**SI Sessions** are out-of-class study & review sessions for difficult courses. SI *supplements*, but *does not replace* out-of-class preparation for the course. All students in designated course sections wanting to improve understanding of course content & grades are urged to participate weekly. As a group, you will review notes, clarify text material, discuss ideas, do worksheets, prepare for tests & take practice exams. *Come prepared - bring notes, text, and questions!*
