RE: Rehabilitation Program Revision

Attached you will find a revision of the Proposed Rehabilitation Program Revision responding to your screening comments. Thank you for catching these errors. Your careful work simplifies our job later. I'm sorry I didn't catch them earlier.

Due to the necessary revisions, the page numbers of the program revision have changed. We've numbered the revised proposal (1R-4R). We did not include copies of the memos of support again; therefore, the page numbering on those pages will not follow the attached revision.

PROGRAM REVISION
Rehabilitation Program

Part II. Description of Curriculum Change

1. Catalog description for the revised program in the appropriate form.

Bachelor of Science — Rehabilitation

Liberal Studies: as outlined in Liberal Studies 54-55
Section with the following specifications:

Mathematics: MA217

Natural Science: Laboratory Science sequence required

Social Science: PC101, S0151

Liberal Studies electives: PC321, no courses with RH prefix

Major:

48

Required courses:

| | | |
|-------|--|------|
| RH200 | Introduction to Rehabilitation | 3 sh |
| RH211 | Medical Aspects of Rehabilitation | 3 sh |
| RH220 | Neurological Basis of Disability | 3 sh |
| RH312 | Psychological Basis of Disability | 3 sh |
| RH321 | Principles & Methods of Rehabilitation | 3 sh |
| RH322 | Rehabilitation Case Study & Interpretation | 3 sh |
| RH360 | Rehabilitation Counseling: Strategies | 3 sh |
| RH410 | Vocational Assessment in Rehabilitation | 3 sh |
| RH412 | Occupational Aspects of Rehabilitation | 3 sh |
| RH422 | Current Topics in Rehabilitation | 3 sh |
| RH460 | Advanced Rehabilitation Counseling | 3 sh |
| RH484 | Directed Rehabilitation Activities | 3 sh |
| RH488 | Field Training in Rehabilitation | 6 sh |
| RH493 | Field Training in Rehabilitation | 6 sh |

Other Requirements:

6-7

Required course:

| | | |
|------------------------------------|--|--------|
| EX111 | Introduction to Exceptional Persons | 3 sh |
| Controlled elective(s): (*) | | 3-4 sh |
| BI150 | Human Anatomy | 3 sh |
| BI151 | Human Physiology | 4 sh |
| BI155 | Human Anatomy & Physiology | 4 sh |
| EH115 | Introduction to Sign Language | 1 sh |
| EH244 | Intermediate Sign Language | 1 sh |
| EH331 | Advanced Sign Language | 1 sh |
| EX340 | Introduction to Behavior Management | 3 sh |
| EX416 | Education of Persons with Emotional or Behavioral Disorders | 3 sh |
| EX417 | Education of Persons with Mental Retardation or Developmental Disabilities | 3 sh |
| EX418 | Education of Persons with Physical or Multiple Disabilities | 3 sh |
| EX419 | Education of Persons with Brain Injuries or Learning Disabilities | 3 sh |

| | | |
|-------|-------------------------------|------|
| HP221 | Human Structure and Function | 3 sh |
| PC312 | Adult Development and Aging | 3 sh |
| PC378 | Psychology of Death and Dying | 3 sh |
| S0251 | Sociology of Human Sexuality | 3 sh |
| S0335 | Alcohol and Drug Abuse | 3 sh |

Free Electives: 14-16

Total Degree Requirements: 124

(*) Some Controlled Elective choices have prerequisites that may be used as Free Electives.

2. Summary of changes:

a. Table comparing old and new programs.

| Current program choices for controlled electives (3-4 sh): | Revised program choices for controlled electives (3-4 sh): |
|--|--|
| BI155 Human Physiology & Anatomy 4 sh | BI155 Human Physiology & Anatomy 4 sh |
| HP221 Human Structure & Function 3 sh | HP221 Human Structure & Function 3 sh |
| | BI150 Human Anatomy 3 sh |
| | BI151 Human Physiology 4 sh |
| | EH115 Introduction to Sign Language 1 sh |
| | EH244 Intermediate Sign Language 1 sh |
| | EH331 Advanced Sign Language 1 sh |
| | EX340 Introduction to Behavior Management 3 sh |
| | EX416 Education of Persons with Emotional or Behavioral Disorders 3 sh |
| | EX417 Education of Persons with Mental Retardation or Developmental Disabilities 3 sh |
| | EX418 Education of Persons with Physical or Multiple Disabilities 3 sh |

| Current program choices for controlled electives (3-4 sh): | Revised program choices for controlled electives (3-4 sh): |
|--|--|
| | EX419 Education of Persons with Brain Injuries or Learning Disabilities 3 sh |
| | PC312 Adult Development and Aging 3 sh |
| | PC378 Psychology of Death and Dying 3 sh |
| | S0251 Sociology of Human Sexuality 3 sh |
| | S0335 Alcohol and Drug Abuse 3 sh |

2b. There are no associated courses.

3. Rationale for change: The proposed revision expands the list of courses from which a student may select for a "controlled elective". This provides students with the opportunity to select a course they feel will add to their professional development. The field of Rehabilitation is broad and this change will help us accommodate the needs of students interested in specializing in diverse aspects of the field.

Part III. Implementation:

1. The program revision will have a positive effect on students already in the existing program. Because they will be able to choose from a wider number of controlled electives, they will be better able to tailor their coursework to their professional interests and needs.
2. The program revision is not anticipated to affect teaching loads in any appreciable manner. We anticipate that the students will be dispersed relatively evenly among the different courses. Furthermore, they will have several years to complete this 3 credit requirement so their course enrollment will also be dispersed over time.
3. There is no apparent reason to anticipate the need for additional resources.
4. We do not expect that this change in a controlled elective will have any impact on the number of students enrolled in this major.

Part IV. N/A

Part V. Letters of Support

See attached letters from Drs. James Mill, Robert Prezant, Herb Hunter and Carl Schneider. Also, letter from Clarice Reber.

Clarice,

I remember discussing this situation with you last semester and as a result of our discussion, spoke to Ed Sloniger about the proposed change involving HP221, as well as the problems some of the Rehab majors are having with the course. As far as I am concerned feel free to make whatever changes needed in your curriculum to ensure the best education for the rehabilitation majors. The department of HPE will support your decision.

Clarice,

I have received the E-mail from Laura Marshak regarding use of BI150 (Human Anatomy) and BI151 (Human Physiology) as controlled electives for the expanded rehabilitation program. With enrollment management taking effect in Nursing we have seen a few slots open in those courses. Thus, unless there are additional changes across campus (and Nursing is about to put forward some new programs that could impact BI151) we should be able to handle the few students indicated by your program expansion. Please share this with Laura.

Subj: Rehabilitation Program Electives

You have my permission to list the two courses you mentioned as controlled electives in the Rehab program. I would like to know more about your program, since this is the first time I have ever heard of the Rehabilitation program. The two courses you mentioned are offered regularly, but I cannot guarantee that this will always be the case; since schedules are determined by programmatic needs. One of our new faculty will be offering a special topics course at some point on Society and Disabilities, which is likely to become an established course, so you may have some interest in this course. You can make inquiries with Rosalyn Darling - RDarling (e mail address).

arl:

Rehabilitation has decided to expand the choices of controlled electives required of our majors. We would prefer they select one of 15 courses instead of our current one of two. We are interested in placing PC 312 Adult Development and Aging and/or PC 378 Psychology of Death and Dying on the list of controlled electives. We anticipate a relatively small number of students could enroll in any given semester because each year approximately 20 to 30 students will be dispersed among the 15 courses. We are requesting your permission for the specified courses to be used as options to Rehabilitation controlled elective requirement. Please send a response to Clarice_Reber via E Mail or Laura Marshak, Davis 203 via regular mail so that we can proceed further.

Thanks very much.

Laura Marshak

Hi, Mark. It has come to my attention that the UWUCC and Senate have already approved revisions in the following programs:

BS in Medical Techology
BS in Education/Home Economics
BS in Rehabilitation

As Marcia McCarty was preparing the final copies for the Senate archives, she realized (and notified me) that your signature is not on the cover sheets for these program revisions.

I took this matter to the UWUCC and we all agreed that I should at least notify you that we approved these items and sent them on to Senate without your signature. This was not intentional in any way and we have since become much more careful in looking for your sign off on program revisions BEFORE the UWUCC even screens a proposal for a program revision.

Please advise me as to any action you think necessary to address this matter.

Thank you.

Jody

Thanks for letting me know. Since my signature is primarily there to indicate support for needed resources, as long as those programs require none, I see no reason notto let it go through. Thanks again.
