Indiana University of Pennsylvania FY2015-2016 Annual Grantsmanship Report

The Mission of the IUP Research Institute is to advance the research agenda and educational objectives of Indiana University of Pennsylvania. The Research Institute provides a full range of pre-award and post-award services designed to provide “cradle-to-grave” support for IUP researchers. The Research Institute is governed by an independent Board of Directors which is responsible for upholding the Institute’s Articles of Incorporation, By-Laws, and the principles set forth in the Affiliation Agreement with the University. The Board is composed of the University President, appointed University representatives, and local community and business leaders.

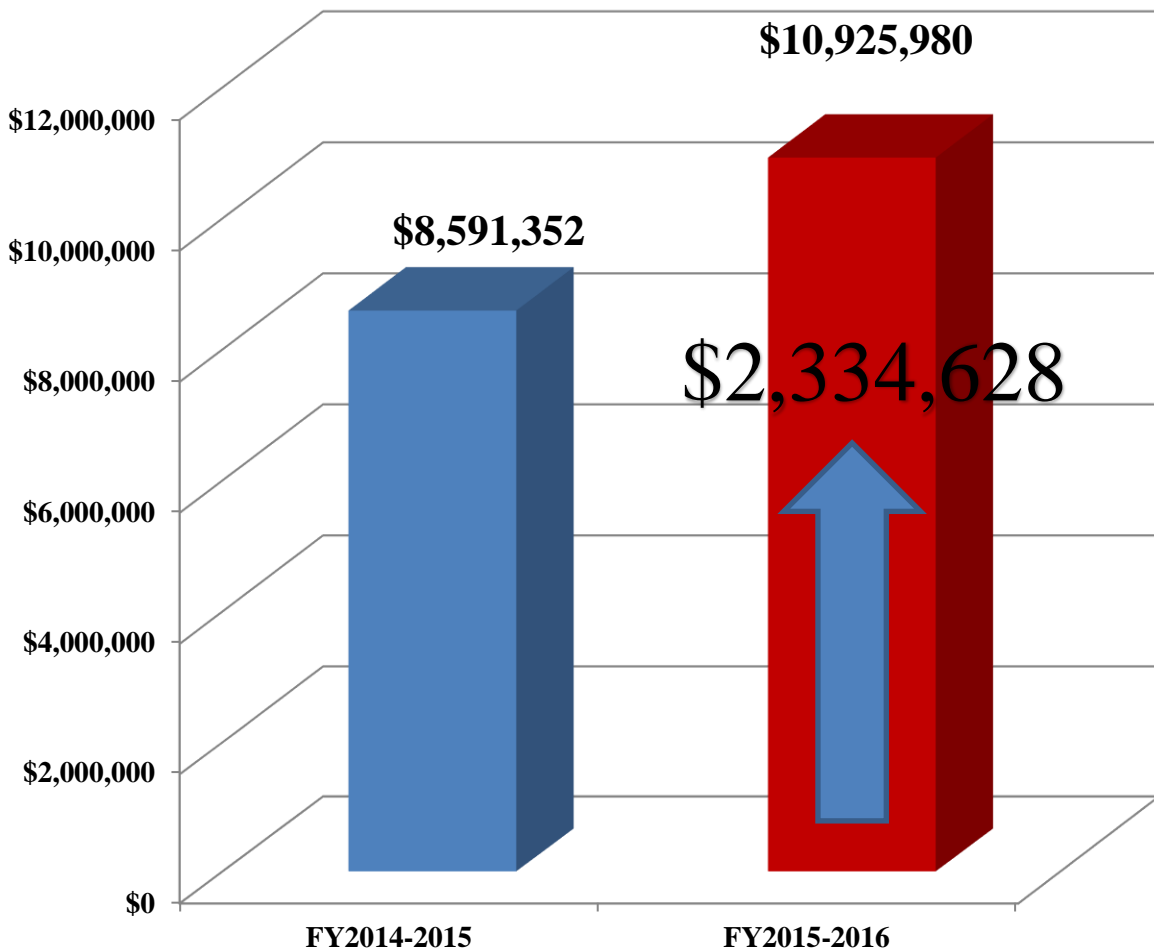

Indiana University of Pennsylvania and the IUP Research Institute jointly administer external funds. The IUP Research Institute is a 501c(3) (tax exempt) organization that operates independently for the benefit of Indiana University of Pennsylvania, under the terms of the Affiliation Agreement.

This Annual Report of Externally Sponsored Activities summarizes externally funded grants, contracts, and cooperative agreements for the year of **July 1, 2015 – June 30, 2016 (Fiscal Year 2015-2016)**. This report is designed to recognize IUP faculty and staff members who dedicate their time, talents, and expertise to seek and receive external funds for their research, teaching, and creative activities. These accomplishments represent the outstanding commitment on the part of faculty and staff to advance the research, teaching, and public service missions of the University through external funding.

It is important to understand the type of data that is included (and not included) in this report. The data reported herein reflects the dollar amounts awarded (in aggregate and per project), not the dollar amounts expended. Many times, even with effective post-award management, activities actually performed differ from activities that were planned at the proposal stage. Said changes in activities often result in modifications to the budget and expenses incurred. When these changes occur the dollar amounts actually expended can differ from the award expectations and potential. In the case of cost-reimbursable grants (large majority), the dollar amounts actually expended and received by the institution could be less than what was awarded by the funding agency (at least in the time frame covered by this report). In addition, the current database does not provide the ability to ‘split’ award dollars by co-investigator(s). Therefore, the department/unit of co-investigators do not receive recognition in this particular report. Alternate reports are available upon request

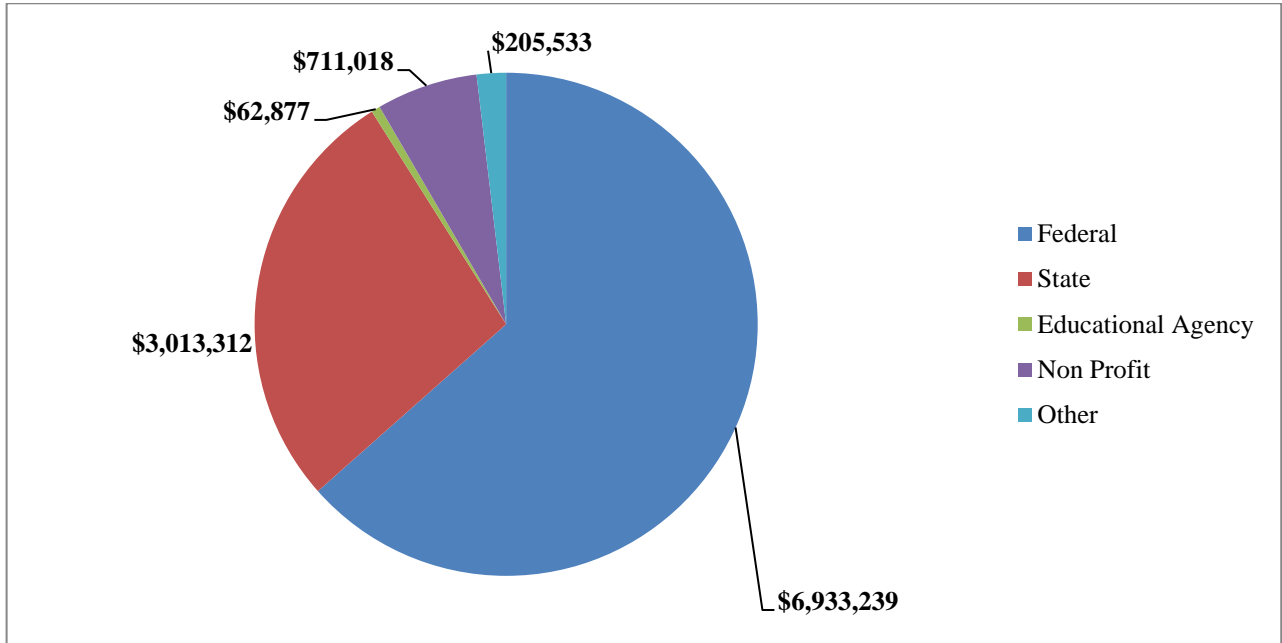

A multitude of offices, divisions, people, and efforts contribute to the success of research endeavors at IUP. Any comments, questions, or requests regarding this report should be directed to Mr. Mark A. Berezansky, Executive Director, IUP Research Institute at mberezan@iup.edu or 724-357-3110.

IUP Sponsored Activity Awards: 2-year comparison FY2014-2015 to FY2015-2016

Congratulations to all of the IUP researchers for receiving sponsored activity dollars in the amount of **\$10,925,980 for Fiscal Year 2015-2016**. This represents an increase of \$2,334,628 over FY1415.

Awards by Originating Funding Source Fiscal Year 2015-2016

Other includes foundations, local government, and for-profit entities

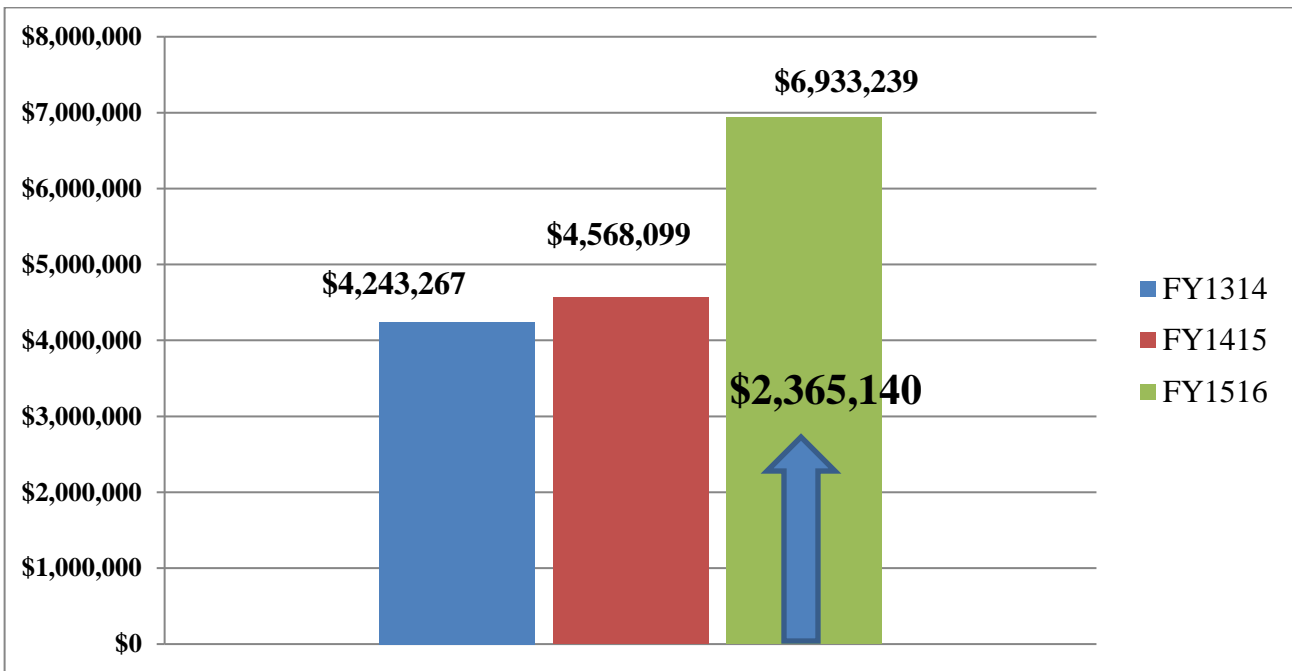

IUP received 63% of its awards from the federal government (\$6,933,239) with the US Department of Education ranking as the top federal funder at \$2,715,217. The State of Pennsylvania came in second at \$3,013,312. The federal and state agencies combined account for 91% of IUP’s externally sponsored funding.

The overall top 3 agencies to fund IUP for Fiscal Year 2015-2016 are:

Agency	Award
U.S. Department of Education	\$2,715,217
U.S. Department of Labor	\$1,879,800
National Science Foundation	\$ 630,935

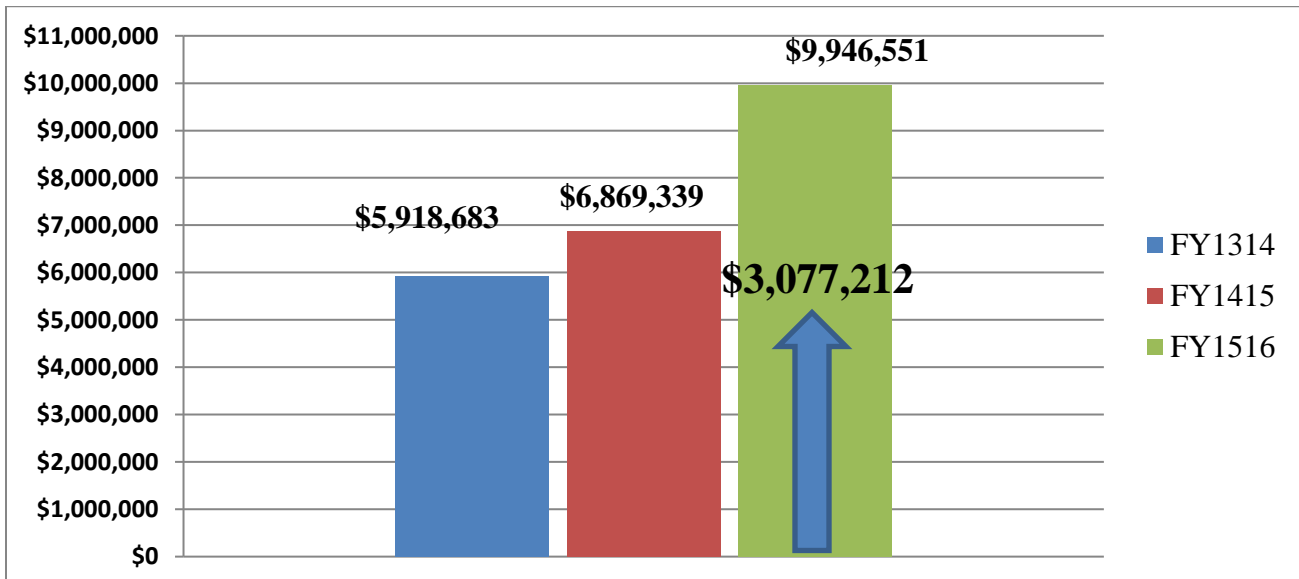

These three federal agencies account for 74% of all federal externally sponsored research funds received by IUP.

Federal Awards

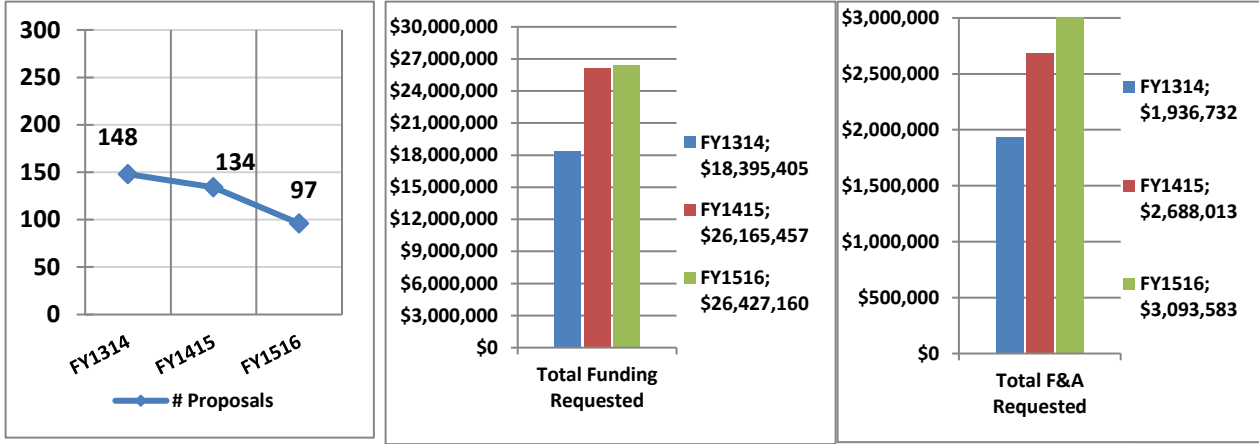

Twenty-one (21) unique researchers received 33 federal awards from 17 different federal agencies. These awards represent an increase in federal grant dollars by \$2,365,140 over FY1415.

Proposal & Award Strategies, Compliance Efforts, and Continuous Improvement

The RI works diligently to ensure proposals submitted are of the highest possible quality. Adhering to standard operating procedures helps to ensure the technical and budget narratives meet agency guidelines, meet applicable federal, state, and university pre-requisites, require reasonable university support, budget and scope of work are consistent, and have been appropriately reviewed, analyzed, and authorized by all IUP and IUPRI administrative entities.

When appropriate (and as time permits), the School of Graduate Studies and Research provides an in-depth review/edit of proposal narratives to help ensure the highest possible quality. For “significant projects,” professional external reviewers are utilized and paid for by the SGSR. These efforts have greatly improved the quality of our proposals and the grant-writing expertise of our researchers. It is fully expected that we will see a long- term return on investment as these researchers continue to grow and succeed in grantsmanship activities.

To promote post-award success, upon award receipt, the RI facilitates a “kick-off” meeting with the Principal investigator to discuss and review the mechanics of how to efficiently execute the scope of work. Compliance with federal, state, and university policies and regulations are emphasized. These meetings may include members from administration, grants accounting, purchasing, human resources, and any other areas pertinent to successful outcomes. These “kick-off” meetings assist the researcher in understanding basic requirements such as purchasing equipment, grant-funded graduate assistantships, and processing summer contracts or academic year releases.

Staying up-to-date with federal, state, and other agency compliance requirements for sponsored activities is one of the most important responsibilities of the RI. To assist IUP in this function, the RI requires staff to participate in at least one professional organization conference per year. Partnering with the SGSR, the RI assisted in establishing standard operating procedures in areas such as technology transfer, research misconduct, intellectual property, and other related areas.

With the implementation of the new Uniform Guidance by the federal government, the IUP Research Institute team has made a concerted effort throughout the fiscal year to educate ourselves and our researchers on the revised policies and procedures. This education will allow us to continue efficient and compliant service to the IUP research community.

The Research Institute team is committed to continuous improvements to ensure researchers receive the most efficient & compliant assistance with their research endeavors. Policies, procedures, and workflow are under continual review and are modified as needed to accommodate changes to the Uniform Guidance and best practice initiatives. During FY1516, the Research Institute in partnership with IUP purchased a grants management system, Quali Research, and a new financial accounting system, Financial Edge (Blackbaud). Once full implementation is complete these systems will provide a more efficient workflow including electronic routing, more robust reporting capabilities, and university view-access.
