**If you've never been to a Green Dot presentation, you can still participate! Here are some basics about Green Dot.**

## **WHAT IS GREEN DOT?**

The Green Dot Bystander Intervention program is a comprehensive approach to violence prevention that capitalizes on the power of peer influence. Our mission is to have fewer people hurt by power-based personal violence. This includes sexual assault, dating and domestic violence, and stalking. You can be an active voice and step in when someone needs it the most. Any action that reduces the risk of violence in the moment, supports survivors, or creates a culture less tolerant of violence is a Green Dot.

## **3D'S OF GREEN DOT**

### **DIRECT**

When you intervene in a situation by directly addressing those involved - the perpetrator or the individual being harmed.

### **DISTRACT**

You can indirectly intervene in a potential red dot situation by intentionally distracting those involved.

### **DELEGATE**

If you do not feel comfortable intervening yourself, you can ask someone else to help who may be more equipped.

# Checklist

## for creating a green dot

- Put green dot information on your social media
- Have conversations about ending power-based personal violence
- Look out for friends at parties, bars, online, and in other high risk situations
- Get involved with your on-campus organization (Example: Haven Project)
- Share resources for help on & off campus with others
