**Subject:** Thank you for presenting at Howard Univ

Dear Dr. Oblitey,

I wished to convey my sincerest thanks for presenting Information Assurance and the Hands on activities related to IA in our Information Systems Class. Our undergraduate students enjoyed the interactive lecture as well as gained experienced with various kinds of threats and vulnerabilities in IS systems.

As we try to establish an IA center at Howard, your expertise and assistance is very helpful. You have always made an effort to share your resources and knowledge with us.

I am hoping you will again soon.

Warm Regards,  
Rajni Goel, PhD  
Associate Professor  
Information Systems and Decision Sciences Department  
School of Business  
Howard University
