of Pennsylvania

Founded in 1875 as the Indiana Normal School, IUP is a vibrant, comprehensive, research-based, teaching-focused, student-centered learning community. IUP combines the academic opportunities of a large university with the highly personalized and intimate learning-centered environment of a small college.

IUP’s Civility Statement

As a university of different peoples and perspectives, IUP aspires to promote the growth of all people in their academic, professional, social, and personal lives. Students, faculty, and staff join together to create a community where people exchange ideas, listen to one another with consideration and respect, and are committed to fostering civility through university structures, policies, and procedures. We, as members of the university, strive to achieve the following individual commitments:

To strengthen the university for academic success, I will act honestly, take responsibility for my behavior and continuous learning, and respect the freedom of others to express their views.

To foster an environment for personal growth, I will honor and take care of my body, mind, and character. I will be helpful to others and respect their rights. I will discourage intolerance, hatred, and injustice, and promote constructive resolution of conflict.

To contribute to the future, I will strive for the betterment of the community, myself, my university, the nation, and the world.

Speech-Language Pathology Program

Speech Pathology and Audiology was established as a Division within the Department of Special Education and Clinical Services in the 1960s, a time when most B.S.Ed. graduates went on to gain employment as instructional certificate holders in the schools, and only a few pursued the graduate training that led to the American Speech-Language-Hearing Association’s (ASHA’s) Certificate of
Clinical Competence (CCC) and a possible healthcare career as a speech-language pathologist or audiologist. As the discipline has matured over the past half century, it is now a medical rehabilitation profession, with employment opportunities across the continuum of healthcare service providers (hospitals, rehabilitation centers, nursing homes, home health agencies). This paradigm shift resulted in the licensing of SLPs by the Commonwealth’s Bureau of Professional and Occupational Affairs starting in 1985. In addition, in 2014 Pennsylvania’s Department of Education replaced the instructional certificate for school-based SLPs with an educational specialist certificate.

The IUP Speech-Language Pathology Master of Science program seeks to ensure that students who successfully complete the program have all of the knowledge and skills required for application for a clinical fellow experience and, following that, application for certification by the American Speech-Language-Hearing Association (ASHA), licensure through the Pennsylvania State Board of Examiners in Speech-Language Pathology and Audiology, and certification for employment through the PA Department of Education. IUP’s speech-language pathology program is accredited by the Council on Academic Accreditation (CAA) in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association.

**Vision & Mission Statements and Program Objectives**

The IUP Speech-Language Pathology and Audiology program aspires to:

- Provide quality academic training that emphasizes evidence-based content using pedagogies that allow for synthesis and application of knowledge in a supportive environment
- Teach students to value, critically appraise, and judiciously implement the best examples of current clinical research to continually update their practice paradigm
- Foster a mindset of collaboration through interprofessional and clinical experiences that involve the community, clients and families
- Impel sensitivity to cultural, linguistic, and individual diversity
- Serve as a community resource for individuals with communication, swallowing, and/or hearing disorders and their families
- Contribute to the knowledge base of the discipline of communication sciences and disorders.

The mission of the Bachelor of Science program in speech-language pathology and audiology is to provide an innovative and high quality academic program that prepares students to enter graduate programs in speech-language pathology, audiology, or other professions, with a strong foundation in human communication, swallowing, and hearing.

The mission of the Master of Science program in speech-language pathology is to provide excellent academic, professional and clinical preparation which reflects the art and science of our discipline.
Graduates will be prepared to engage in interprofessional collaboration to improve the lives of individuals and families affected by communication, swallowing, and hearing disorders.

Graduates of both programs will be lifelong learners who fulfill the university goals of becoming critical thinkers and effective communicators. They will demonstrate ethical and professional behaviors that adhere to the high standards of contemporary practice in a culturally diverse and global society.

The objectives of the MS program in Speech-Language Pathology are derived from the 2014 Standards and Implementation Procedures for the Certificate of Clinical Competence in Speech-Language Pathology (including revisions in 2016) and can be accessed at the following website: [http://www.asha.org/Certification/2014-Speech-Language-Pathology-Certification-Standards/](http://www.asha.org/Certification/2014-Speech-Language-Pathology-Certification-Standards/). Each student is responsible for understanding what knowledge and skills are required to apply to ASHA for certification. Upon completion of the program requirements, graduates will:

1. Demonstrate knowledge of typical development as well as disorders of communication and swallowing.
2. Manage clinical cases by applying principles of prevention, assessment, intervention, and evidence-based practice, and by analyzing data to make appropriate clinical decisions.
3. Collaborate and communicate effectively with clients, families, supervisors, and other healthcare professionals both orally and in writing.
4. Demonstrate professional and ethical conduct in clinical practice.

**Faculty and Staff**

Jill Brady, PhD, CCC-SLP  
Associate Professor  
Office: Davis Hall, Room 211  
E-mail: jill.brady@iup.edu  
Office Phone: 724-357-5676

Erin Clark, M.S., CCC-SLP  
Clinic Director  
Office: Davis Hall, Room 264  
E-mail: eclark@iup.edu  
Office Phone: 724-357-2451

Lori Lombard, Ph.D., CCC-SLP  
Professor
Speech-Language Pathology Program, Department of Communication Disorders, Special Education, and Disability Services, Indiana University of Pennsylvania

Office: Davis Hall, Room 437
E-mail: llombard@iup.edu
Office Phone: 724-357-1365

Cynthia McCormick Richburg, Ph.D., CCC-A
Professor and Department Chairperson
Office: Davis Hall, Room 225
E-mail: cynthia.richburg@iup.edu
Office Phone: 724-357-5680

Kendra McAlear, C.Sc.D., CCC-SLP
Assistant Professor
Office: Davis Hall, Room 408
E-mail: kmcalear@iup.edu
Office Phone: 724-357-3841

Lisa Hammett Price, PhD, CCC-SLP
Professor and Program Coordinator
Office: Davis Hall, Room 408
E-mail: lprice@iup.edu
Office Phone: 724-357-5687

Shari Robertson, Ph.D., CCC-SLP
Provost’s Associate Professor
Office: Davis Hall, Room 236
E-mail: shari.robertson@iup.edu
Office Phone: 724-357-5683

Vickie E. Johnson
Department Administrative Assistant
203 Davis Hall
724-357-2450

Celia Barber
Clinic Secretary
263 Davis Hall
724-357-2451
Jill L. Brady earned her Ph.D. in Communication Science and Disorders from the University of Pittsburgh, and has been at Indiana University of Pennsylvania since 2006. She holds Pennsylvania state licensure and a Certificate of Clinical Competence in speech-language pathology, and well as Pennsylvania reading specialist certification. From 1997-2000, she worked as a speech-language pathologist in the public schools with children and adolescents in grades K-12. For over four years, she worked in a laboratory that was affiliated with Children’s Hospital of Pittsburgh which focused on neurogenic communication disorders in children. She currently teaches courses such as clinical phonology, language science, speech sound system disorders, and language disorders of children. Her areas of interest include pediatric language disorders, second language acquisition, bilingual language development, and the cognitive processes involved in sentence comprehension.

Erin Keller Clark earned her B.S. and M.S. degrees from IUP. She joined the faculty at IUP in 2017 as the Speech, Language, and Hearing Clinic Director. She brings 7 years of experience as an SLP in the hospital setting with expertise in adult aphasia, dysphagia, brain injury, and dementia, and she is a certified VitalStim provider. She built the program at Fulton County Medical Center and then expanded it to include home health and outpatient adult and pediatric services. In addition, Ms. Clark has supervised a number of early career SLPs through their clinical fellowship year. Her professional interests include neurogenic communication disorders, administration and supervision, and the effects of hearing loss on childhood speech and language development.

Lori Lombard received her M.S. degree in speech-language pathology from James Madison University and a Ph.D. in Communication Disorders from Penn State University. Dr. Lombard joined the IUP faculty in 2002, after serving as Assistant Professor in the Department of Otolaryngology and Associate Director of Speech Language Pathology at the University of Pittsburgh Medical Center. She is currently a full professor and graduate coordinator for the program. Dr. Lombard’s research has focused on the development of an assessment technique for neuromuscular control of the larynx. Her areas of clinical expertise are in voice disorders and head and neck cancer rehabilitation. Dr. Lombard teaches courses in voice disorders, head and neck cancer rehabilitation, speech science, and anatomy & physiology. She received the Center for Teaching Excellence Award for Content Pedagogy in 2009. Dr. Lombard is ASHA certified in Speech-Language Pathology with clinical certificates in tracheoesophageal puncture management and accent reduction.

Kendra McAlear received her M.A. degree in communication sciences and disorders from The University of Texas at Austin and her Doctor of Clinical Science in medical speech-language pathology from The University of Pittsburgh. Dr. McAlear joined the IUP faculty in 2018, after many years of serving patients in acute care, inpatient rehabilitation, outpatient, skilled nursing and home health settings. She also brings experience as a music educator and degrees in Spanish and French to her work as an SLP. Dr. McAlear has taught seminars on head and neck cancer, anatomy, laryngectomee care, swallowing and feeding, oral care, dementia, and electronic health record documentation. She brings a wealth of both clinical and teaching experience to our program.

Lisa Hammett Price received her M.S. degree in speech-language pathology from
James Madison University and a Ph.D. in Communication Sciences and Disorders from the University of Georgia. Dr. Price spent 9 years working as an SLP in public and international schools using both pullout and collaborative and integrated service delivery models. Her research focuses on using book reading at home and in classrooms to facilitate language learning. This includes using books within parent-implemented treatment at home to increase treatment intensity for children with language disorders, and teacher-led book reading teach the language needed to learn the academic curriculum. Dr. Price joined the faculty at IUP in 2007 and currently serves as program director. She has taught courses in language disorders, augmentative and alternative communication, research design and statistics, pediatric motor speech disorders, and autism. She has received a number of awards including the International Reading Association’s Dina Feitelson Research award, the Ray Coppler Disability Awareness Award in 2017, and a Senate award for teaching excellence in 2017.

Cynthia Richburg earned an M.A. in Audiology and a Ph.D. in Speech and Hearing Science from the University of Tennessee. She joined IUP in September 2006. She is currently Chair of the Communication Disorders, Special Education, and Disability Services Department. Dr. Richburg teaches four undergraduate audiology courses and one graduate course. She supervises students in their undergraduate and graduate Hearing Clinic experiences. In addition to her career as a clinical audiologist, she has served on the faculty at the University of Utah, State University of New York at New Paltz, and Missouri State University. She is currently the Editor for ASHA's SIG 9 Perspectives, and her areas of research involve Central Auditory Processing Disorder, the effects of noise on classroom listening and learning, and the effects of hydraulic fracturing noise on human health.

Shari A. Robertson received a M.S. in Communicative Disorders from Central Michigan University in 1982, and a Ph.D. in Communicative Disorders from the University of Wisconsin in 1997. She joined the IUP faculty in 1997. She has taught courses in language development, language disorders, speech sound disorders, research methods, and counseling. She has also supervised pediatric clinical experiences. In addition to teaching within the department, Dr. Robertson has served as Dean’s Associate in the School of Graduate Studies and Research, and she currently serves the university as the Provost’s Associate. She has been received the Fellowship of the Association Award from the American Speech-Language-Hearing Association (ASHA). In service to our national organization, Dr. Robertson has twice been elected to the ASHA Board of Directors. She served a 3-year term as the Vice President for Academic Affairs in Speech-Language Pathology and she is currently the President-Elect.

Student Complaint Procedures

If you have a complaint about an aspect of our undergraduate or graduate training programs, and you feel comfortable taking that complaint directly to a faculty member, please do so. You may schedule an appointment, stop by a faculty office during office hours, send an email, or drop a note in the student assignment box in Davis 203. We suggest that you take your complaint to the program director. If that is not
possible, or if you do not feel comfortable in doing so, you may go to the clinic director or any faculty member.

If your complaint is not resolved to your satisfaction, you may then take it to the following administrators, starting with:

Chair, Department of Communication Disorders, Special Education, & Disability Services
Dean, College of Education and Communication (if you are an undergraduate) or
Dean, School of Graduate Studies and Research (if you are a graduate student)
The University Provost
The University President

If, for any reason, you believe you should contact our program’s accrediting body, that contact information is:

Council on Academic Accreditation
American Speech-Language-Hearing Association
2200 Research Boulevard, #310
Rockville, MD 20850
Main switchboard: 301-897-5700
Action center: 800-498-2071 Fax: 301-571-0457 www.asha.org
Email accreditation@asha.org

Admission

- The Graduate Admissions Committee will review applicants for admission who provide 1) GRE scores, 2) an undergraduate degree with a GPA of 3.0 or higher, 3) prerequisite coursework in speech-language pathology, 4) two letters of recommendation, 5) a written response to the provided prompt, and 6) an interview with the program’s admissions committee. Applicants must also meet the program’s technical standards and professional dispositions (See Page 15).

- Due to the competitive nature of graduate admissions, preference is given to applicants who have an undergraduate degree in communication disorders with a GPA of 3.6 or higher, Verbal and Quantitative GRE scores of 145 or higher and 3.5 or higher for Writing, strong letters of recommendation from academic faculty in communication disorders, and excellent communication skills during the interview.

- Applicants must have completed undergraduate pre-requisite courses or content equivalent to the courses listed on the advising sheet in Appendix A. Essential undergraduate courses with a letter grade of “C” or below will be considered as a content deficiency. Students entering with a grade of “C” in a course may begin their program with a remediation plan to ensure adequate knowledge and skills in the deficient content area. Applicants who are missing pre-requisite content may enroll in undergraduate courses before applying to the graduate program. The program director can assist in advising students regarding specific circumstances. Documentation of 25 hours of supervised observation and criminal history and medical clearances must also be completed prior to beginning the master’s program.
In addition to the stated application requirements, applicants who are non-native English speakers must submit TOEFL or IELTS test scores taken within the past year. To demonstrate proficiency, applicants must submit a minimum score of 600 paper-based TOEFL, 100 internet-based (iBT), or 6.5 IELTS. International students with an undergraduate degree from an American university do not have to submit TOEFL or IELTS scores. Similarly, students from countries where English is a dominant language are not required to submit scores (see https://www.iup.edu/admissions/international/undergraduate-requirements/countries-not-requiring-english-proficiency-test-scores/). Observation hours and clinical practicum completed in another country will be accepted only if they have been supervised by a speech-language pathologist who holds the appropriate certification from ASHA.

Graduate Admissions: www.iup.edu/admissions/graduate/

For more information regarding Admission Classification and Provisional Admission for International Graduate Application, view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/

Financial Assistance

Graduate Assistantships
- The program currently provides up to eight half time assistantships to full time students during the first year of study. See Appendix D for guidelines for performance review documents. http://www.iup.edu/admissions/graduate/financialaid/assistantships-and-scholarships/

Scholarships
- Maude O. Brungard Speech-Language Pathology Fund – The late Dr. Maude O. Brungard, a retired faculty member from the College of Education, bequeathed money to the Foundation for IUP to support an endowed scholarship for students in the speech-language pathology program. Applications are sought during Spring semester each year.

- QUOTA International – Every spring semester, the local QUOTA International organization gives out one or two scholarships to students who will be a senior or graduate student the following year. Criteria include strong academic performance and service and leadership experiences. Applications are sought during Spring semester each year.

- College of Education & Communications – The College has a number of general and specific scholarships that speech-language pathology students may be eligible for. Students should complete the general scholarship application on the COEC website (usually by March, however, check for deadlines). By filling that out, you are automatically submitted for all the scholarships for which you are eligible. Scholarships that appear as separate applications require additional materials, such as letters of recommendation or essays. For those, you...
must complete the additional requirements in order to be considered. Listed below are some scholarships you may be eligible for.

- Marion B. Welsch Memorial Scholarship
- APSCUF Scholarship
- IUP Ambassadors Scholarship
- Aramark Scholarship
- Fitz Dixon Memorial Scholarship
- Highmark Healthcare Scholarships for Rising Juniors
- Momentum, Inc. Healthcare Scholarship
- PSECU International Education Scholarship
- Dr. Howard B. Buterbaugh Scholarship Fund
- Margaret M. Patton Foundation Scholarship
- Martha S. Scheeren Scholarship
- Senior Class Scholarship Award
- Foundation for IUP Community Volunteer Service Award

**Travel**
Funds are available for graduate students presenting scholarly papers (all disciplines) or creative works (fine arts) at professional meetings. Doctoral and master’s students may apply for up to $750 in funding for the fiscal year and funds are distributed on a first-come, first-served basis. See the [application and instructions for doctoral students](#) or the [application and instructions for master’s students](#).

**Research Grants**
Research grants are available to encourage and support graduate students as they undertake research and creative projects that will contribute new insights in their chosen academic field. The maximum amount of the grant that students may receive in support of their research project, creative project, thesis, or dissertation research is $1,000 per year. Two grant competitions are held annually. See the SGSR website for competition due dates and guidelines.

Office of Financial Aid: [www.iup.edu/financialaid/](http://www.iup.edu/financialaid/)

**Academic Advisement**
The advisor assigned to a cohort of students will advise those students through graduation, assisting students in meeting the academic and practicum requirements for the Certificate for Clinical Competence in Speech-Language Pathology awarded by the American Speech-Language-Hearing Association. Advising includes the student’s rotation through first year clinical courses and second
year clinical externships. The IUP Speech, Language, and Hearing Clinic director determines the specific clinic assignments most appropriate for each student.

Students are responsible for knowing the requirements of the program, keeping their own records, monitoring their own progress toward degree completion, initiating contact with their advisor, and seeking advice and/or assistance as needed. Students also assume responsibility for checking and rechecking clinical clock hours and monitoring progress toward completion of the required clinical hours for graduation and application for certification through ASHA. The advisor’s role is to assist in this process and be available to answer questions so that students may successfully navigate the program. Students will find two documents helpful as they track progress throughout the program:

- Appendix A: M.S. SPLP Program Advising Sheet
- Knowledge and Skills Summary Form (KASA; currently being revised to reflect 2017 ASHA standards revisions)

### IUP Email

IUP offers an email account to all active students. Your IUP email address is the primary means by which the university will contact you with official information and you should use for all IUP official communications. It is your responsibility to check your IUP email regularly. Visit [www.iup.edu/itsupportcenter/howTo.aspx?id=23401](http://www.iup.edu/itsupportcenter/howTo.aspx?id=23401) to learn more about setting up this account. For more information regarding University policy on email communication, view the Graduate Catalog: [www.iup.edu/graduatestudies/catalog/](http://www.iup.edu/graduatestudies/catalog/)
Graduate Student Assembly

The Graduate Student Assembly (GSA) represents the graduate student body’s interests at IUP and within the Indiana community. The GSA makes recommendations related University-wide and graduate-specific policies and in areas of concern in the cultural, intellectual, and social life of the part- and full-time graduate student. Visit www.iup.edu/graduates/graduatemaster/graduatestudies/gsa for more information.

Program and Degree

Master’s Program

Students take a sequence of required coursework and local clinical experiences, followed by two full-time externships selected to meet various interests and career goals. A total of 51 credit hours is required for degree completion.

Required Courses:

- **GSR 615** Elements of Research 3 cr.
- **SPLP 604** Diagnostic Methods 3 cr.
- **SPLP 610** Speech Sound Disorders 3 cr.
- **SPLP 614** Neuropathologies of Speech and Swallowing 3 cr.
- **SPLP 616** Stuttering 3 cr.
- **SPLP 618** Voice 3 cr.
- **SPLP 630** Language Disorders of Children 3 cr.
- **SPLP 632** Neurological Communication Disorders 3 cr.
- **SPLP 635** Seminar in Communication (1-3 cr. each): 9 cr.
  - Augmentative & Alternative Communication
  - Cleft Palate – Head & Neck Surgery
  - Audiology
  - Counseling
  - Professional Issues
- **SPLP 661** Advanced Clinical Practicum (2 cr., repeat once) 4 cr.
- **SPLP 662** Diagnostic Clinic 1 cr.
- **SPLP 663** Hearing Testing Clinic 1 cr.
- **SPLP 796** Internship in Healthcare Organizations 6 cr.
- **SPLP 798** Internship in Schools 6 cr.
- **SPLP 795** Thesis (Optional, may substitute for 3 cr. of seminar) 3 cr.

It is assumed that students in this program will be enrolled on a full-time basis; part-time study is not recommended. Expanding one’s knowledge involves more than the accumulation of credits or
the learning of isolated facts. It includes the development of a coherent understanding of an area. Although an area of knowledge may be divided into courses to provide efficient means of teaching, it is important for each student to tie together these artificially separated units to develop an understanding of how the parts are related. It is generally recognized that a good portion of learning and understand is gained outside the classroom in informal interactions with mentors, peers, and others. This especially applies to graduate learning. Taking these factors into account, the program strongly recommends that students plan to attend on a full-time basis.

Part-time study is rarely allowed, but to achieve part-time status each case must be reviewed individually and only approved under special circumstances. The Graduation Coordinator, Program director and/or Chair of the department must consider and approve each case.

Students who have an undergraduate degree in communication disorders/speech-language pathology may complete degree requirements for the M.S. in 2 full years of enrollment (5 semesters; summer enrollment between the 2 years is required). However, some students may require more than 2 years to finish the degree (e.g., students who must complete a missing prerequisite course, a physical science or math required by ASHA; students who require a remediation plan to address deficiencies; students who experience a medical issue).

**Certification and Licensure**
Successful completion of all program requirements will enable students to apply for ASHA certification. Meeting the ASHA CCC-SLP requirements allows program graduates to obtain licensure from the Pennsylvania Board of Examiners in Speech-Language Pathology and Audiology, as well as the Educational Specialist certificate for School Speech-Language Pathologists awarded by the Pennsylvania Department of Education. Students who wish to practice speech-language pathology in another state need to review that state’s requirements for licensure and school certification and determine whether you need any additional courses or clinical experiences. The graduate coordinator and clinic director can assist in helping students be prepared to practice in a different state.

**Course Descriptions**
SPLP 604 Diagnostic Methods 3 cr.
Evaluation of tests and techniques of diagnosis of speech and language disorders; interpretation of results and planning appropriate, subsequent case management. Interviewing techniques appropriate to case history taking. Writing of diagnostic and case-history reports.

SPLP 610 Speech Sound Disorders 3 cr.
Linguistic approach to articulatory process and analysis of misarticulation as symptoms of language
Speech-Language Pathology Program, Department of Communication Disorders, Special Education, and Disability Services, Indiana University of Pennsylvania

dysfunction; variables related to articulatory mastery; programmed, traditional, and sensory-motor methods of modifying articulatory behavior.

SPLP 614 Neuropathologies of Speech and Swallowing 3 cr.
The evaluation, treatment, and prevention of disability in oropharyngeal dysphagia and motor speech disorders, both developmental and acquired. The team approach to management is emphasized.

SPLP 616 Stuttering 3 cr.
Nature and causes of stuttering. Emphasis on diagnosis and management. Counseling and learning theory application as two main approaches to treatment. Consideration of the person as a stutterer. Review of pertinent and recent research topics.

SPLP 618 Voice 3 cr.
Scientific principles of voice production and modification with emphasis on physiology, pathologies, or malfunctioning which produce voice defects; relationship between disorders of voice and personality; diagnostic and therapeutic considerations for both organic and psychogenic disorders.

SPLP 630 Language Disorders of Children 3 cr.
Anatomical, physiological, psychological, neurological, and environmental factors related to language delay or disordered language acquisition. An inventory of language skills and means of fostering their development or compensating for inadequacies; a holistic versus specific approach to programs of remediation.

SPLP 632 Neurological Communication Disorders 3 cr.
Consideration of language, speech, and related problems resulting from neurological insult. Neurological dysfunction will be highlighted. Diagnosis and management of persons with aphasia, agnosias, apraxias, and dysarthrias will be emphasized, as well as the role of the family in rehabilitation and family counseling.

SPLP 635 Seminar in Communication 1-3 cr. (6 credits required)
Intensive study of one or more areas of speech science, speech and language pathology, or audiology. Topics vary to meet the student’s needs and interests. Course may be repeated for credit with a change in area considered. Prerequisites: Speech-Language Pathology major, admission to degree candidacy, and advisor approval.

SPLP 661 Advanced Clinical Practicum 2 cr.
Supervised practicum experience in the University Speech and Hearing Clinic with individuals exhibiting speech, language, and/or hearing dysfunction. Planning and administration of programs of therapy plus interviewing, diagnosing, counseling, and report writing.
SPLP 662 Diagnostic Clinic 1 cr.
Supervised practicum experience in performing in-depth diagnostic evaluations with individuals exhibiting any type of speech, hearing, or language dysfunction. Experience in taking case histories, conferring with patients, and report writing.

SPLP 663 Hearing Testing Clinic 1 cr.
Supervised practicum experience in performing audiological screening evaluations and other procedures.

SPLP 795 Thesis 3 cr. (optional, may substitute for 3 credits of seminar)

SPLP 796 Internship in Healthcare Organizations 6 cr.
Supervised clinical experience in off-campus hospital settings with individuals exhibiting speech, language, and/or hearing dysfunction. Planning and implementing programs of therapy plus interviewing, diagnosing, counseling, and report writing. Prerequisites: Methodology and on-campus practicum courses, permission of graduate coordinator.

SPLP 798 Internship in Schools 6 cr.
Supervised clinical experience in school settings with individuals exhibiting speech, language, and/or hearing dysfunction. Planning and implementing programs of therapy plus interviewing, diagnosing, counseling, and report writing. Prerequisites: Graduate methodology, on-campus practicum courses, permission of graduate coordinator, and undergraduate Professional Education Sequence.

Transfer of Credits into the IUP Speech-Language Pathology Program

A maximum of 10 graduate credits taken at IUP prior to beginning a graduate program can be counted toward a graduate degree. Taking courses for graduate credit as an undergraduate or non-degree student does not ensure admission to the graduate program. In addition, non-degree students are not eligible to complete clinical practicum. The department will not guarantee acceptance of graduate academic credit taken at other universities to fulfill requirements in our program. However, up to 8 graduate semester credits may be allowable for transfer if the course instructor, graduate admissions committee, and program director and/or department chair approve them. Because the program must verify the knowledge and skills fundamental to the practice of speech-language pathology, students in the SPLP-MS program must pass a variety of clinical skills demonstrations; students who transfer in credits from another institution still must pass these clinical skills assessments in order for the Graduate Coordinator and/or Chair to sign the document students submit for certification upon completion of their program.
Evaluation of Students

Throughout the program, students will be evaluated on their knowledge and skills and their ability to meet important non-academic technical standards and professional dispositions (sometimes referred to as essential functions in the workplace). In addition, students must adhere to the ASHA Code of Ethics, and pass the National Examination in Speech-Language Pathology in order to qualify for ASHA certification and state licensing. Students are advised to be fully aware of the procedures and requirements of the Graduate School regarding grading, continuation in a program, disciplinary regulations, and academic honesty.

Knowledge and Skills Assessment (KASA)

ASHA requires that academic programs evaluate students on a wide range of knowledge and skills in speech-language pathology. All courses and clinics that students complete during the course of the program are designed to help students achieve adequate knowledge and skills required for certification as a speech-language pathologist by ASHA. Faculty grading in courses and clinics represent the individual faculty member’s evaluation of each student in various content areas.

Syllabi for each course and clinic outline the KASA standards that are satisfied when a student successfully completes that course or clinic. At the end of the program, students who have successfully completed all coursework and clinics, and who meet the Technical Standards and Professional Dispositions required for the profession, will have met the KASA requirements such that the program coordinator is able to indicate successful completion (“target” and “acceptable” designation) on the KASA summary form.

Successful completion of courses and clinics is defined in the following ways. Clinical courses must be completed with a grade of “B” or higher to meet the requirements for graduation. Furthermore, the practicum hours in clinical courses with a grade of “C” or lower will not apply to ASHA certification or state licensure requirements. No person will be granted a degree who has more than one “C” grade in graduate courses in Speech-Language Pathology or Audiology, regardless of the number of credits for the course. In addition, only one course or clinic may be repeated (and only one time). Students who exhibit marginal/questionable performance or who are identified by faculty members as demonstrating weaknesses in any content/competency area will be asked to meet with their faculty advisor to develop a remediation plan. See below for more information on remediation plans.

Technical Standards and Professional Dispositions

In addition to mastery of academic content and clinical skills, students must also be able to perform the technical standards of a speech-language pathologist and demonstrate appropriate professional dispositions (see Appendix B) both during the graduate program and in the employment setting.
Technical standards (also referred to as essential functions in the workplace) refer to physical, behavioral and social, and cognitive and intellectual abilities that are considered necessary for graduate students and professionals in the fields of audiology and speech-language pathology. The technical standards and professional dispositions also are rooted in the ASHA Code of Ethics (www.asha.org/code-of-ethics/), the Pennsylvania Speech-Language-Hearing Association Code of Ethics (http://www.asha.org/code-of-ethics/), the PA Code of Professional Practice and Conduct for Educators (http://www.pacode.com/secure/data/022/chapter235/chap235toc.html), and the Code of Ethics for the Speech-Language-Hearing Licensure Act for the State of PA (http://www.pacode.com/secure/data/049/chapter45/chap45toc.html). Therefore, students must be familiar with the contents of these documents. Everyone in our profession is expected to demonstrate “knowledge of standards of ethical conduct” (Standard IV-E). The ASHA Code of Ethics outlines the code you are expected to uphold now as a student and in the future when you are a certified SLP or audiologist. The principles include items such as not misrepresenting your own competence, not misrepresenting research or scholarly activities, not making false statements, completing documents honestly, referencing sources when using other people’s ideas, and reporting violations of the Code when observed (American Speech-Language-Hearing Association. (2016). Code of ethics [Ethics]. Available from www.asha.org/policy/)

The Technical Standards and Professional Dispositions include a range of abilities necessary for performing the job. It is recognized that degrees of ability vary widely among individuals and that abilities are not static, they are variable. We are committed to using the Technical Standards and Professional Dispositions to help students develop a clear understanding of their own challenges, whether those are related to a documented disability or not, and to become proactive on their own behalf in order to develop these skills and/or identify successful accommodations. Candidates for admission or current students in the program who are concerned about their ability to acquire these technical standards and professional dispositions are encouraged to contact the Program Director to ask questions about their individual situations. A candidate who requires academic accommodations to fulfill these technical standards and professional dispositions due to a disability also is encouraged to contact the IUP Department of Disability Access and Advising (D²A²; 216 Pratt Hall, 724-357-4067). The IUP speech-language pathology program seeks to ensure that qualified persons with disabilities are not denied access or subjected to discrimination. We are committed to enabling students by any reasonable means or accommodations to complete the course of study leading to the M.S. degree in speech-language pathology.

The Speech-Language Pathology (SLP) Program expects all students to possess and be able to demonstrate the skills, attributes, and qualities set forth below, with reasonable accommodations for disabilities and without unreasonable dependence on technology and/or intermediaries (effective use of assistive technology may be used to meet these standards). The following technical
standards and professional dispositions are consistent with ASHA’s clinical knowledge and skill performance guidelines and the ASHA Code of Ethics:

**Physical and Sensory Abilities:**

- Participate in professional responsibilities and activities for up to four-hour blocks of time with reasonable accommodations for breaks.
- Move independently to, from, and within the work setting.
- Manipulate evaluation and intervention materials and laboratory equipment.
- Complete academic and client-related forms and paperwork (e.g., lesson plans, data collection forms, SOAP notes, reports).
- Provide a safe environment for others in responding quickly to emergency situations including fire, medical, or environmental emergencies and in application of universal precautions (e.g., standardized approach to infection control).
- Provide appropriate models of speech, language, and voice depending on the needs of various clients.
- Visually and auditorally monitor patient responses and materials. Possess the ability to observe both close at hand and at a distance.
- Make accurate judgments about speech and acoustic signals.
- Access transportation to all clinical and academic placements.
- Speech fluency and articulation, language production and processing skill, and the quality of voice and resonance must be adequately within functional limits (or can be accommodated) in order to provide professional services.

**Behavioral and Social Attributes:**

- Maintain composure and emotional objectivity in demanding situations.
- Be adaptable, possessing sufficient flexibility to function in new and stressful environments.
- Critically evaluate one’s own performance, be forthright about errors, accept constructive criticism, and look for ways to improve academic and clinical performance.
- Communicate effectively and appropriately in person, by phone, and in written form by considering the communication needs and cultural values of the listener or reader.
- Understand and respect faculty and supervisory authority.
- Maintain appropriate professional behavior including punctuality, regular attendance, and prompt completion of responsibilities.
- Demonstrate compassion, integrity, and motivation in delivering professional services.
- Collaborate with other professionals.
• Comply with administrative, ethical, legal, and regulatory policies in various clinical and educational settings.
• Show sensitivity and respect for individuals from different sociocultural backgrounds (including differences in age, ability/disability status, racial and ethnic background, religion, SES, sexual orientation/gender identity).
• Conform to appropriate standards of dress, appearance, language and public behavior.
• Uphold the Codes of Ethics of the American-Speech-Language-Hearing Association, the Pennsylvania Speech-Language-Hearing Association, and the Pennsylvania Board of Speech, Language and Hearing Examiners, as well as Pennsylvania’s Code of Professional Practice and Conduct for Educators.

**Intellectual and Cognitive Abilities:**

• Demonstrate the mental capacity to learn and assimilate professional information, including the ability to comprehend oral and written professional literature and reports.
• Solve academic and clinical problems through critical analysis.
• Seek relevant case information, synthesize, and apply concepts and information from various sources and disciplines.
• Write discipline-specific papers and clinical reports in Standard American English at an appropriate level.
• Maintain attention and concentration necessary to complete clinical activities for up to four-hour blocks of time with one short break.
• Effectively manage the use of time and be able to systematize actions in order to complete professional and technical tasks with realistic constraints.

**Source:** These Technical Standards and Professional Dispositions were adapted and used with permission from the Missouri State University Communication Disorders Department document *Essential Functions of Speech-Language Pathologists.*

To this end, students’ ability to meet the technical standards and professional dispositions will be evaluated at the following time points:

• During every clinical practicum experience as part of the clinic grading form, with feedback given during midterm and final grade meetings with the faculty supervisor or externship supervisor.
• During the second semester in the graduate program to inform clinical externship placement options.
• At the end of the student’s final semester in the program to inform completion of the “2014 Standards for Clinical Certification in Speech-Language Pathology Verification by Program Director” form, which is necessary for application for ASHA certification.

If deficits are identified, the faculty member observing the deficit will initiate the development of a remediation plan (see remediation process below). Students’ performance on the technical standards and professional dispositions will be used to guide decisions on (a) clinical externship placement options, and (b) the Graduate Coordinator or Program Director’s ability to verify successful completion of all standards for clinical certification in speech-language pathology (specifically, answers to the questions on the form entitled “2014 Standards for Clinical Certification in Speech-Language Pathology Verification by Program Director”). Students must submit this form with their application for their Certificate of Clinical Competence from ASHA.

Violations of university policies will be referred to the appropriate university entity as follows:

- Academic integrity violations will be handled based on University Policies and Procedures, see https://www.iup.edu/graduatestudies/catalog/university-policies/academic-policies/academic-integrity-policy-and-procedures/
- Student conduct violations will be handled based on University Policies and Procedures, see https://www.iup.edu/studentconduct/
- HIPAA violations are considered an Academic Integrity issue and will be dealt with based on those University Policies and Procedures, see https://www.iup.edu/graduatestudies/catalog/university-policies/academic-policies/academic-integrity-policy-and-procedures/

**Remediation Plans for Deficiencies**

Every student’s progress is reviewed regularly by program faculty (see timeline for evaluations below). If an issue is identified, the student will be directed to meet with the Student Review Committee, which is a sub-committee of program faculty, and a remediation plan will be developed. All faculty involved will receive a copy of the remediation plan. This is so faculty can provide encouragement and feedback. A designated faculty member will monitor progress according to an agreed upon timeline, and a faculty review will determine the next course of action, if needed. A Remediation Plan Template can be found in Appendix C.

Problematic behaviors of students also arise throughout the year, outside the formal student review process. These concerns also will be handled by the Student Review Committee. Students will be asked to meet with the Student Review Committee to develop a remediation plan if for
example they (a) earn a grade of C or below, (b) are identified by faculty members as demonstrating weaknesses in any content area (even if they earn a grade of A or B in the course), (c) are dismissed from or fail an externship placement, or (d) are not meeting technical standards and professional dispositions.

The Student Review Committee will work with the student to identify the areas of concern and develop a plan to remediate the concerns. The plan will identify specific remediation activities as well as a timeline for completing them. The plan will be signed by members of the Student Review Committee, the student, and the advisor (when appropriate). Success of the plan will be evaluated within six weeks after the plan is implemented (sooner if specified in the remediation plan) and feedback given to the student. A designated member of the committee will monitor progress according to this plan and determine the next course of action, if needed.

A student clinician who has successfully completed a Remediation Plan must maintain the skills acquired during the remediation. If they are not maintained, the student clinician will be returned to the Student Review Committee and another Remediation Plan may be developed, if appropriate.

A student clinician who has not successfully completed a Remediation Plan will again meet with the Student Review Committee for further decision-making and recommendations. If deficiencies are not successfully remediated, the Program Director (or designee) may not be able to verify that the student has met the standards required for ASHA certification and membership.

Some examples of problematic behaviors that could have significant implications for students include:

- Chronic tardiness or absenteeism
- Lack of participation in class
- Unprofessional or unethical conduct that violates the ASHA Code of Ethics
- Academic weaknesses (e.g., failure to turn in assignments, weak performance on assignments or tests, cheating or plagiarism)
- Poor clinical or academic writing skills
- Unwillingness and/or inability to accept and use feedback
- Inability to handle conflict or respond to challenges with appropriate and professional behavior
- Poor ability to translate academic knowledge into appropriate clinical intervention or assessment strategies
- Weak interpersonal skills that negatively affect professional relationships and/or interactions with clients and families

Examples of remediation activities:
• Additional readings in a particular area
• Additional writing exercises, assignments, or practice modules
• Referral to the writing center or career development center
• Completion of an online webinar on a topic (e.g., swallowing assessment; ethics)
• Increased supervision in a clinic
• Completion of additional quizzes or assessments to demonstrate improved knowledge
• Taking an incomplete in a course and attending it a 2nd time
• Receiving additional feedback and/or assistance from a faculty member
• Recommendation that the student seek counseling services or disability support services

National Examination in Speech-Language Pathology

Prior to receiving their degree, students must pass the National Examination in Speech-Language Pathology and provide evidence of the attempt to the graduate coordinator. The examination should be taken during the last semester of enrollment. If a student does not attain a passing score prior to graduation, the student must pass comprehensive examination questions addressing the areas in which he or she scored below the average range on the National Examination. Comprehensive exam questions will be written by the faculty member whose expertise is most appropriate to that area of practice, and the student will compose a response to the question(s) and submit said responses to that faculty member. Responses will be evaluated by at least two faculty members to determine adequacy. Feedback will be provided to the student by email or other appropriate means within one week of submission.

**Academic Standing and Retention in the Program**

In order to remain in good standing, students in the SPLP program must meet the following criteria:

1. A grade point average (GPA) of 3.25 is considered the minimum level of academic performance for all SPLP graduate students.

2. Clinical practicum courses must be completed with a grade of “B” or higher to meet the requirements for graduation. Furthermore, the practicum hours in clinical courses with a grade of “C” or lower will not apply to ASHA certification or state licensure requirements.

3. An overall clinical practicum grade of “B” or better must be obtained in the two semesters immediately prior to participating in an externship. If a grade of “C” or lower is earned in any of these semesters, it will delay and may preclude an externship placement.

4. The SLP-MS program requires that students repeat any course that resulted in a final grade of F, because all coursework is required for certification and licensure in the field. The IUP SGSR Repeat Policy will be enforced. Students with a grade of F in a course will not be approved for externship placement until they repeat the course and achieve a C or better grade. See below for policies regarding externship placement.

5. Only one course or clinic may be repeated, and only one time.

6. No person will be granted a degree who has more than one “C” grade in graduate courses in Speech-Language Pathology or Audiology, regardless of the number of credits for the course.

7. Students must demonstrate all the Technical Standards and Professional Dispositions.

Students who fail to meet these criteria will be placed on academic and/or clinical probation and will have a remediation plan to address deficiencies. The graduate faculty will review the status of each student on probation at the end of each semester or on the timeline outlined in the remediation plan. A student who fails to obtain at least a 3.25 cumulative average by the end of the probationary semester will be dismissed from the program.
Clinical Practicum Privileges and Policies

ASHA’s practicum requirements are stated in terms of number of direct client contact hours, which must be accrued. For certification in speech-language pathology students must complete a minimum of 400 clock hours of supervised clinical experience in the practice of speech-language pathology. Twenty-five hours must be spent in clinical observation (prior to entering the graduate program), and 375 hours must be spent in direct client/patient contact; however, up to 75 hours may be accrued via directed and approved simulation hours. In addition to specific numbers of hours, ASHA requires that students achieve specific clinical skills through their clinical education. The IUP clinical program in speech-language pathology requires practicum experiences in diagnosis and intervention across the lifespan. Students must meet all the clinical KASA requirements during clinical experiences to be eligible for ASHA certification.

Student participation in clinical practicum should be considered a privilege rather than a right. Clinical practicum participation is different in many ways from class and laboratory assignments. It involves the welfare of the clients/patients in our clinics and at externship sites, as well as the training needs of students. We are ethically bound to protect the welfare of the clients/patients, so special policies apply to these educational opportunities. Admission to graduate study in the speech-language pathology program at IUP does not guarantee participation in clinical practicum. The following prerequisites must be met:

1. **Student clinicians must demonstrate English speech production and English language skills and knowledge at the level necessary to provide appropriate clinical services to their clients/patients. ASHA Standards require communication skills sufficient to achieve effective clinical and professional interaction with clients/patients and relevant others.**

It is necessary for student clinicians to model communicative behaviors that they are trying to help their clients/patients to develop. All entering students will be screened for use of English speech and language before they can be given clinical assignments. For oral communication, the student must demonstrate speech and language skills in English, which, at a minimum, are consistent with ASHA’s most current position statement on students and professionals who speak English with accents and nonstandard dialects. For written communication, the student must be able to write and comprehend technical reports, diagnostic and treatment reports, treatment plans, and professional correspondence. Inadequate performance will result in a delay in clinical participation until adequate performance can be demonstrated. The staff of the appropriate clinic will make the decision about adequacy of demonstrated proficiency in English speech and language (spoken and written) for participation in clinical practicum.
2. **Student clinicians must demonstrate adequate clinical practicum performance and progress. Methods of evaluation are described below.**

Speech-language pathology clinical faculty and supervisors, hereafter referred to as clinical faculty, are Speech-Language Pathologists and Audiologists who hold the Certificate of Clinical Competence and either a Master or Doctoral degree. Clinical faculty members have regular supervisory meetings with those students whom they supervise in clinic. They regularly review the work of every student enrolled in clinical practicum, provide instruction and feedback to the student clinicians, and encourage development of self-evaluation skills.

At mid-semester, and at the end of each semester, or more often if deemed appropriate, the clinical faculty complete the “Clinic Rating Scale” (see Speech-Language Clinic Handbook for rating scales for each clinic including diagnostic, treatment, and hearing) to evaluate each student’s performance. Evaluations will be made with reference to expected skills at each semester of practicum. The expected ratings for each skill at each practicum level are included on rating scale form for clinician reference. Individual evaluation meetings are then held to provide students with information about their clinical work. Grades of ‘B’ or better will indicate attainment of the appropriate KASA standards and professional competencies, clock hours will be accrued, and practicum privileges will be continued. These student clinicians will also receive a specific list of recommendations for improvement of their clinical skills. The students are expected to transfer skills learned in one clinical practicum to the rest of their clinical practica. Students must meet with their Clinical Supervisors at the start of each semester and discuss their strengths, weaknesses, and goals from the previous semester.

If a student clinician demonstrates skills below minimum expectations for their current practicum level (i.e., earns a final grade of C or lower in the clinical practicum), the following procedures will be taken:

a) The clock hours for that specific clinical assignment will not be counted toward the required 400 hours (as per ASHA regulations),

b) A Remediation Plan will be developed (see above),

c) Privileges of participating in further clinical practicum may be suspended until the student completes remediation plan activities.

Obtaining a final semester grade of C or lower in clinical practicum for two semesters is considered to be evidence of inadequate performance and results in ineligibility to continue in the program. If the student fails to meet any of the Technical Standards and Professional Dispositions (see above) during clinical practicum, including any threat to the welfare of the clients/patients (See the ASHA Code of Ethics), the student is referred to the Student Review Committee. The Clinic Director, in
consultation with the clinical faculty, may terminate participation in practicum at any time that client/patient welfare is considered to be jeopardized. The student is given specific written recommendations for remediation of all skill areas, along with a timeline by which they must be accomplished (see Remediation Plans above).

Participation in Externship Placements is also considered a **privilege not a right**. To be eligible to participate in an externship, students must be currently enrolled in the SLP graduate program and must meet the following requirements:

1. Students must have successfully completed all didactic coursework and clinical practicum. Students must have grades of B or better in SPLP 661 (2 times), 662, and 663 in order to be approved for externship placement. Students with a grade of “C” in coursework will need approval of the Clinic Director and Graduate Coordinator prior to being approved for externship placement. Students with a grade of “F” in coursework will need to repeat the course and achieve a better grade before being approved for an externship placement. Remember that only one course or clinic may be repeated (and only one time) during the program.

2. Students must have a cumulative GPA of 3.25 or higher before beginning the externship, and they must have completed 4 clinical practicum courses (SPLP 661 two times, 662, 663) with a grade of B or higher.

3. Students must have passing scores on the Technical Standards and Professional Dispositions Assessment.

4. Students must have successfully completed any remediation plans put into place to address deficiencies.

Moving from the first externship placement to the second externship placement is a **privilege not a right**. Successful completion of the first externship is required before the student may begin the second externship. If the first externship is not completed successfully, the student may be required to complete some or all of the following before being placed in a second externship:

1. Complete a remediation plan under the supervision of the IUP faculty. This may include the requirement that the student complete an additional semester of on-campus SPLP 661, 662, or 663.

2. Repeat an externship experience similar to that of the first externship.

If the second externship is not completed successfully, the student may be required to complete some or all of the following before graduating with a clinical MS-SLP degree:

1. Spend a semester or more in the IUP clinic until a remediation plan has been successfully completed.
2. Repeat an externship experience similar to that of the second externship.

For more information regarding School of Graduate Studies and Research Policy on grading, view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/

Degree Completion

SPLP-MS students must meet the 51 credit degree requirements as outlined above, including the clinical practicum requirements for the Certificate of Clinical Competence in Speech-Language Pathology. Students must complete their degree within five years of their first enrollment in classes. Students are responsible for knowing the requirements of the program, keeping their own records, monitoring their own progress toward degree completion, initiating contact with their advisor, and seeking advice and/or assistance as needed. Students will assume responsibility for checking and rechecking clinical clock hours and be knowledgeable regarding their progress toward completion of the required clinical hours for graduation and application for certification through ASHA.

Graduate students apply for graduation through MyIUP. Graduate students are required to apply for graduation by the established deadline dates:

- May Graduation: May 1
- August Graduation: August 1
- December Graduation: December 1

For more information, view the view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/

Access forms processed through the School of Graduate Studies and Research, click on Current Students: http://www.iup.edu/graduatestudies/

Thesis Completion

The speech-language pathology program has an optional thesis for any student pursuing the M.S. degree. Students electing the thesis option will consult with program faculty as early in the program as possible to identify an appropriate thesis advisor (i.e., faculty member with the needed expertise and time to devote to the student). Selecting the thesis option early in the program will increase the likelihood of completing the thesis in a timely manner. After identifying a thesis advisor, the student will request the participation of two additional program faculty willing to serve on the thesis committee. IUP faculty from outside of the program, if appropriate, may also be requested to join the committee. Students should review the IUP guidelines and timelines for completing various thesis components. Upon completion of the thesis, students must complete an oral defense. Thesis defenses are open to students or faculty from the program.

Evaluation Outcome for Thesis

Upon completion of the thesis defense, the committee members will meet privately and decide whether the student passes the defense or passes with designated revisions (in both situations the committee will sign off on the thesis at that time). If the student must revise and resubmit the
thesis, the committee members requiring the revisions will sign off on the thesis following successful revision. If the student fails the defense, he or she may withdraw from the thesis process and graduate if all other program requirements have been met. Otherwise, the student must either redo the thesis and resubmit or otherwise complete the degree requirements (typically, completing the seminar credits for which the thesis was to substitute). Effective fall 2017 for students admitted and students admitted after, thesis credits will be assigned pass or fail as the final evaluation outcome for the taken credits and carry no quality points weighted towards a student’s CGPA.

For more information, view the Graduate Catalog:  www.iup.edu/graduatestudies/catalog/

University Policy and Procedure

University policy is the baseline policy. Programs may have policy that is more stringent than the University baseline policy; however, not less stringent than the University baseline policy. For questions regarding this statement, please contact Dr. Lori Lombard, Dr. Lisa Price, or the School of Graduate Studies and Research.

Affirmative Action:
Indiana University of Pennsylvania is committed to providing leadership in taking affirmative action to attain equal educational and employment rights for all persons, without regard to race, religion, national origin, ancestry, sex, physical handicap, or affectional or lifestyle orientation. This policy is placed in this document in accordance with state and federal laws including Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973 as well as federal and state executive orders. This policy extends to disabled veterans and veterans of
the Vietnam era. Please direct inquiries concerning equal opportunity to: Office of the Provost, 205 Sutton Hall, 1011 South Drive, IUP, Indiana, PA 15705-1046 U.S.A.

Bereavement-Related Class Absences
For Information regarding the Bereavement-Related Class Absences policy, view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/

Continuous Graduate Registration for Thesis
Effective fall 2017: Masters thesis students must adhere to the following Continuous Graduate Registration policy for Dissertation and Thesis:

Following completion of course work, including internship or practicum; (excluding comprehensive exam or qualifiers) all doctoral and master’s thesis students must be continuously enrolled for at least one credit of dissertation or thesis each semester (Fall and Spring) annually, through the graduation of the student or until the time limit is exceeded. There is no separation between completions of course work, internship or practicum and initiation of dissertation or thesis credit registration.

Once the student has registered for the number of dissertation credits required by the program of study (typically nine or twelve), or the number of thesis credits required by their program of study (typically three to six), she or he must register for one dissertation or one thesis credit each semester (Fall and Spring) annually through the graduation of the student or until the time limit is exceeded (See Time Limitation Policy for doctoral or master’s students). For this period, the student will be considered a full-time doctoral or masters student.

All dissertation and thesis credits will be pass/fail credits. Students must complete the minimum number of dissertation or master’s thesis credits required by their program, but may take additional dissertation or thesis credits as is necessary to comply with the Continuous Graduate Registration for Dissertation and Thesis policy.

Until the dissertation or thesis is successfully defended, a grade of “R” will be assigned to each registered credit. Upon successful completion of the dissertation or thesis, the grade assigned by the dissertation or thesis director will apply to all registered dissertation or thesis credits. Students must pay tuition and mandatory university fees for all credits (equal to the part-time mandatory fees), and may choose to pay the Wellness Fee.

For more information regarding School of Graduate Studies and Research policy on registration, view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/
Access forms processed through the School of Graduate Studies and Research, click on Current Students: [http://www.iup.edu/graduatestudies/](http://www.iup.edu/graduatestudies/)

**Graduate Fresh Start Policy**
A graduate student who has been separated from the university as a result of academic dismissal, including time-to-degree dismissal, may only apply for readmission to the University if the student has been separated from the university, for a minimum of two calendar years (24 consecutive months) from the date of dismissal. The request to be considered for readmission to the University must be into a graduate program, and readmission to the program from which the student was dismissed may not be sought. A student dismissed as a result of an academic integrity violation is barred from utilizing the Graduate Fresh Start Policy to request readmission.

**Conditions for a Graduate Fresh Start Application**
A graduate student may apply for a Graduate Fresh Start only if he/she meets all of the following conditions:

- he/she was academically dismissed, including time-to-degree dismissal from an IUP graduate program;
- he/she has been separated from the university for a minimum of two calendar years (24 consecutive months);
- he/she applies for readmission consideration to a graduate program at IUP, excluding the program from which the student was academically dismissed.

The graduate student must apply to the desired program through the standard Admissions process. Having reviewed the prior and intervening factors for evidence of potential for improved academic success, the program coordinator, after departmental review, may recommend to the Dean of Graduate Studies and Research that the student be readmitted to the University and admitted to the program. The Dean’s decision is final and is not subject to appeal.

**Conditions for a Graduate Fresh Start Record**
All credits and grades for IUP course work taken before readmission under this Graduate Fresh Start Policy shall remain on the transcript. Upon readmission, a new cumulative (GPA) is established based on credits and grades earned from the date of readmission. Individuals may seek readmission to the University through the provisions of this policy only once.

**Prior Record**
The student’s graduate record will be identified as a Graduate Fresh Start. No graduate credits earned from the program in which the student was dismissed are permitted to be transferred to the Graduate Fresh Start sought degree. Any other transfer credits must meet the IUP Transfer Credit Policy.

Students seeking a degree under the Graduate Fresh Start are not permitted to repeat a previously taken course from the program in which the student was dismissed and have it count towards improving the previous CGPA that was prior to readmission. Any course repeat(s) will be counted as
a course taken under the Graduate Fresh Start and applied solely to the new degree sought and new cumulative GPA.

**Academic Standards**
A student who is readmitted under the provisions of the Graduate Fresh Start Policy shall be required to meet current degree requirements. He/she shall be academically reviewed under the policies published in the academic catalog at the time of re-matriculation. Students readmitted to the University under this policy and who were dismissed initially by exceeded time-to-degree requirements may not be granted extensions of time-to-degree requirements.

**Graduation Graduate Residency Requirement Policy**
For master's students, at least 2/3 of the credits meeting program requirements must be taken from the University offering the degree.

Note that these set the minimum number of credits that must be taken "in residence" and that universities can limit the number of hours that will be allowed to transfer into a graduate program.

Active-duty service members who are graduate students will be handled on a case-by-case basis.

Exceptions are to be approved by the Office of the Chancellor's Division of Academic and Student Affairs.

**Program Level Exams Appeal Policy**

*Appeals for Program Level Exams such as, candidacy, comprehensive, or qualifying examinations, are made to the Dean of the School of Graduate Studies and Research (SGSR) based on policy and/or procedural violations. The appeal can be based only on policy and/or procedural violations; and not simply on the outcome of the examination. Procedural violations would be cases in which the program/department failed to follow program/department and/or University policies and/or procedures relating to the administration and/or evaluation of the exam.*

*The appeal must be made in writing to the Dean of the School of Graduate Studies and Research. Documentation of the policy(ies)/procedures in question must be provided, along with a detailed description of the alleged violations(s). All evidence supporting the alleged violation should also be provided. The student must submit the written appeal to the Dean of the SGSR within 30 days of receipt of the outcome of the examination.*

*Upon receipt of the written appeal to the Dean of the SGSR, the Dean will conduct an investigation of the allegation, review the*
documentation and render a final decision which completes the appeal process. The final decision rendered by the Dean of the SGSR may not be appealed.

If it is found that policy/and/or procedure has been violated, the Dean of the SGSR will instruct the program/department to allow the student to retake the exam, fully adhering to policy and procedures. In the event of a finding in support of the student allegation, the reexamination may not be counted as one of the attempts permitted under the University or Department’s Reexamination Policy.

Reexamination Policy: Candidacy/Comprehensive Examination
No student is permitted a “third” examination without a recommendation to that effect from the degree program’s sponsoring department per their adopted written procedures and the approval of the School of Graduate Studies and Research Dean (or designee). Exceptions to this policy for programs can be made only with the approval of the School of Graduate Studies and Research.

Registration
http://www.iup.edu/registrar/students/registration/
For more information regarding registration and tuition billing, please contact the Office of the Bursar: www.iup.edu/bursar/

Social Equity
The Office of Social Equity: www.iup.edu/socialequity/
For more information regarding University policy, view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/

Student Conduct
Policies from the Office of Student Conduct: www.iup.edu/studentconduct/policies/ (IUP Email Communication Policy, Student Behavior Regulations, The Source, Student Rights and Responsibilities, etc.)

Time Limitations
Masters students must complete degree requirements no later than five years from the date of earning or transferring credit, unless the period is extended through student petition.
Petitions are approved by the student’s department and the dean of the School of Graduate Studies and Research.
For more information regarding School of Graduate Studies and Research policy on registration, view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/

Time-to-Degree Masters Dismissal Appeal Policy
A student dismissed from a program because of time-to-degree expiration (see Time Limitations policy) can appeal the decision to the
Dean of the School of Graduate Studies and Research (SGSR), based on policy and/or procedural violations. The appeal can be based only on policy/procedural violations.

The appeal must be made in writing to the Dean of the School of Graduate Studies and Research. Documentation of the policy(ies)/procedures in question must be provided, along with a detailed description of the alleged violations(s). All evidence supporting the alleged violation should also be provided. The student must submit the written appeal to the Dean of the SGSR within 30 days of receipt of the dismissal letter.

Upon receipt of the written appeal to the Dean of the SGSR will conduct an investigation of the allegation, review the documentation and render a final decision which completes the appeal process. The final decision rendered by the Dean of the SGSR may not be appealed.

If it is found that policy/and/or procedure has been violated, the Dean of the SGSR will rescind the dismissal.

a. Masters student time limitation (see Time Limitations policy) may be extended through student petition to the Assistant Dean of the SGSR. The program coordinator on behalf of the student, no later than the first day of the month of the student’s time-to-degree expiration date, makes the request to the Dean (or designee) of the SGSR. The request must include justification for the extension. Official documentation to justify the request for the extension and the amount of time will be required by the Dean (or designee) of SGSR to support the request.

Title IX Reporting Requirement
For more information regarding Title IX Reporting Requirement policy, view the Graduate Catalog: www.iup.edu/graduatemktg/catalog/

Transfer of Credits (Effective fall 2017) Policy
A student may transfer graduate credits from another institution, with Department approval, up to one third (1/3) of the required credits for the graduate student’s program at IUP. These graduate courses must have been taken from a regionally accredited institution, within the past five years, and the grade earned must be a “B” or its equivalent or better. The time limitation rule and residency requirements pertain without modification to transfer credits.
Up to one third (1/3) graduate credits originally earned in one graduate program at IUP may be applied toward a different graduate program if: 1) the receiving department and 2) the School of Graduate Studies and Research both approve the credits as meeting degree requirements. These courses must have been completed within the past five years, and the grade earned must be a “B” or its equivalent or better.

The combination of transfer graduate credits earned at another institution and those earned at IUP may not exceed one third (1/3) of the total required graduate credits for the program.

To request transfer credits, the student must complete the Request for Graduate Transfer Credit Review form and follow the instructions listed on the form. A catalog course description or course syllabus must accompany the request. An official graduate transcript showing the earned graduate credits must be provided by the school at which the credits were taken. To be considered official, the transcript must arrive in a sealed envelope bearing the official seal of the issuing institution. The request is reviewed in the School of Graduate Studies and Research and the academic department. After review, the student’s program coordinator and the student are notified of the transfer decision.

It is strongly recommended that students seeking to transfer graduate credits from another institution while enrolled at IUP receive advance written authorization for credit acceptance from the School of Graduate Studies and Research and the academic department prior to enrolling in that course.

If graduate credits earned at another institution are approved for transfer, only the credit, not the grade or accompanying quality points, will appear on the student’s IUP transcript.

Graduate credits earned at IUP that are approved for transfer to a second program will not be posted to the transcript a second time.

Because the program must verify the knowledge and skills fundamental to the practice of speech-language pathology, students in the SPLP-MS program must pass a variety of clinical skills demonstrations. Students who transfer in credits from another institution still must pass these clinical skills assessments in order for the Graduate Coordinator and/or Chair to sign the document students submit for certification. For example, students who transfer in coursework in research methods must demonstrate through face-to-face discussions that they understand the tenants of evidence-based practice. These discussions will be with the instructor for the Elements of Research course as well as with clinical supervisors during clinical practicums. Students who transfer in a course on a particular disorder will be expected to participate in the lab sessions for those classes
during which students demonstrate the laboratory skills in that disorder area. If the student fails the competency demonstration, he or she would participate in a remediation plan just as any other student would in order to remediate the deficient skills. The process would then follow procedures for remediation plans outlined above (see Remediation Plans). Upon admission, the student and appropriate faculty members will discuss what tasks, labs or meetings will be required to satisfy the knowledge and skills areas, and materials the student can use to prepare will be identified.

For more information regarding School of Graduate Studies and Research policy on transfer credits, view the Graduate Catalog: www.iup.edu/graduatestudies/catalog/

Appendix D: Graduate Assistantship Guidelines & Performance Review Criteria

GRADUATE ASSISTAN TSHIP ELIGIBILITY:
To be eligible for a graduate assistantship, students must:

- Be fully matriculated into a degree-seeking IUP graduate program.
- Maintain full-time enrollment as agreed upon at the time of graduate assistantship agreement signature.
- Achieve and remain in good academic standing as per the Good Academic Standing Policy per the Graduate Catalog. This is a baseline requirement.

GRADUATE ASSISTAN TSHIP OFFERS:
The graduate coordinator will contact you if you are being offered a graduate assistantship. After this initial contact, you can expect the School of Graduate Studies and Research to begin the awarding process—please check your IUP e-mail account regularly.

SGSR E-mail 1: The School of Graduate Studies and Research will e-mail your offer in the form of a Graduate Assistantship Agreement and position overview. The agreement will outline terms and conditions and will state a deadline by which you must return your agreement with your signature. The position overview will outline the tasks and duties of the position.

SGSR E-mail 2: The School of Graduate Studies and Research will confirm receipt of your signed Graduate Assistantship Agreement. You will receive an e-mail from donotrepy@neogov.com to your campus email address with a subject of "Activate Your Neogov PE user account." This e-mail contains an activation link valid only for five days. Follow the link to activate your account to begin the process of obtaining three background clearances. The required clearances related to PA Act 135 and IUP’s background investigation checking policy are:

- Act 34 - Pennsylvania State Police Criminal Background Check (SP4-164)
- Act 151 - Pennsylvania Child Abuse History Clearance Form (CY-113)
- Act 114 - Federal (FBI) Fingerprint Criminal Background Check (Criminal History Report)

SGSR E-mail 3: The School of Graduate Studies and Research will send a final e-mail clearing you to begin working as a graduate assistant (GA). This e-mail will include a checklist of tasks to complete before your first day of work as a GA.

All e-mail correspondence will go to your IUP e-mail account from graduate-assistantships@iup.edu. Please make sure your IUP e-mail account is active and you are frequently checking your e-mail immediately after admission into a graduate program.

GRADUATE ASSISTANTSHIP RESPONSIBILITIES:
You can expect opportunities to advance your professional preparation while enhancing your academic experience. Academics and scholarly achievement are the top priority. As such, graduate assistantships are rewarding and beneficial educational experiences that include prospects for supporting instruction, research, networking, programming, providing valuable university services and resources, as well as learning new skills and improving others.
Graduate assistants are guided and supervised by scholarly faculty and university staff dedicated to providing a valuable learning experience. At the same time, GAs are beneficial to the functioning of academic and student service units.

**GRADUATE ASSISTANTSHIP SCHEDULES:**
Graduate assistants and their assigned faculty and university staff will establish a schedule for completing the ten-hour work commitment. Graduate assistants are not required to work during university authorized breaks/days off or during finals week.

**GRADUATE ASSISTANTSHIP PERFORMANCE REVIEW:**
Assessment of GA’s performance will be completed two times during each semester. It is expected that the GA will meet or exceed expectations on 90% of the areas outlined below. In the event that the GA fails to maintain these high standards, remediation will be initiated by the assigned faculty/staff member with the expectation that the target level of performance will be achieved upon next review. In the event that the expected level of performance is NOT achieved following remediation/upon second review, the department faculty will consider ramifications, including revocation of the graduate assistantship. Similarly, a graduate assistantship may be lost in the event that the GA does not maintain good academic standing as per the Good Academic Standing Policy outlined in the Graduate Catalog.
