UWUCC Fast Track Policy for Minors:

For program minors that are simply adding credits/courses to meet the PASSHE maximum number of credits for a minor of 18 credits, a simplified program revision proposal that includes a table with the current minor requirements on one side and the proposed minor requirements on the other side may be submitted, along with a brief rationale. The PASSHE deadline for approval of these changes is by July of 2015, which means that proposals need to be approved by the final Senate meeting of 2014-15.
