EARN WHILE YOU LEARN - AS AN NSA INTERN

If you'd like to learn how you can take on real-world assignments at the nation's top cryptologic agency while you're still in school, don't miss NSA's upcoming webinar on student programs.

Offered on three different dates, you'll hear directly from NSA employees on the great opportunities we have to offer! This session is for students at any level, but will focus on paid programs for college students, such as summer internships and Cooperative Education Program (Co-op) opportunities!

All majors are welcome, but this session will focus specifically on computer science, computer/electrical engineering, cybersecurity, and Chinese, Russian, Korean and Farsi languages.

We hope to see you online for one of these sessions:

2pm EST
Wednesday | February 23

4pm EST
Wednesday | March 9

For more information, visit
IntelligenceCareers.gov/NSA

NSA is an equal opportunity employer. U.S. citizenship is required.
