2023-2024 School Psychology Internships

The Ossining Union Free School District is seeking applications for full-time interns in School Psychology from graduate students who are enrolled in a Masters, Specialist, or Doctoral program in School Psychology. The district is located in the New York metro area, 25 miles north of NYC. The district has a favorable ratio of students to School Psychologists, a diverse student population, and a long history with progressive MTSS initiatives such as PBIS and RTI. Each building in the Ossining UFSD has a full staff of support personnel including school psychologists, speech/language pathologists, occupational and physical therapists, social workers, nurses, and behavioral consultants. The location of Ossining in the Tri-State Area provides all staff and interns with the opportunity to attend a variety of conferences and workshops.

Interns have the opportunity to work with an ethnically, linguistically, and economically diverse student body. District internships are available in elementary and secondary settings. Supervision is a pivotal area of professional growth for a training School Psychologist. Weekly intern supervision is scheduled with the field supervisor as well as opportunities for peer supervision.

The internship runs from late August 2023 to late June 2024, and will be an unpaid internship. Qualified applicants should submit a cover letter, resume, unofficial graduate transcript, writing sample of a traditional psychological report, and three letters of reference of which two should be from the graduate program. References sent by email should be sent directly from the person providing the reference.

These materials should be sent, preferably by e-mail, to Timothy Scholten (tscholten@ossiningufsd.org), or to the address listed below. All supporting documentation must be received by January 27th, 2023. You may also contact Timothy Scholten by phone at: 914-762-5850, x6305.
