IUP UNIVERSITY SENATE**

**February 2, 2016**

Chairperson Piper called the February 2, 2016 meeting of the University Senate to order at 3:34 PM, in Eberly Auditorium.

Attendance at the Senate meeting can be found on the Senate website under Meeting Minutes.

The minutes from the December 1, 2015 meeting were **APPROVED**.

Agenda items for the February 2, 2016 meeting were **APPROVED**.

**REPORTS AND ANNOUNCEMENTS**

**President's Report**

President Driscoll began his remarks by providing information on the ongoing work in the areas of diversity and inclusion at IUP.

- Efforts are being made to increase and enhance the diversity education provided to new students during orientation. In addition, the Office of Human Resources is examining the current assets that IUP has to conduct civil dialogues and diversity training for all faculty.
- The Office of Social Equity has created a tool that allows them to capture the events that are ongoing at IUP in regards to diversity and inclusion. This information can be found on their website.
- Everyone is encouraged to participate in the Campus Climate Survey.
- Around the end of April, there will be a university-wide symposium day on diversity and inclusion.
- IUP will conduct several events during February to celebrate Black History Month.
- A President's commission on diversity and inclusion will be created later this semester.

President Driscoll provided an update on the state's budget.

- The legislature sent another version of the budget to Governor Wolf. The governor used his line item veto to make adjustments to this budget. The appropriation for higher education was flat, even though we hoped for a 5% increase.
- IUP received about 5.4 million dollars for performance funding this year. This is a 1 million dollar increase from last year. IUP received more performance funding than any other institution in the system.
- PHEAA was funded and IUP will be receiving the money that it fronted to students.
- IUP's budget is balanced this year. Work on future budgets is continuing.

- The tuition pilot program was discussed at the last University Budget Advisory Committee (UBAC) meeting. Implementation of this pilot was deferred this year. A decision on whether this program will be used next fall is coming soon. Equity and the efficient use of resources in regards to this program was also discussed at the UBAC meeting.

President Driscoll remarked on the new Humanities and Social Sciences building. He said it is a sign that IUP is moving ahead during these challenging financial times. This will include the creation of new student dining space and a future science building.

### **Provost's Report**

Good Afternoon.

I have two items to discuss. The first is to announce that the S3P revision proposed by Indiana University of Pennsylvania was approved at the state Meet-and-Discuss. **NO MORE BOX!**

The second is to remind you that Middle States Reaffirmation activities are in full swing. Our site visit is April 10-13. We have heard that IUP is very far ahead of the mark but I am asking that all senators do think about the following as we prepare for the site team. Be aware that when the team is on campus they can ask random individual questions. Please be well versed with the IUP strategic plan.

## FOR ACTION:

### Senate Bylaws Change Request

APPROVED

**Proposal:** Amend Bylaws V. C and V. D regarding inconsistencies in the language between the University-Wide Undergraduate Curriculum Committee and University Wide Graduate Committee.

**Rationale:** There were numerous inconsistencies in language in the bylaws for these committees. This amendment will make language consistent where it is appropriate to do so. Also, membership for the UWUCC is revised to remove the president of APSCUF as an ex-officio member. This was not the intent in the original language but instead for the president of APSCUF to appoint a co-chair to the committee, as stated in the membership for the UWGC.

### *Current Bylaw:*

#### C. University-Wide Undergraduate Curriculum Committee

1. Function: The area of responsibility of the committee shall be degree requirements and all matters relating to undergraduate programs and curricula except as herein after relegated to the charge of another committee.
  - a. During the UWUCC's deliberations on curricular proposals, the APSCUF-appointed co-chair shall be responsible for informing the UWUCC of any CBA compliance problems identified by APSCUF.
  - b. The APSCUF co-chair of the UWUCC is responsible for communicating APSCUF's position(s) on curricular matters to the University Senate.
  - c. The committee shall present its curricular recommendations to the University Senate.
  - d. Any senator may request the chair of the University Senate, in consultation with the attending chair(s) of the committee and/or representatives of the originating department, to rule whether a change proposed on the floor is substantive. If substantive changes are made on the University Senate floor, the proposal shall return to the originator for possible re-submission.
2. Membership:

- a. Ex officio: The provost and vice president for Academic Affairs, and the president of APSCUF or her/his designee from the FACULTY. The APSCUF co-chair of the UWUCC is responsible for communicating APSCUF's position(s) on curricular matters to the University Senate.
  - b. Elected: Twelve members shall be elected by and from the FACULTY in university-wide elections. FACULTY members elected to the UWUCC shall be automatically elected to the at-large portion of the faculty segment of the University Senate. A committee member who resigns from the UWUCC shall at the same time relinquish her/his at-large seat in the University Senate. A FACULTY member elected to the University-Wide Undergraduate Curriculum Committee who is also elected as a department representative to the University Senate, shall notify the chair of the Rules Committee immediately, who will then fill the at-large vacancy from the list of alternates. If a department representative resigns or is removed from the UWUCC during a term of office, the seat will be filled from the University Senate by the next highest vote recipient in the UWUCC election who is available to serve. If no vote recipient for the UWUCC is available to serve, the seat will remain vacant until the next regular University Senate election. If two or more seats are vacant on either or both of the UWGC or the UWUCC, or if any academic college lacks representation, a special election shall be scheduled to fill the vacant seats from the University Senate.
  - c. Three students shall be appointed by and from the Student Government Association.
  - d. Each academic college shall have FACULTY representation on this committee.
  - e. No more than one FACULTY member from the same department may serve on this committee.
  - f. No more than four FACULTY members of any individual college or unit may serve on this committee.
3. Officers:
- a. Co-chairs shall be named from the FACULTY. The president of APSCUF or his/her designee shall serve as one of the co-chairs. Upon appointment, the APSCUF-designated co-chair shall be automatically elected to the at-large portion of the faculty segment. If the APSCUF president or designated co-chair resigns as committee co-chair, at the same time, he/she shall relinquish his/her at-large seat in the University Senate. The APSCUF-designated co-chair cannot serve as a department representative. The other co-chair shall be elected by the committee from its membership.
  - b. The secretary shall be elected by the committee from its membership.
4. Meetings: All regular meetings of the committee shall be open.

**APPROVED**

**Current Catalog Description:**

**FSMR 456 Historic Costume** **3c-01-3cr**

A chronological study of historic costume from ancient times to the present day with emphasis on the effect of aesthetic, economic, geographic, political, religious, and social factors on the design of clothing worn.

**Proposed Catalog Description:**

**FSMR 456 Historic Costume** **3c-01-3cr**

**Prerequisite:** Junior Standing

A chronological study of historic costume from ancient times to the present day with emphasis on the effect of aesthetic, economic, geographic, political, religious, and social factors on the design of clothing worn.

**Rationale:** FSMR 456 has no prerequisites despite its 400-level designation. Junior standing as a prerequisite is more appropriate in order to ensure a higher student maturity level. Historic Costume is a content-heavy history course that may overwhelm younger students.

**Rationale:** Last year the Biology Department increased the number of credits for BIOL 250 from 3 credits to 4 credits. This change to BIOL 250 resulted in the reduction of the number of controlled biology electives from 9 credits to 8 credits. We are proposing to readjust our Required Biology Courses and our Controlled Biology Electives for Biology/Pre-Medical Track students. These changes will allow us to provide courses that are more relevant to the content that students are expected to know for the Medical College Admission Test (MCAT). Specifically, BIOL 220 and 352 were moved to controlled electives as their content is not as relevant to the Biology/Pre-Medical Track as the other Required Biology Courses. BIOL 240 was included as a Required Biology Course since the course content is directly applicable to the Pre-medical Track. These curriculum changes result in the Required Biology Course credits dropping from 17 credits to 15 credits. These credits were moved to the Biology Controlled Electives, which will allow students to broaden their background in the biological sciences. All Biology/Pre-Medical students will still be required to complete the Biology Required Courses that include BIOL 201, BIOL 202 and BIOL 203.

recommended), or two courses in geography/regional planning (from the following: GEOG/RGPL 213, 314, 316, 415, 417).

**Rationale:** Last year the Biology Department increased the number of credits for BIOL 250 from 3 credits to 4 credits. This change to BIOL 250 resulted in the reduction of the number of controlled biology electives from 9 credits to 8 credits. We are proposing to increase the controlled electives to 9 credits and to reduce the number of free electives from 10-16 credits currently to 9-15 credits. This will allow Biology Bachelor of Science – Pre-Veterinary students to better fulfill the second program learning outcome by broadening their background in the biological sciences. The proposed changes will also bring the degree requirements in the major to 60 credits, which fulfills state program requirements. In addition, we are proposing to remove and replace some of the Required Biology Courses. BIOL 310 is replacing BIOL 331 as veterinary students require more course content in the zoonotic spread of disease. All Biology/Pre-Veterinary students will still be required to complete the Biology Required Courses that include BIOL 201, 202 and 203.

**Rationale:** The proposed changes will add three extra credits to the Controlled Biology Electives that can be used by students towards an internship, independent study or an additional environmental health technical area course, thereby making the program more relevant to environmental health practice. Other programs will not be affected by the proposed changes. BIOL 240 and BIOL 250 will fulfill the graduation requirements of current students. Current students can immediately switch to the new curriculum and opt to not take BIOL 210, giving them additional credits for Controlled Biology Electives.

**2. PROGRAM REVISION (NEW TRACK)**

**APPROVED**

**Department:** Mathematics

**Degree Program:** M.S. in Applied Mathematics: Community College Track

**Catalog Start Term:** Fall, 2016

**Rationale:**

Due to changes in state policy, instructors teaching at community colleges must have an MA or MS degree with at least 18-24 graduate credits in the content discipline. Thus, many current instructors at community colleges are seeking a degree program in order to maintain their employment. This track in the MS in Applied Mathematics program will provide students with appropriate graduate mathematics content courses and will strengthen their background in teaching methodology.

Catalog Description	This track is designed to provide students who intend to teach at community colleges graduate mathematics contents and some teaching methodologies.
