Description of Curriculum Change

1. Catalog Description

SO 301 Foundations of Sociological Practice 3c-01-3sh

Prerequisite: SO 151

Introduces students to the field of sociological practice and develops an understanding of the relevance of micro and macro sociological theory to understanding human problems. Focuses on applications of sociological theory and methods to the helping professions and especially to understanding the interactional aspects of the relationship between service users and service providers. Also acquaints students with the structure of the human service system in American society.

2. CURRENT:	PROPOSED:
SO 301 Clinical Sociological Theory	SO 301 Foundations of Sociological Practice

3. The rationale for this change is that the title "Foundations of Sociological Practice" is more consistent with the course content than the previous title. "Sociological Practice" is now used by the American Sociological Association to describe both applied and clinical sociology as they are used in this course. Please note that the description for the class has been changed as well (in terminology and phrasing) as permitted in the Undergraduate Curriculum Handbook (p. 11).
