*Please note that raw scores cannot be converted directly to percentages on a scoring rubric. There are various options for determining a percentage. One is to use a formula such as the following:*

**Apply Rubric Formula: (Total Rubric Points x 52) / 30 + 48 = \_\_\_\_\_%      Grade: \_\_\_\_\_**

**For example: (26 x 52) = 1352 / 30 = 45.07 + 48 = 93.07 %      Grade: A**

*Another option is to calculate the percentage using the following website: [www.roobrix.com](http://www.roobrix.com). The site contains a table in which you provide a few pieces of information, including what you want the lowest passing percentage to be, and the table calculates the percentage for you immediately.*
