- New scholars have submitted laptop purchases and should be reimbursed soon. Get approval from Dr. Farag/Ezekiel, if approved, send proof of purchase back to them for reimbursement process to start.
  - Nick is waiting for reimbursement, Ainsley and Cherokee have received reimbursement.
- Start to think about spring schedule classes as the spring class schedule is out now. For anyone who is graduating make sure your requirements are met and taken care of.
- For people who are graduating with free credits, keep in mind you must have at least 6 scheduled credits to stay in the DoD cyber scholarship status per semester. (We believe Dr. Farag mentioned this last meeting).

- Please attend IUP Cybersecurity Day and help out if you can. It's important for all scholarship recipients to attend to show professionalism.
- Stipends should be sent to you via direct deposit into your bank account. If you have not set direct deposit up, the IUP billing office should send you a check in the mail to your designated home address.
- Some students asked about whether they should still be applying for jobs after graduation because DOD job isn't guaranteed right after graduation yet. Ezekiel recommended to wait and see what happens and talk to Ms. Smitely from the program at Cybersecurity Day. If you fear not getting a job right after graduation, you always have the option to stay in grad school and get your free tuition and stipends for however many years.
