Gain a deeper understanding
of this intriguing field while
considering your own
professional interests
and expanding your network

During this two-week seminar, you'll explore a wide range of topics related to the protection of U.S. interests at home, abroad and online.

National Security 2018 provides a unique opportunity to be in Washington, D.C. as you:

- **delve** into current issues you've seen in the headlines, from nuclear proliferation to U.S. election tampering
- **engage** with experts and public figures who deal with national security issues every day
- **explore** the nation's capital and gain insider access to organizations with connections in the field

Take the next step and visit www.twc.edu/nationalsecurity to find out more.
