Indiana University of Pennsylvania FY2014-2015 Annual Grantsmanship Report

The Mission of the IUP Research Institute is to advance the research agenda and educational objectives of Indiana University of Pennsylvania. The Research Institute provides a full range of pre-award and post-award services designed to provide “cradle-to-grave” support for IUP researchers. The Research Institute is governed by an independent Board of Directors which is responsible for upholding the Institute’s Articles of Incorporation, By-Laws, and the principles set forth in the Affiliation Agreement with the University. The Board is composed of the University President, appointed University representatives, and local community and business leaders.

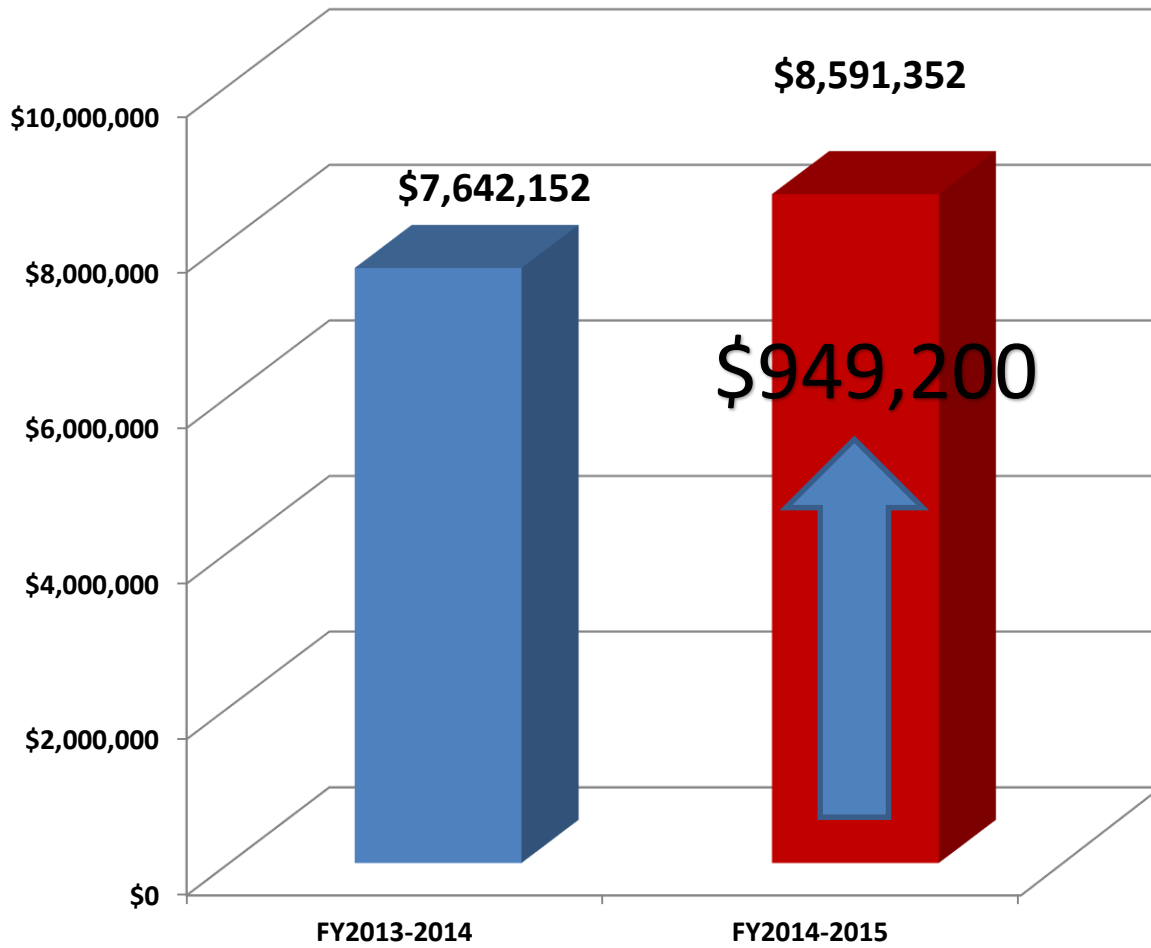

Indiana University of Pennsylvania and the IUP Research Institute jointly administer external funds. The IUP Research Institute is a 501c(3) (tax exempt) organization that operates independently for the benefit of Indiana University of Pennsylvania, under the terms of the Affiliation Agreement.

This Annual Report of Externally Sponsored Activities summarizes externally funded grants, contracts, and cooperative agreements for the year of **July 1, 2014 – June 30, 2015 (Fiscal Year 2014-2015)**. This report is designed to recognize IUP faculty and staff members who dedicate their time, talents, and expertise to seek and receive external funds for their research, teaching, and creative activities. These accomplishments represent the outstanding commitment on the part of faculty and staff to advance the research, teaching, and public service missions of the University through external funding.

It is important to understand the type of data that is included (and not included) in this report. The data reported herein reflects the dollar amounts awarded (in aggregate and per project), not the dollar amounts expended. Many times, even with effective post-award management, activities actually performed differ from activities that were planned at the proposal stage. Said changes in activities often result in modifications to the budget and expenses incurred. When these changes occur the dollar amounts actually expended can differ from the award expectations and potential. In the case of cost-reimbursable grants (large majority), the dollar amounts actually expended and received by the institution could be less than what was awarded by the funding agency (at least in the time frame covered by this report). In addition, the current database does not provide the ability to ‘split’ award dollars by co-investigator(s). Therefore, the department/unit of co-investigators do not receive recognition in this particular report. Alternate reports are available upon request

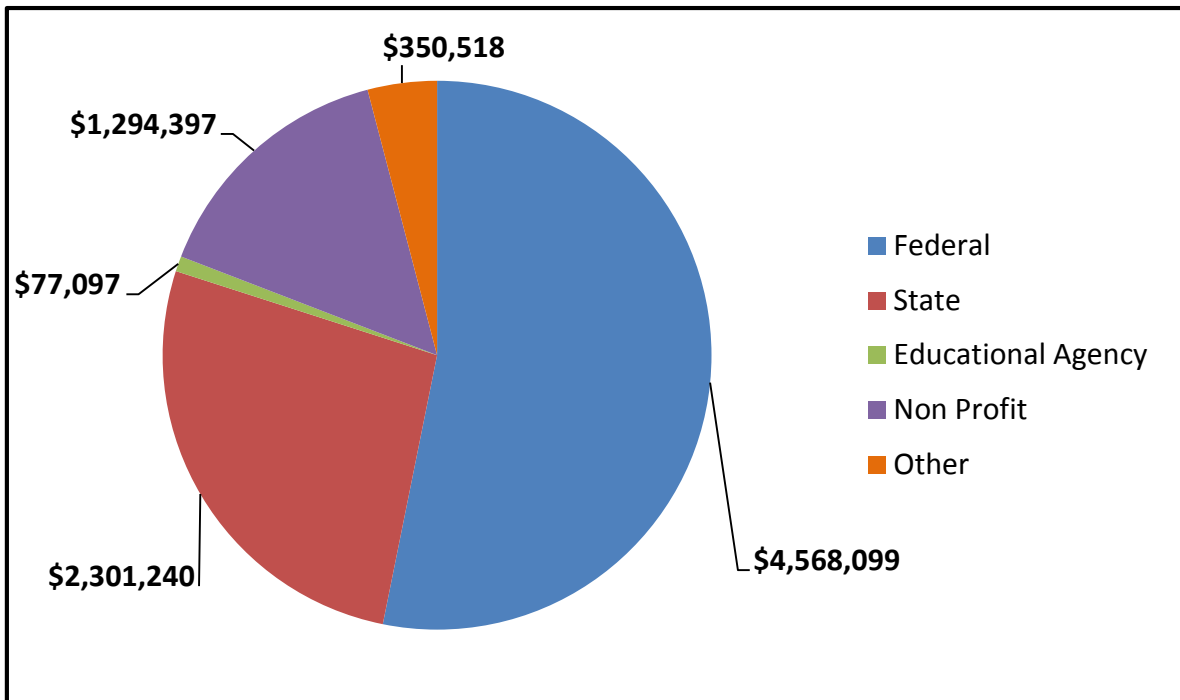

A multitude of offices, divisions, people, and efforts contribute to the success of research endeavors at IUP. Any comments, questions, or requests regarding this report should be directed to Mr. Mark A. Berezansky, Executive Director, IUP Research Institute at mberezan@iup.edu or 724-357-3110.

IUP Sponsored Activity Awards: 2-Year Comparison FY2013 – 2014 to FY2014-2015

Congratulations to all of the IUP researchers for receiving sponsored activity dollars in the amount of **\$8,591,253 for Fiscal Year 2014-2015**. This represents an increase of \$949,200 over FY1314.

Awards by Originating Funding Source Fiscal Year 2014-2015

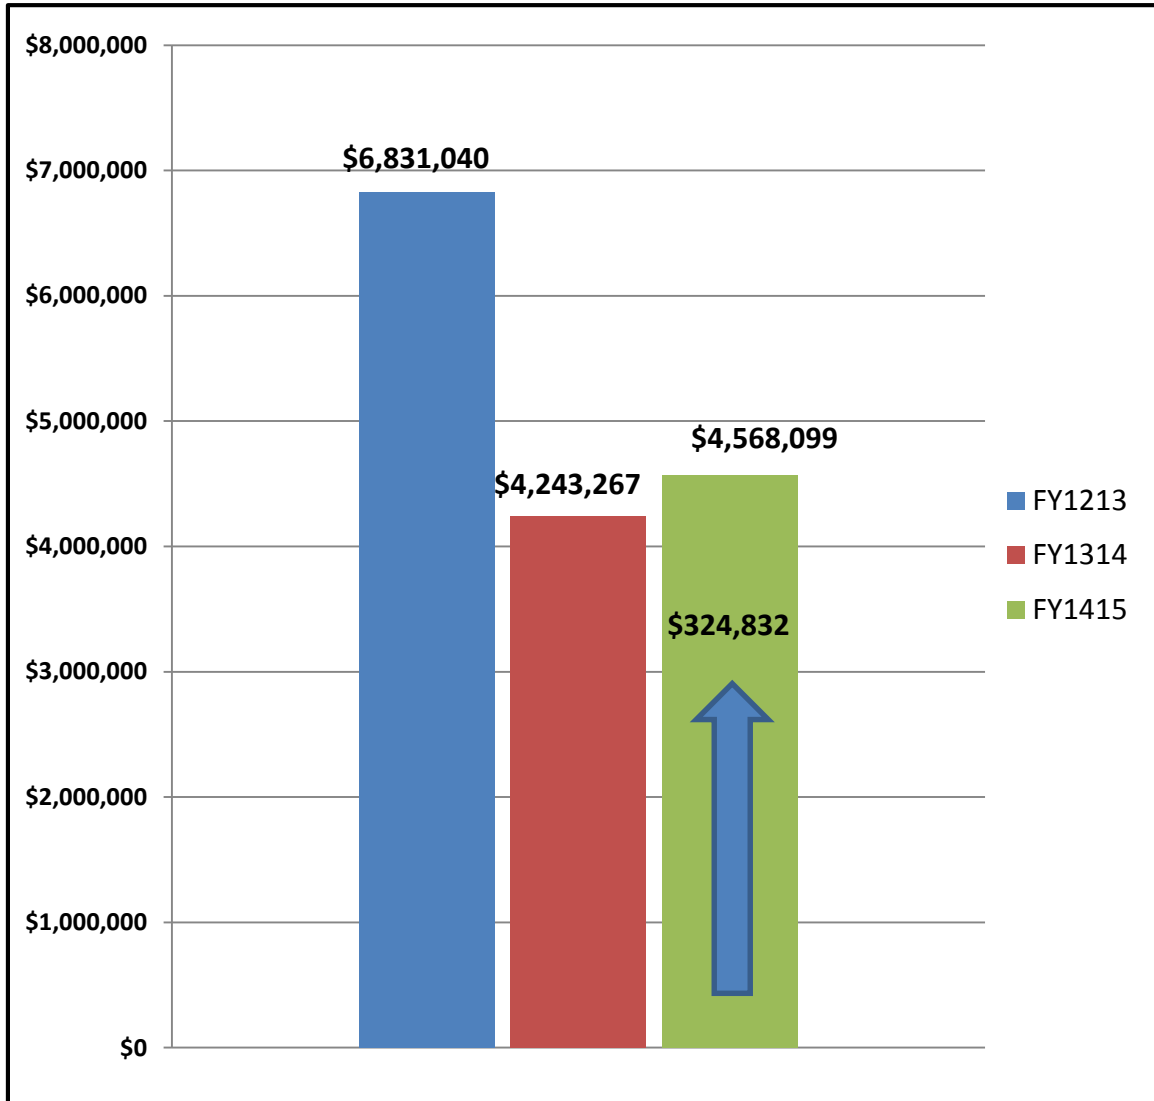

Other includes foundations, local government, and for-profit entities

IUP received 53% of its awards from the federal government (\$4,568,099) with the US Department of Labor ranking as the top federal funder at \$1,879,800. The state of Pennsylvania came in second at \$2,301,240. The federal and state agencies, combined, account for nearly 80% of IUP’s externally sponsored funding.

The overall top 3 agencies to fund IUP for Fiscal Year 2014-2015 are:

Agency	Award
U.S. Department of Labor	\$1,879,800
Carl D. Perkins Vocational	\$1,146,121
Howard Hughes Medical Institute	\$ 800,000

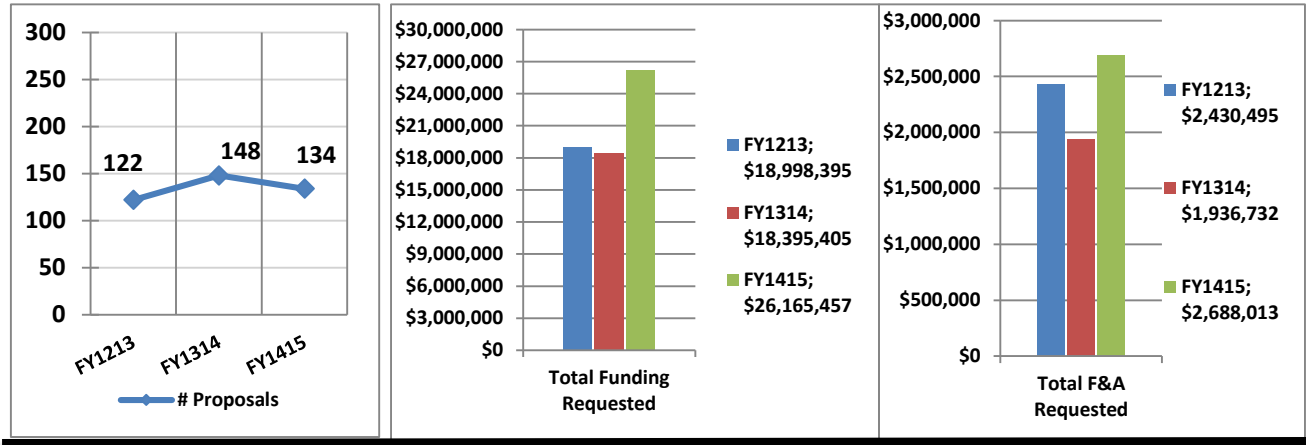

Federal Awards

Twenty (20) unique researchers received 26 federal awards from 15 different federal agencies. These awards represent an increase in federal grant dollars by \$324,832 over FY1314.

College of Humanities and Social Sciences	\$2,303,299
College of Health and Human Services	\$2,301,419
Department of Safety Sciences (includes OSHA)	\$1,904,800
College of Education and Educational Technology	\$1,752,856
College of Natural Sciences and Mathematics	\$1,339,121
Center for Career and Technical Personnel Preparation	\$1,192,874

Six (6) units on campus boast the honor of membership in "IUP's Million Dollar Club" for Fiscal Year 2014-2015. The repeat honorees from Fiscal Year 2013-2014 include:

- College of Health and Human Services
- College of Humanities and Social Sciences
- College of Natural Sciences and Mathematics
- Department of Safety Sciences

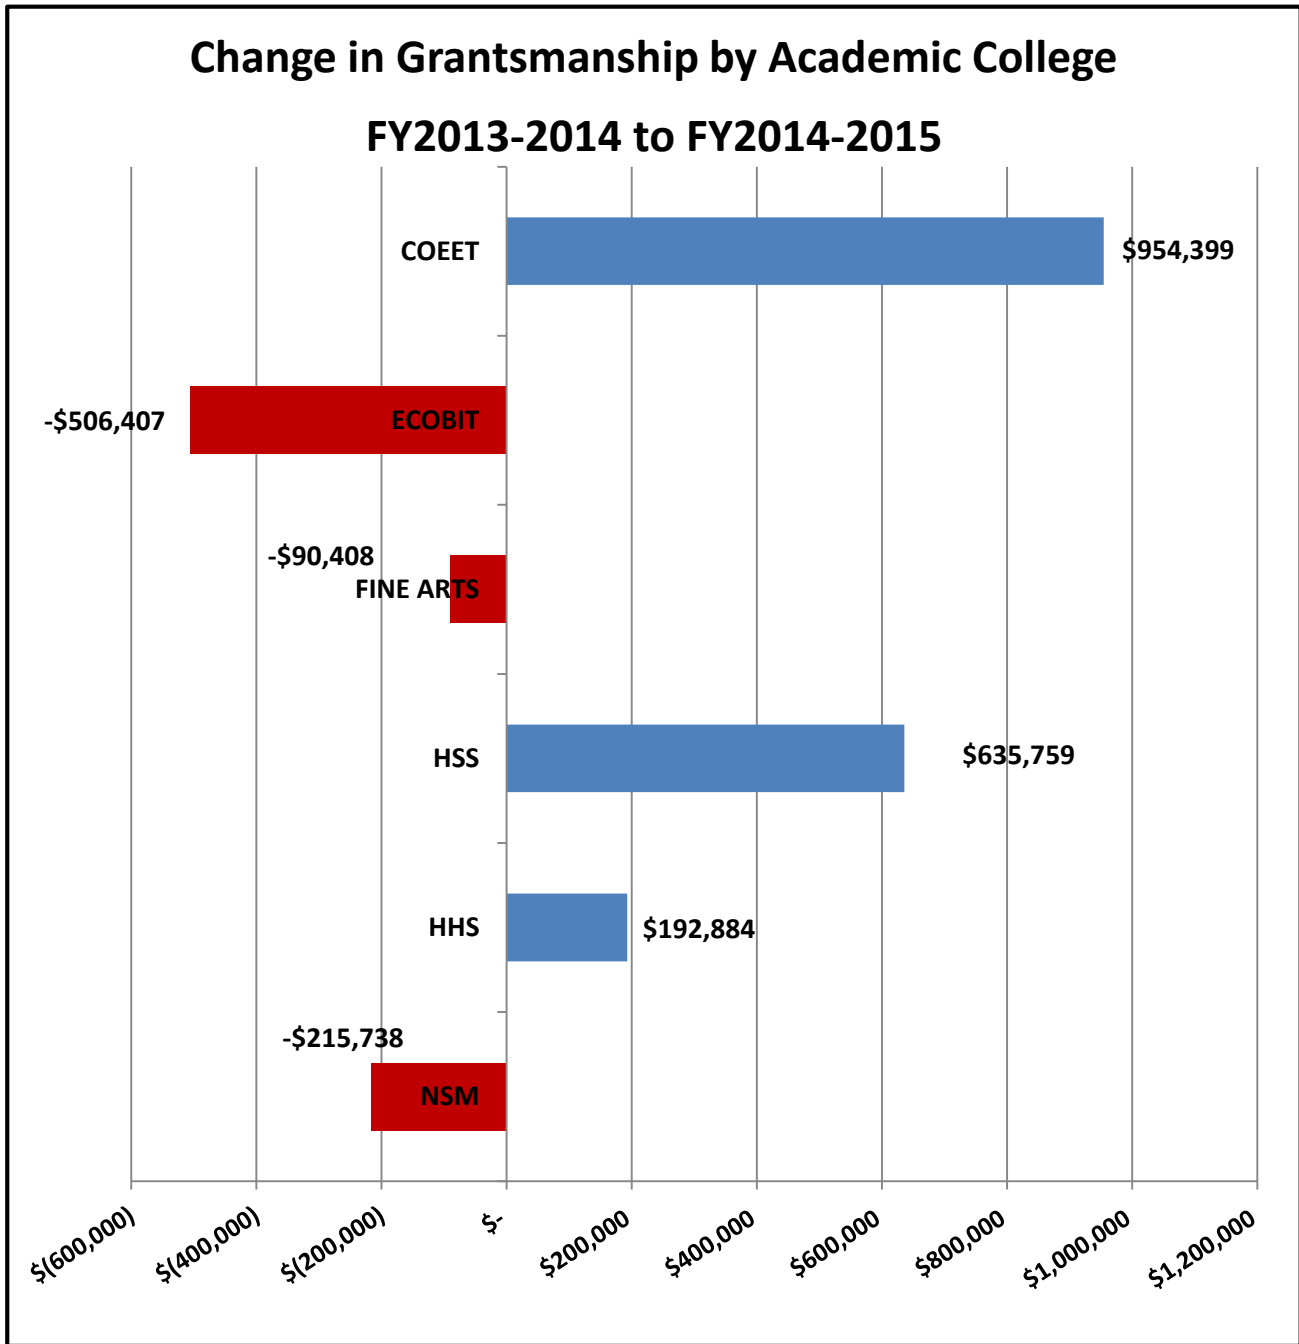

Colleges, Departments, Divisions, and Centers & Institutes (if applicable) are recognized individually in the "Million Dollar Club" in order to fully recognize all researchers contributing to the overall success of IUP's research portfolio. Therefore, for the purpose of this particular chart, Department and Centers & Institutes dollars are included in their respective college totals as well.

Increases over Fiscal Year 2013-2014 (Academic Colleges)

College of Education & Educational Technology	\$ 954,399
College of Humanities & Social Sciences	\$ 635,759
College of Health & Human Services	\$ 192,884

We are proud to report that the IUP Colleges listed above increased their externally sponsored project totals from Fiscal Year 2013-2014 to Fiscal Year 2014-2015.

The bar chart above depicts the variances by Academic College of Sponsored Awards received from Fiscal Year 2013-2014 to Fiscal Year 2014-2015. Congratulations to the Colleges of Education & Educational Technology, Health & Human Services, and Humanities & Social Sciences for increasing their sponsored awards during Fiscal Year 2014-2015.

FY1415 PROPOSAL DATA

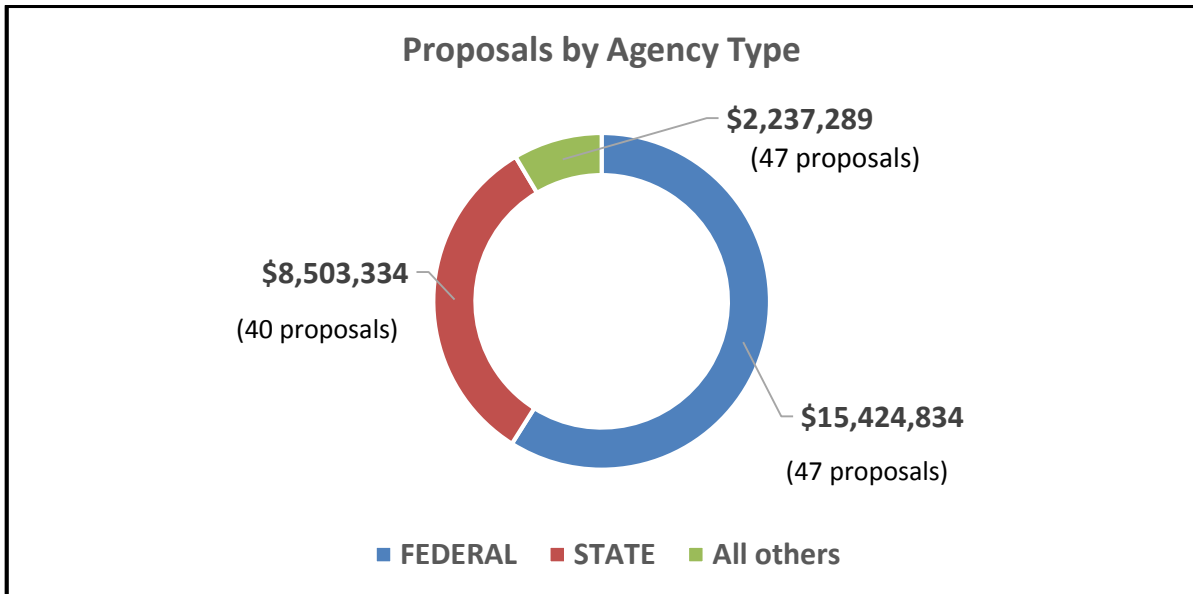

*IUP researchers submitted 134 total proposals totaling \$26,165,457

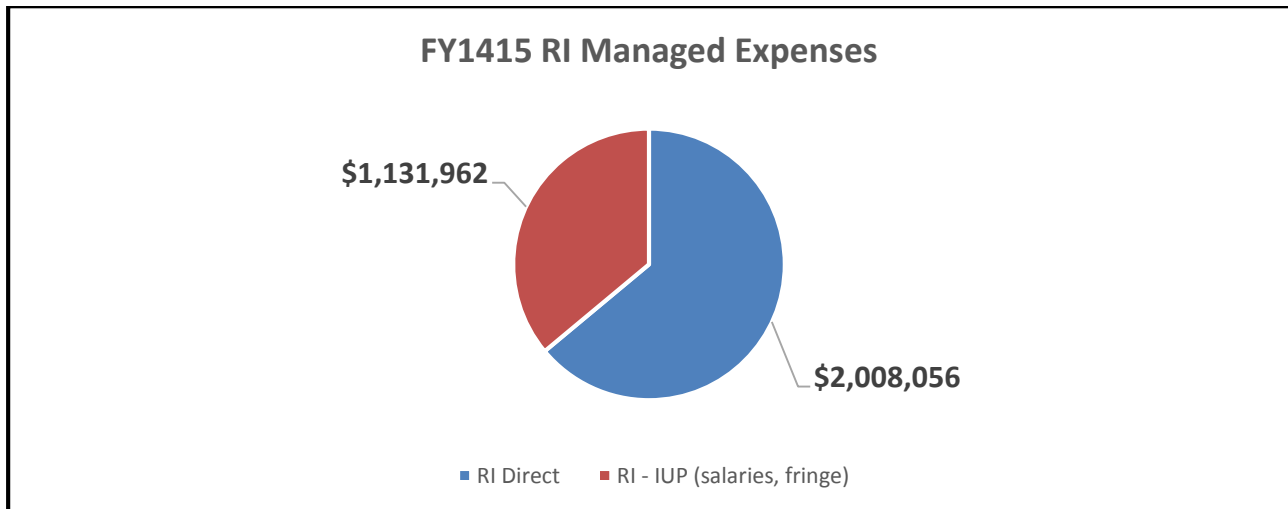

*129 were submitted by faculty within the six academic colleges totaling \$26,071,976.

*The remaining four proposals totaling \$93,481 were submitted by non-academic divisions within IUP.

“Research is the process of going up alleys to see if they are blind.” – Marston Bates

*IUP Researchers submitted a total of 134 proposals during FY1415. Eighty-seven or 91% of all submissions were done to either a federal or state agency.

*The Research Institute managed \$3,140,018 in expenses in support of IUP Sponsored Projects during FY1415. This figure does NOT include expenses associated with IUP Direct Awards and managed by IUP Grant & Special Fund Accounting. Expenses do not directly correlate with the award values as expenses cover periods of performance that most likely overlapping multiple (previous) fiscal years.

Sponsored Events & Efforts to Support Grantsmanship at IUP

Principal Investigators' Mentorship Academy (PIMA)

Launched for a one semester pilot in January 2015, PIMA served an initial cohort of 16 faculty members from 5 colleges and 12 departments. During this pilot semester, 8 faculty submitted 10 proposals totaling \$1,611,039. To date, 3 have been awarded equaling \$41,635, 4 are pending at \$1,474,404, and 3 were denied. Of these, 2 are federal proposals totaling \$1,410,817 and are currently pending. Four additional participants are working on federal submissions. Out of Cohort 1 PIMA fellows, 50% submitted a grant proposal within a single semester. The university-wide participation rate in grantsmanship is only about 20% of the total faculty population. Cohort 2 began August 28, 2015 with 18 faculty participants.

Research Advocacy

The IUP Research Institute team actively works to promote, encourage, and facilitate grantsmanship at IUP in a myriad of ways. Individual and focused communication with researchers, chairpersons, deans, and administrators include, but are not limited to, the identification of funding opportunities, proposal development, budget development, pre-award authorization process, award/contract negotiations, post-award fiscal management, modifications, and project-closeout (including financial and technical reporting requirements throughout the life cycle of the award). We foster communication efforts to increase awareness, interest, and compliance.

Below are examples of efforts to increase interest, participation, understanding, and compliance in externally sponsored activities.

Grantsmanship Outreach Activities

# of Customized Funding Searches Performed	127
# of Researcher Meetings Held	568
# of Dean/Chairperson Meetings Held	101

During the FY1415, Research Institute staff performed 127 customized searches for funding opportunities, and met with researchers and administrators 669 times. To maximize resources, IUP and the IUP Research Institute provide relevant tools for researchers. Utilizing SpinPLUS, researchers can perform their own customized funding searches and receive customized funding opportunities directly to their IUP email. The Research Institute website (<http://www.iup.edu/researchinstitute>) provides links to relevant policies, procedures, forms, agency links, and other useful tools.

Accurate and timely data is essential to managing the research portfolio at IUP. Deans and administrators continuously support, promote, and increase the sponsored activity within their academic purview. To assist with this task, the RI provides a variety of standard reports:

- ❖ Monthly Deans' Report – a quick view chart providing a cumulative summary of proposal and award activity trends. A comparison of the previous fiscal year totals to the current fiscal year (to-date) totals.
- ❖ Quarterly Deans' Report – a more detailed report of the current fiscal year proposal and award activity including researcher name, agency, title of project, and dollar value of proposal and/or award.
- ❖ Revolving Accounts – Revolving Accounts are established by the RI when a PI has residual funds from a firm-fixed price contract (externally funded). The dollars are accounted for and available for use by the PI for “research-related” expenses.

Educational Efforts

Focused, customized presentations at chairpersons' meetings, deans' meetings, faculty groups, graduate classes, and other interested parties are performed on an as-requested basis.

In addition, we host and/or participate in a wide variety of sponsored research activities for IUP faculty, staff, and administrators throughout the year. All events are offered free of charge to the IUP community.

- ❖ RI sponsored brown bag luncheon workshops
- ❖ Travel funds available to support meetings, conferences, etc related to enhancing IUP's (and project specific) research portfolio (including meetings with program officers & funding agency representatives).
- ❖ Annual RI sponsored Researchers' Reception (Networking opportunities!)
- ❖ Annual Deans' Luncheon
- ❖ New Faculty Orientation
- ❖ Participation on IUP's RI Advisory Board
- ❖ Research Appreciation Week in partnership with the School of Graduate Studies & Research
- ❖ Externally sponsored webinars and speakers
 - National Science Foundation, National Institutes of Health, National Endowments for the Humanities, National Council of Research Administrators, Society for Research Administration, and the Grants Resource Center
- ❖ Weekly dissemination of funding opportunities
- ❖ Regular updates and resource availability on the IUP Research Institute Website <http://www.iup.edu/researchinstitute>

Proposal Strategies

The RI works diligently to ensure proposals submitted on behalf of IUP are of the highest possible quality. Adhering to standard operating procedures helps to ensure the technical and budget narratives meet agency guidelines, meet applicable federal, state, and university pre-requisites, require reasonable university support, budget and scope of work are consistent, and have been appropriately reviewed, analyzed, and authorized by all IUP and IUPRI administrative entities.

When appropriate (and as time permits), the School of Graduate Studies and Research provides an in-depth review/edit of proposal narratives to help ensure the highest possible quality. For "significant projects", professional external reviewers are utilized and paid for by the SGSR. These efforts have greatly improved the quality of our proposals and the grant-writing expertise of our researchers. It is fully expected that we will see a long-term return on investment as these researchers continue to grow and succeed in grantsmanship activities.

Compliance Efforts

Staying up-to-date with federal, state, and other agency compliance requirements for sponsored activities is one of the most important responsibilities of the RI. To assist IUP in this function, the RI requires staff to participate in at least one professional organization conference per year. Partnering with the SGSR, the RI assisted in establishing standard operating procedures in areas such as technology transfer, research misconduct, intellectual property, and other related areas.

With the implementation of the new Uniform Guidance by the federal government, the IUP Research Institute team has made a concerted effort throughout the fiscal year to educate ourselves and our researchers on the revised policies and procedures. This education will allow us to continue efficient and compliant service to the IUP research community.

Award Implementation

To promote post-award success, upon award receipt, the RI facilitates a “kick-off” meeting with the Principal investigator to discuss and review the mechanics of how to efficiently execute the scope of work. Compliance to federal, state, and university policies and regulations are emphasized. These meetings include members from administration, grants accounting, purchasing, human resources, and any other division pertinent to successful outcomes. These “kick-off” meetings assist the researcher in understanding basic requirements such as purchasing equipment, contracting with a grant-funded graduate assistant, and processing their summer contracts or academic year releases.

Improvements to the Research Infrastructure during FY1415

The Research Institute team is committed to continuous improvements to ensure researchers receive the most efficient & compliant assistance with their research endeavors. Policies, procedures, and workflow are under continual review and are modified as needed to accommodate changes to the Uniform Guidance and best practice initiatives. During FY1415, the Research Institute Team separated into pre-award and post-award specialization. We now have Grant & Contract personnel specializing in proposal & budget development, contract negotiations, and post award administration.

“Research is to see what everybody else has seen, and to think what nobody else has thought”
