

November 14, 2023

Greetings:

The Berks County Intermediate Unit (BCIU14) Office of Early Childhood and Student Services (ECSS) is excited to offer a full-time, paid School Psychologist Internship during the 2024-2025 school year, offering your students a fulfilling, supportive, and rich clinical field experience!

While receiving direct, on-site supervision from experienced practitioners, the School Psychologist Intern will be provided with the opportunity to gain culturally diverse clinical experience within traditional public school settings. Additionally, the School Psychologist Intern will provide services and supports to students across uniquely specialized BCIU14 educational programs and classrooms, including early intervention, deaf/hard of hearing, alternative education, vocational training, and adult transition programming. Training experiences and responsibilities will be aligned to individual university site requirements, as well as *NASP*'s domains of practice and competency, resulting in a 1,200 hour clinical internship that has prepared practitioners for a career in school psychology.

The BCIU14 encourages you to visit the link below and apply today! Intern applicants will need to set up an account to apply online using Frontline Education.

<https://www.applitrack.com/berksiu/onlineapp/default.aspx?Category=Certified+Special+Education>

Applications will be accepted until January 3, 2024, with interviews conducted through February 15, 2024.

As always, reach out with any additional questions!

Dr. Danielle Smyre, NCSP
School Psychologist
