STUDENTS TALKING ABOUT HEALTHY LIFESTYLES

Brought to you by the Haven Project at the Center for Health and Well-Being

October 19, 2020

Domestic Violence Awareness Month

Since 1981, **October** has been recognized as Domestic Violence Awareness Month.

Domestic violence is an issue that impacts **all people**, regardless of race, ethnicity, nationality, age, religion, sexual orientation, gender, economic status, or ability. **Domestic violence is a public health issue, not a private matter between two or more people.**

Therefore, we must come together to take a stand against domestic violence in order to create and maintain communities free of violence.

Intimate partner violence accounts for 15% of all violent crime.

-NCADV

Lesbian, gay, and bisexual individuals are statistically more likely to be victims of domestic violence. -CDC

On average, nearly 20 people per minute are physically abused by an intimate partner in the United States. -NCADV

Domestic Violence

Domestic violence can be discussed using other phrases, such as *intimate partner violence*, *relationship violence*, or *dating violence*. These interchangeable phrases all include abuse, a pattern of behavior used to establish **power and control** over another person. *Abusive behavior* can be psychological, sexual, emotional, economical, or physical in nature.

The Domestic Violence Graveyard

Each tombstone contains a statistic or resource to promote Domestic Violence Awareness.
