

Cybersecurity & Infrastructure Security Agency / Region 6

Monthly Training Series – Part I

The U.S. Department of Homeland Security Cybersecurity & Infrastructure Security Agency, Region 6 is hosting monthly webinars to support our partners in strengthening their cyber and physical security posture. Each webinar will allow participants an opportunity to ask questions and interact with the instructor and attendees. Participants will also learn and participate in discussions on specific risks related to cybersecurity, physical security, and mitigating today's challenges effecting the supply chain. These events are provided by DHS at no-cost to attend.

OCTOBER 6, 2021 9:00 AM – 12:00 PM Central

Cybersecurity Resiliency Workshop

Participants will hear from CSA George Reeves on how to prepare for, adapt to changing conditions, and recover rapidly from disruptions.

OCTOBER 27, 2021 9:00 AM – 12:00 PM Central

Cybersecurity Incident Management Workshop

Participants will hear about today's emerging cyber threats, response and reporting requirements, along with effective preparedness and mitigation efforts.

NOVEMBER 3, 2021 10:30 AM – 12:00 PM Central

Active Shooter-What You Can Do

Attendees will learn what personal measures to take during an active shooter incident.
