Mark your calendar and come join us for CAE Forum! CAE Forum is a live, real-time, online, academic forum where members of the CAE community give non-technical presentations on topics of value to the CAE community. CAE Forum is about sharing your ideas, knowledge, and expertise to empower and strengthen our community. It's that simple. CAE Forum presentations are normally held on the third Wednesday of each month during the Fall and Spring semesters.

Date: 20 March 2019

Time: 1:10-1:50pm ET

Location: https://caecommunity.zoom.us/my/caeforum

Title/Topic: Internet of Things, Law Enforcement, and Public Safety

Audience: Students, Professors, Govt.

Presenter(s): Michael Losavio, Dr. Ghiyoung Im, and Dr. Adrian Lauf -- University of Louisville

Description:

Each IoT opportunity for social benefit is also an opportunity for criminal attack and exploitation. The interplay between the technical facts of the Internet of Things and the laws that regulate and protect people create challenges for privacy and security. It is essential that technical systems of protection be integrated into the meta-system of the administration of justice as a way to best secure people in response to the Internet of Things.

A recording of the live presentation will be available within 48 hours of the presentation at: https://www.caecommunity.org/content/cae-forum-resources
