ABOUT NATIONAL CYBER LEAGUE

The NCL is a defensive and offensive puzzle-based, capture-the-flag style cybersecurity competition. Its virtual training ground helps high school and college students prepare and test themselves against cybersecurity challenges that they will likely face in the workforce.

EMPLOYERS NEED YOU

NCL generates individualized performance-based assessments called NCL SCOUTING REPORTS. Players attach these reports to their résumés to show their progress and achievements. The NCL Scouting Report makes players outshine their competition.
