Reporting and Investigating: Contact University Police (UP) at 724-357-2141. UP will assist the survivor in reporting the assault and refer him/her to the appropriate office for follow-up through the legal and/or university student conduct system. In cases requiring immediate attention or assistance, survivors should contact 911.

Ensure that the survivor is in a safe and secure environment and encourage him/her to preserve all physical evidence. When reporting the assault to the university police, the survivor relinquishes the right to decide if legal and/or university disciplinary action will be taken against the person who perpetrated the assault.

IUP Sexual Harassment/ Sexual Violence Survivor and Resource Information

Sexual assault is a serious violation of the university's expectations and student behavioral regulations. The university recognizes that sexual assault may cause severe physical and/or emotional consequences for the survivor. Medical and mental health resources and preventive education are available to provide assistance.

Title IX of the Educational Amendments of 1972 prohibits discrimination based on sex. Sexual harassment of students, which includes acts of sexual violence, domestic violence, stalking, and dating violence, are forms of sex discrimination prohibited by this federal law. When incidents of sexual harassment or sexual violence occur and are reported to campus security authorities, IUP takes immediate and effective steps to end sexual harassment and sexual violence. Retaliation against individuals reporting sexual harassment and/or sexual violence will not be tolerated and will be addressed through the appropriate university process (University Police, Student Conduct, Human Resources).

Questions about IUP's Title IX policy and protocol can be directed to Valerie Mercado, IUP's Compliance Officer and Title IX Coordinator at vmercado@iup.edu, 724-357-3402, B17 Delaney Hall.

Medical Attention: The survivor should be referred to the nearest hospital if the alleged assault occurred within the last seventy-two hours. Evidence can be gathered to conduct medical-legal (forensic) examinations even if the survivor prefers not to prosecute at this time.

An Indiana Campus student can also be referred to the Health Service at 724-357-2550. If the alleged assault occurred more than seventy-two hours previously the survivor should be referred to the nearest hospital for medical care only. No evidence collection can occur. If Health Service is closed, refer the student to the Emergency Department of the nearest hospital. This step is important so that s/he receives proper assessment and treatment of any physical injuries sustained in the assault. It is also important to determine the survivor's risk of sexually transmitted diseases or pregnancy and take preventive measures.

Requesting Academic, Living, Transportation, Work Accommodations: Victims can request accommodations if their safety or well-being is at risk. Students can receive assistance in requesting accommodations from the Haven Project at IUP, 724-357-3947. Examples of accommodations include changing academic schedules or on-campus housing assignments, use of IUP's escort system, and adjustments to work assignments.
