

Horn Audition Material(s)

1. Select up to 3 minutes of music of your choosing. This can be an etude, solo, or any appropriate material that best demonstrates your lyrical and technical facility on the horn.
2. A scale of your choice that best showcases tone and range.
Your range should demonstrate your best sound throughout the scale.

Performed the scale in quarter notes no faster than a quarter = 60. Notes are to be tongued going up the scale and slurred coming back down the scale - the Top Note DOES NOT need to be repeated.

Celebrate sharing your music with others.
