[Signature] 3/23/99
 College Dean

+ Director of Liberal Studies (where applicable)

*Provost (where applicable)

Part II. Description of Curriculum Change

- 1. Complete catalog description with the new number, title, number of credits, prerequisites, and an appropriately written course description.**

MA 456 Geometry for Elementary and Middle School Teachers 3c-0l-3sh

Prerequisites: MA 152; Elementary Education concentration

Students become acquainted with an informal, intuitive approach to geometry. Activities and materials for teaching geometrical concepts to children are an integral part of the course.

- 2. A listing of the proposed change giving the old title and number and the new title and number.**

**Old title and number:
MA 456 Principles of Geometry I**

**New title and number:
MA 456 Geometry for Elementary and Middle School Teachers**

- 3. Justification/rationale for the change.**

There has been some confusion between this course and the course for Secondary Mathematics Education Majors, MA 355 Foundations of Geometry I. The new title, which reflects the purpose and content of the course, should help alleviate that confusion.

Part III. Letters of Support

No other departments are affected by this change.
