Curriculum

1. Recommended Approval for Annah Hill, Type 1 Professor Commitment
2. Recommended Approval for GEOS 155 Geology of Climate Change for Liberal Studies Natural Science Non-Laboratory; Global Multicultural Awareness
 - Request that the proposer remove the course from Liberal Studies Electives category since it is already fulfilling a knowledge area.
3. Not recommending approval for MKTG 143 Consumer Wellness
 - The committee is currently not accepting any courses in the Dimension of Wellness category until such time as an assessment of this knowledge area can be conducted.
 - While the course is being proposed for a Liberal Studies Elective-Information Literacy the committee would like to suggest to the proposer to revise and resubmit it for Liberal Studies Elective competency areas not currently being met. The need is in the following competency areas: Quantitative Literacy, Scientific Literacy, or Technical Literacy.
 - There is also a need to have courses that whose outcomes map to the following Expected Undergraduate Student Learning Outcomes:
 - Civic engagement
 - The ability to work within complex systems and with diverse groups
