<div align="center">

MINUTES OF THE
IUP UNIVERSITY SENATE

Oct 11, 2011

</div>

Chairperson LaPorte called the October 11, 2011 meeting of the University Senate to order at 3:32 p.m., in Eberly Auditorium.

The following senators informed the Senate Leadership that they could not attend: Baum, Belch, Boda-Sutton, Bowers, Hall, Helterbran, LeMasters, Luckey, Mocek, Myers, Petrucci, Wick.

The following senators were absent from the meeting: Ayebo, Baumler, Camp, Chaudhry, Domaracki, Guth, Hulings, Kennedy, Martin, Mensch, Meyer, Mortimer, Pittman, Ruffing, Sherman, Sink, W., Sullivan, Wisnieski.

The minutes for the September 13, 2011, meeting were **APPROVED**.

Agenda items for the October 11, 2011, meeting were **APPROVED**

REPORTS AND ANNOUNCEMENTS

President's Report

Dr. Werner provided an update on two matters. First the Board of Governors approved a Ph.D in Safety Sciences. This is significant for the university in that very few new programs are being approved and those that are often have to show collaboration between the PASSHE institutions.

Second little is known right now about the budget for next year. The early stages of planning are underway and more should be known in the next 3-4 months.

Provost's Report

1. **Creation of a Faculty/Administrative Task Force** to develop a College Early Start Summer Program at IUP. This program will be designed to allow incoming freshmen to get an early start with their college studies and in some cases to address college readiness deficiencies through remedial courses in mathematics, English, and certain developmental studies courses. Such a program should elevate retention and graduation rates. Also, by shifting most of remedial teaching to the summer, will enable faculty who normally teach such courses during the academic year to teach other classes in great demand.
2. **Faculty and Administrative Searches**
   The provost has decided to conduct a total of 35 tenure-track faculty searches in the six colleges and the library. This decision has been made despite the ongoing economic uncertainties in the state and our planned programmatic reductions because he firmly believes that it is critical that we continue to invest In new faculty to ensure a stable and high quality faculty workforce at IUP for the foreseeable future. With nearly 50 faculty retirements this

past year, this is an especially important time to be replenishing our permanent faculty resources and reduce our dependency on temporary faculty. In determining which faculty searches would be conducted this year, the deans and provost were guided by certain principles and priorities:

    (1) These hiring opportunities should be viewed strategically as the first of several installments in shaping and building the future faculty workforce at IUP. Some of the authorized searches reflect the opportunities that exist through federal appropriations to play a major role in such areas as energy, the environment, and correctional education.

    (2) A fresh look needs to be taken at vacant positions that we want to permanently fill. We need to realize we are not trying to reconstruct the past by simply filling all positions that replicate the talents and expertise of our former colleagues. Rather, we want to examine and, in some cases, redefine these positions to ensure that the future faculty workforce at IUP is well-aligned with our strategic goals and academic priorities. For example, there is growing recognition that the academy needs to break down "disciplinary silos" and to engage faculty and students in more multidisciplinary work. Some searches have been authorized based on their potential to foster multidisciplinary collaborations and "research clusters".

    (3) Highest priority needs to be given to filling faculty positions in programs that have shown significant growth and programs of exceptionally high quality.

    (4) Priority needs to be given to faculty hires who can help increase external grant and contracts.

    (5) Continued investment is needed in our programs of highest quality and distinction.

In contemplating large number of potential faculty hires this year, we need to reflect on the issue of institutional change and how it happens-- or doesn't-- over the course of an academic year and in the longer term. There is probably no better way of introducing change than through the hiring of new faculty who bring new perspectives, new ideas, new expertise, and a new set of experiences.

An announcement was also made on the launch of two highly important administrative searches: the Dean of the College of Health and Human Services and the Dean of the College of Education and Educational Technology

3. **Program Review as part of the Workforce Plan**
Progress continues to be made in the review of the 60 programs in the workforce plan. Departmental recommendations have been forwarded to their college curriculum committees and those committees are in the process of their own reviews and preparing their recommendations to the university-wide undergraduate and graduate curriculum committees. It is hopeful that final recommendations will be coming to the Senate at its December meeting.

We all realize that this is a very difficult process, and I continue to appreciate the diligent effort and thoughtful discussions that are taking place in order to move forward with our planning.

As I noted in my June communication, as we move forward with this process and as decisions are made, we will meet our pledge of ensuring that students are given every reasonable opportunity to complete their academic plans.

I also will work to maintain transparency in this discussion, with the understanding that planning is an ongoing, iterative process that is subject to refinement and recalibration as the environment changes.

Curriculum Revisions

In response to the Senate recommendations from the September 13, 2011 meeting, I accept the following:

From the University-Wide Undergraduate Curriculum Committee:

    A. The following course is approved by me and may be offered immediately:
        HPED 480 – Professional Issues in Athletic Training

Chairperson's Report

As part of this job I get to sit in on a lot of meetings. Despite the general perception of being a waste of time, these meetings have generally been useful albeit a bit frustrating. A common refrain during these meetings recently is that we need to grow graduate education here at IUP. Why? Because enrollment is down and we make a lot of money from the state for every grad student we bring in. So on one hand we want to increase our graduate programs but on the other hand we don't have the resources to do so. The pool of graduate assistantships remains the same and the stipends the same as they've been for about 2 decades, which is to say they have decreased over that time due to inflation. Now we add another doctoral program with the same meager resources.

On the undergraduate side of the equation we are cutting programs due to lack of resources yet on the graduate side we are going to grow despite the same lack of resources. So while we hear the cry to increase graduate enrollment we also hear that we are going to continue to maintain quality. Yeah, and I've got some swamp land in Florida you might be interested in. Everyone on campus appreciates the financial situation we find ourselves in. But what I would really appreciate would be some honest words from administration and less babble and buzz-words. I fear I might actually have a seizure if I hear "head counts" one more time.

What I want from administration is some honesty. That would take the form of someone saying: "times are tough and we are going to have to sacrifice some quality around here. There will be less graduate assistantships so you will be attracting students of lesser caliber since they will go to institutions with better stipends and no poll tax on "high demand programs". I could accept such a statement rather than the farcical myth that we are somehow going to maintain high quality with less resources. Or the other fairy tale that tells us that "programs of excellence" will continue to be properly supported in order for them to maintain that excellence. Like John Lennon, "we'd all like to see the plan". I've been holding my breath on that plan emerging for the better part of a year. So might I suggest that administration develop some better fairy stories to promulgate for two reasons: first, as we aren't buying the current fairy stories and two, my neurologist recommends it.

Vice chairperson's Report

Since it is October, if you are like me, Halloween is constantly on your mind. It is an exciting time to be an IUP student – one such costume idea. Our own Jess Tomlinson was chosen as the student

representative to the Indiana Borough Council, President Zack Stayman and I are student representatives on the Presidential Search Committee, and The Student Coop is in the process of finalizing plans for a new recreational facility. Finer points on these topics will be coming over the next few months.

A landlord is another terrific outfit, fitting the frightening theme of the holiday, and similarly the SGA Off-Campus Housing Fair will take place October 19th in the HUB Ohio Room. Last year was the inaugural year and it was a rousing success with SGA receiving numerous "thank you's" from local renting companies. Through the housing fair, SGA not only helps students find a place to live but it also is a prime example of IUP students assisting local businesses and the community.

One issue that I would personally like the necessary committees to examine is that of flexibility in, and substitution of, required courses for minors. Students in their last year, who have the ability to add a handful of classes and further their education, are often highly restricted because courses required for the minor are only taught once a year. If such a course is taught in the fall and a last-year student only decides on the minor mid-fall, there is no way to complete the minor even though with winter session and spring session there is more than enough time and more than enough courses offered, usually even higher-level courses, within that department. Also, while a minor may only require 15-18 credits, the prerequisites for the required classes sometimes make adding another major an easier and less time-consuming process. We as a university are becoming more flexible with how classes are taught, either fully online or partially online, but we need to become more flexible with our requirements, especially with less classes being offered due to budget and personnel restraints.

Finally, the next SGA Meeting will be October 27th in the HUB Allegheny Room. I hope by now you all guessed that with my tribute beard and sweater I'm currently being former senate chairman Dr. Peter Broad for Halloween. I was going to go as student trustee Andrew Longacre but my voice isn't anywhere near that low…

Rules Committee (Senator Korns)

A reminder to all committee chairs, according to Senate By-Laws 4.C:

> The chair of each committee shall be responsible for publishing the dates and locations of open committee meetings. The secretary of each committee shall be responsible for filing a copy of the minutes of each meeting with the chair of the Rules Committee and send a hard or electronic copy of these minutes to the Senate secretary as soon as possible following each meeting.

The next Rules Committee meeting will be held Oct 18 in Keith 6 at 3:30 pm.

University-Wide Undergraduate Curriculum Committee
Senator Sechrist

The following courses were approved by the UWUCC to be offered as distance education courses:

- **FSMR 360   Apparel Industry II**
- **BIOL 118   The History of Pain**
- **CRIM 394   Crime and Delinquency Prevention**

1 Department of Philosophy – Title Correction   **APPROVED**

Current Title:

PHIL 360 Philosophy of the Mind

Correct Title:

PHIL 360 Philosophy of Mind

Rationale: The course was submitted and passed by the UWUCC as Philosophy of Mind. "The" was added by mistake to the Senate Agenda on April 20, 2010.

2 Department of Journalism – Revision of Minor   **APPROVED**

Proposed Revision:

Current:		Proposed:	
Minor–Journalism	**18 (1)**	**Minor–Journalism**	**18 (1)**

Required Courses:		**Required Courses:**	
JRNL 102 Basic Journalistic Skills	3cr (2)	JRNL 102 Basic Journalistic Skills	3cr (2, 3)
JRNL 105 Journalism and the Mass Media	3cr (2)	JRNL 105 Journalism and the Mass Media	3cr (2, 3)
JRNL 120 Journalistic Writing	3cr (2)	JRNL 120 Journalistic Writing	3cr (2, 3)
Controlled Electives: Three courses from the following:		**Controlled Electives:** Three courses from the following:	
JRNL 243, 326, 338, 344, 347, 375, 481 (3)	9cr	JRNL 243, 250, 326, 338, 344, 347, 375, 481 (4)	9cr

(1)   Internship credits do not apply toward the 18cr minor; however, a student in the minor program may take an internship and apply the credits as free electives.
(2)   The above three courses are to be taken in sequence.
(3)   Minors may substitute only with departmental permission.

(1)   Internship credits do not apply toward the 18cr minor; however, a student in the minor program may take an internship and apply the credits as free electives.
(2)   A grade of C or better is required for graduation with a minor in Journalism.
(3)   The above three courses are to be taken in sequence.
(4)   Minors may substitute only with departmental permission.

Rationale: Journalism is a highly competitive field. Students who minor in journalism intend to work in journalism and/or public relations where command of grammar, spelling, punctuation, style, journalistic writing methods and knowledge of the functioning of the industry are paramount to their success. That is why the second footnote about a grade of C or better was

added. JRNL250 Women and the Press has always been a part of the journalism minor as a controlled elective. The department is not clear about when it was deleted from the list in the catalog. Despite that, this course will provide minors with the knowledge of diversity issues in the field.

3 Department of Developmental Studies - **Catalog Description Change**   **APPROVED**

Current Catalog Description:

DVST 070 Reading Skills for College Study   **3c-0l-3cr**
Assists in the development of college-level reading skills with emphasis on textbook reading. Includes literal and critical comprehension skills, vocabulary development, and reading efficiency. Carries institutional, non-degree credit, and attendance is required.

Proposed Catalog Description:

DVST 070 Reading Skills for College Study   **3c-0l-3cr**
Note: Students who score 77 and below on the COMPASS Post Test (administered at the end of this course) are required to enroll in DVST 110 Introduction to Critical Reading and Thinking the following semester.
Assists in the development of college-level reading skills with emphasis on textbook reading. Includes literal and critical comprehension skills, vocabulary development, and reading efficiency. Carries institutional, non-degree credit, and attendance is required.

Rationale: The sequential nature of the courses DVST 070 Reading Skills for College Study and DVST 110 Introduction to Critical Reading and Thinking, and the placement testing requirements were unclear. Students who score below 60 on the COMPASS Reading Placement Test (administered during summer orientation) are placed into DVST 070. Students who score between 60-77 on the COMPASS Reading Placement Test are placed into DVST 110. Students enrolled in DVST 070 are also administered the COMPASS Reading Placement Test as a post-test at the end of this course. Students who score *above 77 on the post-test* are exempt from the DVST 110 course. Students who score 77 and below are required to continue with the reading program by enrolling in DVST 110 for the following semester.

4 Department of Health and Physical Education – **Program Revision Change, Program Catalog Description Change, and Course Prerequisite Changes**

a Program Catalog Description Change: **APPROVED**

Current Catalog Description:

Bachelor of Science Degree–Athletic Training
IUP's Athletic Training program is accredited by the Commission on Accreditation of Athletic Training Education. This program prepares students with the knowledge, skills, and experience to provide prevention, evaluation, acute management, and rehabilitation and/or reconditioning services to professional and amateur athletes and other individuals involved

in sports, exercise, and physical activity in general. The program has an academic and a clinical education and experience component. The clinical education and experience component entails a series of eight sequential laboratory courses and a minimum of four semesters of supervised field experience with the IUP Department of Athletics and affiliated clinical settings (sports medicine clinics, physicians' offices/hospitals, and high schools). Students must file an application for admission into the program during their fourth semester at IUP (spring of their sophomore year). Formal admission into the program is a prerequisite for assignment to clinical field experiences and enrollment in upper-level courses. Admission into the program is competitive, and fulfillment of the minimum eligibility requirements does not guarantee admission. Each year, the program will select a predetermined number of students from the eligible candidate pool based on demonstrated academic achievement and the evaluation of other criteria (letters of recommendation, essay, etc.). The Athletic Training Selection Committee will review all completed applications and rank students according to the specified criteria. The number of candidates admitted each year may vary with the quality of the candidate pool, available clinical experience sites, and available supervision. Students not admitted initially may reapply the following year. The minimum standards for eligibility are: (1) sophomore status (minimum of 48 credits), (2) a minimum 2.7 cumulative GPA, (3) a minimum of a "C" grade in HPED 175, 221, 345, and 346, (4) two letters of recommendation, (5) satisfactory completion of a one-semester directed clinical observation, (6) a written essay, and (7) a completed and signed "technical standards" form. Official admission and subsequent assignment to field experiences are also contingent upon obtaining student liability insurance, health clearances (physical, TB, speech, and hearing), and Acts 34, 151, and 114 clearances (state and federal criminal and child abuse records). Once admitted, students must continue to demonstrate above-average academic and clinical performance in order to remain in good standing (specific program retention and completion guidelines apply). Students should obtain an Athletic Training Program overview or admissions packet from the department for full details.

Proposed Catalog Description:

Bachelor of Science Degree–Athletic Training
IUP's Athletic Training program is accredited by the Commission on Accreditation of Athletic Training Education. This program prepares students with the knowledge, skills, and experience to provide prevention, evaluation, acute management, and rehabilitation and/or reconditioning services to professional and amateur athletes and other individuals involved in sports, exercise, and physical activity in general. The program has an academic and a clinical education and experience component. The clinical education and experience component entails a series of nine sequential laboratory courses and a minimum of four semesters of supervised field experience with the IUP Department of Athletics and affiliated clinical settings (sports medicine clinics, physicians' offices/hospitals, and high schools). Students must file an application for admission into the program during their third semester at IUP (fall of their sophomore year). Formal admission into the program is a prerequisite for assignment to clinical field experiences and enrollment in upper-level courses. Admission into the program is competitive, and fulfillment of the minimum eligibility requirements does not guarantee admission. Each year, the program will select a predetermined number of students from the eligible candidate pool based on demonstrated

academic achievement and the evaluation of other criteria (letters of recommendation, essay, etc.). The number of candidates admitted each year may vary with the quality of the candidate pool, available clinical experience sites, and available supervision. Students not admitted initially may reapply the following year. The minimum requirements for eligibility are: (1) sophomore status (minimum of 36 credits), (2) a minimum 2.7 cumulative and major GPA, (3) a minimum of a "C" grade in HPED 175, 221, 345, and 346, and (4) a completed application for admission. Additional details and required documentation that must accompany the application (clearances, directed observation, letters of recommendation, CPR certification, essay, etc.) are outlined in the "Athletic Training Program Overview", and the Athletic Training program "admissions packet". Both documents are available from the HPE department office upon request. Once admitted, students must continue to demonstrate above-average academic and clinical performance in order to remain in good standing. Specific program retention and completion standards apply. Students must maintain a minimum 2.7 cumulative and major GPA, and obtain a C grade or better in all major courses. Only students who meet these minimum standards will be eligible for endorsement for the Board of Certification national examination. Students should request the Athletic Training Program Overview document from the HPE department for full details regarding program retention and completion requirements.

b Program Revision: **APPROVED**

Current Program:		**Proposed Program:**

Total Degree Requirements: 120

Note: All students must obtain an Athletic Training Program Overview available from the HPED office or the office of the Curriculum Coordinator for full details on admission, retention, and program completion requirements.

Rationale: Health and Wellness (HPED/FDNT/NURS 143) are the only available courses that fulfill critical competencies in personal and community health and wellness and lifestyle choices (nutrition, hypokinetic conditions, fitness, stress management, mental/emotional wellness, sexually transmitted diseases and AIDS, other communicable diseases, non-communicable diseases, substance abuse, human sexuality, etc.) needed for allied health professionals. A comprehensive study of these competencies (not provided in any other course) is necessary for program accreditation, as well as for certification in the profession of Athletic Training. The Liberal Studies Elective FDNT 145 is being moved into the Athletic Training requirements section.

Deletions include: HPED 442 – the competencies met by this course are being absorbed by the

new course HPED 480 in a context that is more relevant to Athletic Training. PHYS 151 – the Athletic Training related competencies covered in this course are covered in other courses as well, and the credits are needed in other more critical areas. HPED 492 – this course is being removed from the list of controlled electives because it has been restricted as the "capstone course" for Exercise Science majors only. The fitness content that is critical for the Athletic Training professional is covered in other required courses. Additional content included in this course is supplemental but not required/critical for the Athletic Training professional.

Additions include: HPED 286 – this existing exercise science course needs to be added due to new and/or revised competencies in the area of strength training and conditioning. HPED 480 – this is a new course that is necessary in order to cover competencies in the areas of professional development that are not addressed in any other course. It has been offered twice before as a special topics course. Please refer to the new course proposal included. Controlled Electives – all the courses added to the list of controlled electives are in one way or another related to the profession of athletic training. We have added new and diverse offerings to give students some flexibility in course selection according to their own personal needs/desires. See rational for deletion of HPED 492 under "Deletions" section above.

c Course Prerequisite Changes:

i   Current Catalog Description: APPROVED

HPED 142 Foundations of Health, Physical Education, and Sport   3c-0l-3cr
Historical, philosophical, and psychosocial foundations of health and physical education are introduced. Specific emphasis is given to scientific theories and principles in such areas as health promotion and behavioral change, exercise physiology, motor development, kinesiology and motor learning.

Proposed Catalog Description:

HPED 142 Foundations of Health, Physical Education, and Sport   3c-0l-3cr
Prerequisite: Health and Physical Education, Physical Education and Sport, Athletic Training Majors
Historical, philosophical, and psychosocial foundations of health and physical education are introduced. Specific emphasis is given to scientific theories and principles in such areas as health promotion and behavioral change, exercise physiology, motor development, kinesiology and motor learning.

Rationale: The department has a significant need to make seats available for current HPED, Physical Education and Sport, and Athletic Training majors, who are sometimes unable to register due to course capacity.

ii Current Catalog Description: APPROVED

HPED 285 Group/Individual Exercise Leadership   1c-2l-3cr

Prerequisite: PESP/Exercise Science Majors
Provides theoretical knowledge of leadership skills necessary to design, implement, and evaluate safe and effective exercise programs in group and individual settings. An emphasis is placed on group exercise leadership and fitness instruction. Students are also introduced to the management and administration of such programs. Observations within the field are required, as well as opportunities to apply introductory concepts of exercise training through practical application.

Proposed Catalog Description:

HPED 285 Group/Individual Exercise Leadership   **1c-2l-3cr**
Prerequisites: PESP/Exercise Science Majors, HPED 221 with a grade of C or better, or BIOL 150 with a grade C or better
Provides theoretical knowledge of leadership skills necessary to design, implement, and evaluate safe and effective exercise programs in group and individual settings. An emphasis is placed on group exercise leadership and fitness instruction. Students are also introduced to the management and administration of such programs. Observations within the field are required, as well as opportunities to apply introductory concepts of exercise training through practical application.

Rationale: The exercise science program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The certification requires course sequencing and academic standards to be in place to maintain accreditation.

iii   Current Catalog Description: **APPROVED**

HPED 286 Strength/Personal Training Practicum   **1c-1l-2cr**
Prerequisite: PESP/Exercise Science Majors
Provides theoretical knowledge of leadership skills necessary to design, implement, and evaluate safe and effective personal training programs. An emphasis is placed on individualized fitness instruction and the development of training programs for cardiovascular fitness and strength. Observations within the field are available as well as opportunities to apply introductory concepts of exercise training through practical application.

Proposed Catalog Description:
HPED 286 Strength/Personal Training Practicum   **1c-1l-2cr**
Prerequisites: PESP/Exercise Science Majors and a C or higher in HPED 221 or BIOL 150, or Athletic Training Majors
Provides theoretical knowledge of leadership skills necessary to design, implement, and evaluate safe and effective personal training programs. An emphasis is placed on individualized fitness instruction and the development of training programs for cardiovascular fitness and strength. Observations within the field are available as well as opportunities to apply introductory concepts of exercise training through practical application.

Rationale: The exercise science program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The certification requires course sequencing and academic standards to be in place to maintain accreditation.

iv Current Catalog Description: **APPROVED**

HPED 315 Biomechanics   **3c-0l-3cr**
Prerequisite: HPED 221
A study of the relationship between mechanical and physical principles and human movement.

Proposed Catalog Description:

HPED 315 Biomechanics   **3c-0l-3cr**
Prerequisite: C or higher in HPED 221 Structure and Function or C or Higher in BIOL 150 Human Anatomy
A study of the relationship between mechanical and physical principles and human movement.

Rationale: The exercise science program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The certification requires course sequencing and academic standards to be in place to maintain accreditation.

v Current Catalog Description: **APPROVED**

HPED 410 Exercise Prescription   **3c-0l-3cr**
Prerequisite: HPED 343 with a grade of C or better
Teaches individuals to write exercise prescriptions based upon a subject's tolerance for physical activity. Special emphasis is on risk factors, techniques of evaluation, drugs, injuries, environmental factors, and motivation and their role in physical activity assessment.

Proposed Catalog Description:

HPED 410 Exercise Prescription   **3c-0l-3cr**
Prerequisites: PESP/Exercise Science Majors and HPED 343 with a grade of C or better
Teaches individuals to write exercise prescriptions based upon a subject's tolerance for physical activity. Special emphasis is on risk factors, techniques of evaluation, drugs, injuries, environmental factors, and motivation and their role in physical activity assessment.

Rationale: The exercise science program is accredited by the Commission on

Accreditation of Allied Health Education Programs (CAAHEP). The certification requires course sequencing and academic standards to be in place to maintain accreditation.

vi Current Catalog Description: **APPROVED**

HPED 414 Exercise Electrocardiography   **1c-1l-2cr**
Corequisite or Prerequisites: PESP/Exercise Science Majors, HPED 343
An introduction to the basic concepts of electrocardiography (ECG), including an understanding of electrophysiology, electrode lead placement, both rhythm strips and 12-lead interpretation. Utilizing electrocardiograms, students will also be able to recognize normal and abnormal rhythms, including those ECG abnormalities brought about by exercise. Normal and abnormal responses during Graded Exercise Testing will also be interpreted.

Proposed Catalog Description:

HPED 414 Exercise Electrocardiography   **1c-1l-2cr**
Prerequisites: PESP/Exercise Science Majors and HPED 343 with a grade of C or better
An introduction to the basic concepts of electrocardiography (ECG), including an understanding of electrophysiology, electrode lead placement, both rhythm strips and 12-lead interpretation. Utilizing electrocardiograms, students will also be able to recognize normal and abnormal rhythms, including those ECG abnormalities brought about by exercise. Normal and abnormal responses during Graded Exercise Testing will also be interpreted.

Rationale: The exercise science program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The certification requires course sequencing and academic standards to be in place to maintain accreditation.

5 Department of Human Development and Environmental Studies - **Course Revision, Catalog Description and Course Number Change, and New Courses**

a Course Revision, Catalog Description and Course Number Change: **APPROVED**

Current Catalog Description:

FSMR 110 Introduction to Fashion   **3c-0l-3cr**
Survey of aesthetic, cultural, socio-psychological, and economic factors related to the meaning and use of clothing and fashion for the individual and society.

Proposed Catalog Description:

FSMR 180 Introduction to Fashion   **3c-0l-3cr**

Survey of fashion careers and industry functions including design, production, retail channels, and current trends.

Rationale: Due to the continually changing nature of the fashion industry as well as the expertise of newer faculty, we realized that the course contents need to be updated. Therefore, this course will become FSMR 180 which reflects this need. The new course number FSMR 180 reflects that this course is one of the four separate key FSMR courses (FSMR 180, 280, 380, 480). It will be clear to students that the four separate key FSMR courses are in a sequence and that FSMR 180 is the foundation of this series. The course description of FSMR 180 was modified to reflect the appropriate topics that are covered in this course.

b   New Courses: **APPROVED**

i   FSMR 280 Introduction to Apparel Buying   **3c-0l-3cr**

Prerequisites: FSMR 180 with a grade of C or better, and Liberal Studies Math 101 or higher
Focus on using mathematical concepts in merchandising applications used for apparel buying. Students will develop and determine assortment plans, cost of merchandise, profitability, and retail sale prices.

Rationale: This course is intended to be taken during a student's sophomore year within the B.S. Fashion Merchandising Program. The proposed course contains vital, foundational content necessary prior to enrolling in FSMR 380 Applications in Apparel Buying. The content of this proposed course cannot be incorporated into an existing course because its volume and depth prevents it from being implemented effectively without detracting from the educational quality of an existing course.

ii   FSMR 380 Applications in Apparel Buying   **3c-0l-3cr**

Prerequisites: FSMR 280 with grade of C or better
Focus on the development of a six-month stock and sales plan for a retail business using computer applications. This will include projecting retail sales, controlling inventory, calculating the amount of merchandise to purchase, determining markup percentages, and effectively using markdowns to manage inventory.

Rationale: This course is intended to be taken during a student's junior year within the B.S. Fashion Merchandising Program. The content of this proposed course cannot be incorporated into an existing course because its volume and depth prevents it from being implemented effectively without detracting from the educational quality of an existing course.

6 Department of Professional Studies in Education and Department of Special Education and Clinical Services – New Track   **APPROVED**

Proposed Catalog Description and Track:

The **Urban Track**, within the Early Childhood/Special Education (ECSP) major offered by the Departments of Professional Studies in Education and Special Education and Clinical Services, prepares students for teaching in urban school districts especially in low-income communities with high minority enrollments where the need for high-quality teachers is great. Coursework and field experiences emphasize the historical, economic, political, and socioeconomic contexts of urban schools and seek to develop within future teachers the skills, knowledge-base and sensitivities for working with students whose backgrounds and life experiences often differ in significant ways from their own.

Bachelor of Science in Education–Early Childhood Education/ Special Education Urban Track (*)

Liberal Studies: As outlined in Liberal Studies section   46
with the following specifications:
Humanities: HIST 195
Mathematics: MATH 151
Natural Science: SCI 101, 102, 103, 104 (1)
Social Science: GEOG 101, 102, or 104, PSYC 101
Liberal Studies Electives: 3cr, MATH 152

College: 22
Preprofessional Education Sequence:
COMM 103   Digital Instructional Technology or
EDEX 103   Special Education Technology   3cr
EDSP 102   Educational Psychology   3cr
Professional Education Sequence:
EDSP 477   Assessment of Student Learning: Design and
                Interpretation of Educational Measures   3cr
EDUC 242   Pre-Student Teaching Clinical Experience I   1cr
EDUC 342   Pre-Student Teaching Clinical Experience II   1cr
EDUC 442   School Law   1cr
EDUC 461   Student Teaching   5cr
EDUC 471   Student Teaching   5cr

Major: 63
Required Courses: (2)
ECED 117   Family, Community and School Relationships in a
                Diverse Society   2cr
ECED 200   Introduction to Early Childhood Education   3cr

ECED 221	Literature for the Young Child and Adolescent	3cr
ECED 250	Language Development	3cr
ECED 280	Maximizing Learning: Engaging All PreK to Grade 4 Learners	3cr
ECED 310	Science, Health, and Safety for All PreK-Grade 4 Learners	3cr
ECED 351	Literacy for the Emergent Reader PreK-Grade 1 Learners	3cr
ECED 411	Social Studies for All PreK to Grade 4 Learners	3cr
ECED 451	Literacy for the Developing Reader Grades 2-4 Learners	3cr
ECSP 112	Growth and Development: Typical and Atypical	3cr
ECSP 314	Creative Experiences and Play for All PreK to Grade 4 Learners	3cr
ECSP 340	Introduction to Classroom and Behavior Management for All PreK to Grade 4 Learners	3cr
ECSP 440	Professional Seminar: Teacher as Researcher and Advocates for All PreK to Grade 4 Learners	2cr
EDEX 110	Introduction to Exceptional Persons	3cr
EDEX 323	Instruction of English Language Learners with Special Needs	2cr
EDEX 425	Methods and Curriculum (Mild – Moderate Disabilities)	3cr
EDEX 435	Methods and Curriculum (Severe – Profound Disabilities)	3cr
EDEX 460	Family Perspectives on Disability	3cr
EDEX 469	Education of Persons with Emotional/Behavioral Disorders, Learning Disabilities, or Brain Injury	3cr
EDEX 478	Education of Persons with Mental Retardation/ Developmental Disabilities and Physical/Multiple Disabilities	3cr
ELED 313	Teaching Mathematics in the Elementary School	3cr
MATH 320	Mathematics for Early Childhood	3cr

Other Requirements: 6

FDED 440	Orientation to Teaching in Urban Centers	3cr
FDED 441	Field Experiences in Urban Centers	3cr

Total Degree Requirements: 137

(*)   See requirements leading to teacher certification, titled "3–Step Process for Teacher Education," in the College of Education and Educational Technology section of this catalog.
(1)   This sequence of 10cr fulfills the Liberal Studies Natural Science requirement.
(2)   A 3.0 cumulative GPA is required to register in the teacher certification sequence courses.

Rationale: The National Association for the Accreditation of Teacher Education (NCATE) mandates that all teacher candidates have coursework and field experiences that expose them to diverse student populations in structured, positive settings. The Urban Track is an important diversity initiative within our College that allows our ECSP majors to specialize in urban teaching. The Pennsylvania Department of Education has mandated that all teacher preparation programs change their certifications from K-6 certifications to PreK-4 and 4-8 certifications and to require a Special Education certification to include a content area certification. This mandate

has involved the Professional Studies in Education Department and the Special Education and Clinical Services Department in creating a new curriculum in order to meet the guidelines for the new certification programs. As a result of these curriculum changes, the Urban Track has had to also adapt to the new curriculum without changing or removing any of the new courses required to obtain the PreK-4 certification and the Pre-K-Grade 8 Special Education certification.

University-Wide Graduate Curriculum Committee (Senator Piper)

The University Wide Graduate Committee provided distance education approval for the following courses:

NURS 864: Technology in Nursing Education

1. **Minor Course Revision** ELMA 556   **APPROVED**

    Name of Program: M.Ed. in Elementary and Middle School Mathematics Education

    Sponsoring Department: Mathematics

    Catalog Start Time: Spring 2012

    ELMA 556 Geometry for Elementary/Middle Level Teachers   3c-0l-3sh

    Summary of Changes

    Rationale for Name Change: The name change is more descriptive of course content and makes this dual-level course name consistent with its undergraduate counterpart.

    Rationale for Prerequisite Change – Students taking the graduate course have an education degree which will have included a course that will satisfy the prior prerequisite requirement. Prerequisite courses are not longer necessary. With current prerequisites, many students in the program require overrides making registration difficult.

Old Name and Prerequisites	New Name and Prerequisites
ELMA 556: Principles of Geometry I	ELMA 556: Geometry for Elementary/Middle Level Teachers
Prerequisite: Math 152 or equivalent	Enrolled in Master of Education in Elementary and Middle School Mathematics Education or permission of instructor.

    Catalog Description

    Current **–** ELMA 556 Principles of Geometry I
    Students become acquainted with an informal, intuitive approach to geometry. Activities and materials for teaching geometrical concepts to children are an integral part of the course.

    Proposed – ELMA 556 Geometry for Elementary/Middle Level Teachers

Students become acquainted with an informal, intuitive approach to geometry. Activities and materials for teaching geometrical concepts to children are an integral part of the course.

2. **Minor Course Revision** ELMA 571   **APPROVED**

Name of Program: M.Ed. in Elementary and Middle School Mathematics Education

Sponsoring Department: Mathematics

Catalog Start Time: Spring, 2012

ELMA 571 Algebra for Elementary/Middle Level Teachers   3c-0l-3sh

Summary of Changes

Rationale for name change and description change -The name and description change is more descriptive of the course content and makes this dual-level course more consistent with its undergraduate counterpart.

Rationale for Prerequisite Change -Students taking the graduate course have an education degree which will have included a course that will satisfy the prior prerequisite requirement. With current prerequisites, many students in the program require overrides making registration difficult.

Old Name and Prerequisites	New Name and Prerequisites
ELMA 571: Principles of Algebra	ELMA 571: Algebra for Elementary/Middle Level Teachers
Prerequisite: Math 152 or equivalent	Enrolled in Master of Education in Elementary and Middle School Mathematics Education or permission of instructor.

Catalogue Description

Current - ELMA 571 Principles of Algebra   3c-01-3sh
Concepts of basic algebra structure such as group, ring, integral, domain, field, and vector space are studied within the context of the mathematical maturity of the student. Other topics include relations and functions, systems of equations, and inequalities. Consideration is given to the development of these concepts in the mathematics curriculum.

Proposed - ELMA 571 Algebra for Elementary/Middle Level Teachers
Topics include multiple representations of sequences, integers, expressions, equations, systems of equations, inequalities, and matrices. Representations of expressions and equations will be employed through the use of hand-on and visual aides and with appropriate technology. Connections will be made with the teaching and learning of algebraic concepts at the Elementary and Middle Level.

3. **New Course DUAL-Listed Course: ELMA 561** **<u>APPROVED</u>**

Name of Program: M.Ed. in Elementary and Middle School Mathematics Education

Sponsoring Department: Mathematics

Catalog Start Time: Spring 2012

ELMA 561 Discrete Mathematics for Elementary/Middle Level Teachers   3c-0l-3sh

Catalog Description

Topics in discrete mathematics, including systematic counting, graph coloring, networks, and their applications, as well as the historical background and the role of discrete mathematics in today's world. Uses a problem-solving, hands-on approach to content. Explores curricular materials, resources, and activities relevant to teaching discrete mathematics at the Elementary/Middle Level. This is a dual level course.
Prerequisite: Enrolled in Master of Education in Elementary and Middle School Mathematics Education, or permission of instructor.

Rationale

MATH 461 had already been approved by the Senate. However, the changes in ELMA 561 reflect the need for differentiation from the undergraduate course. These changes are indicated in the course syllabus as bold-faced and italicized:
- o Course Outcome 7 is added, specific to graduate students.
- o Evaluation Methods are modified to incorporate a graduate student assignment.
- o The "D" grade has been eliminated in the Grading Scale.

4. **New Dual Level Course** MKTG 533 **<u>APPROVED</u>**

Before the vote to approve this course a question as to if it is a good idea to have a 600 level course be a prerequisite for a 500 level course. The committee said they discussed this issue and are leaving it to the Senate to decide.

Name of the Program: Masters of Business Administration

Sponsoring Department: Marketing

Catalog Start Term: Spring 2012

MKTG 533 Advertising   **3cr-0l-3sh**

Catalogue Description

An introduction to the principles, practices, and creations of advertising. Use of various media and legal, economics, social, and ethical aspects of advertising are also considered.
Prerequisite: MKTG 603 Marketing Management

Rationale:

 Advertising is an integral aspect of marketing along with other areas of marketing communication. Many of our students work with advertising and promotion related content early in their careers. Inclusion of this course within our curriculum will better prepare students for a marketing career. This course will be one of the electives for the Marketing Concentration part of the MBA program.   The course will require a basic undergraduate level Principles of Marketing course as a prerequisite. The four hundred level of the course will be offered as an elective for undergraduate marketing majors.

5.   **New Dual Level Course**   MKTG 543   **APPROVED**

   Name of the Program: Masters of Business Administration

   Sponsoring Department: Marketing

   Catalog Start Term: Spring 2012

   MKTG 543 New Product Design and Branding   **3cr-0l-3sh**

   Catalogue Description

   Discusses the new product design, development, branding and launch process companies use to bring a new concept to market by satisfying customer's unmet needs. It blends the perspectives of marketing, design, and the process of product creation. A step-by-step process from product planning and concept generation to commercialization and product launch planning will be covered.
   Prerequisite: MKTG 603 Marketing Management.

   Rationale

   The marketing curriculum is missing a specific course in the area of product management, an important area in the technologically and competitively dynamic business environment. This course focuses on value creation and provides invaluable tools and skills in product design and branding to our students. Inclusion of this course within our curriculum will better prepare students for a marketing career.
   This course will be one of the electives for the Marketing Concentration part of the MBA program.   The course will require a basic undergraduate level Principles of Marketing course as a prerequisite. The four hundred level of the course will be offered as an elective for undergraduate marketing majors.

6. **New Dual Level Course**   MKTG 544   **APPROVED**

   Name of the Program: Masters of Business Administration

   Sponsoring Department: Marketing

   Catalog Start Term: Spring 2012

   MKTG 544 Green Marketing   **3cr-0l-3sh**

   Catalogue Description

   Entails a diverse perspective to understanding the impact of human consumption on the
   environment and development of marketing strategies to improve the human-environment
   interaction through creation, communication, and delivery of superior value and customer
   relationship management.
   Prerequisite: MKTG 603 Marketing Management

   Rationale
   Green Marketing has become an important aspect of marketing management. Green
   Marketing practices have evolved as an essential component for an organization's viability in the
   marketplace. Inclusion of this course within a curriculum will better prepare students for a
   marketing career. This course will be one of the electives for the Marketing Concentration part
   of the MBA program.   The four hundred level of the course will be offered as an elective for
   undergraduate marketing majors.

7. **New Dual Level Course** MKTG 545   **APPROVED**

   Name of the Program: Masters of Business Administration

   Sponsoring Department: Marketing

   Catalog Start Term: Spring 2012

   MKTG 545 Social Media Marketing   **3cr-0l-3sh**

   Course Description

   Explores the online marketing activities, practices, and interactions of individuals and
   organizations using conversational electronic media. Assorted social media interactive networking
   tools and applications will be examined. Students will study and develop social media marketing
   programs.
   Prerequisite: MKTG 603 Marketing Management.

   Rationale

Social Media Marketing has become an important component of an organization's integrated marketing communications plans.   Social Marketing practices have evolved as essential interactive tools for an organization's communicative platform in the marketplace. Inclusion of this course within a curriculum will better prepare students for a marketing career. This course will be one of the electives for the Marketing Concentration part of the MBA program.   The course will require a basic undergraduate level Principles of Marketing course as a prerequisite. The four hundred level of the course will be offered as an elective for undergraduate marketing majors.

8.   New Dual Level Course   **APPROVED**

Name of the Program: Masters of Business Administration

Sponsoring Department: Marketing

Catalog Start Term: Spring 2012

MKTG 546 Marketing Ethics   **3cr-0l-3sh**

Catalogue Description

Applies major ethical theories to marketing problems, focuses on resolving dilemmas and vested interests of primary and secondary stakeholders, and addresses ethical issues of importance to marketing managers. Various topics cover ethical issues in relation to strategic planning, marketing research, product, pricing, distribution, and promotion decisions. The course also discusses issues concerning digital ethical marketing, marketing ethics in global context, and managing and leading ethical marketing systems.
Prerequisite: MKG 603 Marketing Management

Rationale

The role of ethics in marketing and business education is increasingly salient in view of several recent cases in corporations involving unethical behavior. This elective will expose students to ethical frameworks to aid their decision-making behaviors. Inclusion of this course within our curriculum will better prepare students for a marketing career.
This course will be one of the electives for the Marketing Concentration part of the MBA program.   The course will require a basic undergraduate level Principles of Marketing course as a prerequisite. The four hundred level of the course will be offered as an elective for undergraduate marketing majors.

9.   Minor Program Revision   **APPROVED**

Program: Master of Arts in Sociology

Sponsoring Department: Sociology

Catalog start term: Fall 2012
Description of Proposal

Exchange required core course for the Master of Arts in Sociology Program: Replace SOC 761 Microcomputing Applications in Sociology with SOC 762 Analysis of Social Data; Delete SOC 761 course listing.

Side-by-side Comparison of the Current vs. Proposed Program

Current Program	Proposed Program
Department of Sociology	*Department of Sociology*
Advanced training in sociology should enable students to think insightfully and critically about society and human relationships and to serve more effectively in a variety of professions. The department's M.A. in Sociology prepares students for employment in human services, government agencies, corporations, higher education, and social research positions. Recent graduates are working as directors of human services agencies, alcohol treatment supervisors, domestic violence program staff members, mental health professionals, researchers, data analysts, direct service practitioners, and educators. The M.A. in Sociology is designed to prepare students for such opportunities with two programs of study: the General Sociology Program and the Human Services Program.	Advanced training in sociology should enable students to think insightfully and critically about society and human relationships and to serve more effectively in a variety of professions. The department's M.A. in Sociology prepares students for employment in human services, government agencies, corporations, higher education, and social research positions. Recent graduates are working as directors of human services agencies, alcohol treatment supervisors, domestic violence program staff members, mental health professionals, researchers, data analysts, direct service practitioners, and educators. The M.A. in Sociology is designed to prepare students for such opportunities with two programs of study: the General Sociology Program and the Human Services Program.
In addition to School of Graduate Studies and Research admissions requirements, the applicants to the Sociology M.A. program should have completed at least 12 hours of undergraduate social science courses with an average of "B" or better. Students not meeting this requirement may be admitted if they agree to take additional undergraduate or graduate sociology courses designated by the department. [1] Students may also design their own specialization, with the approval of the graduate coordinator. [2] No more than 9 of these 15 semester hours of approved electives may be from outside the department.

Summary of the Rationale for Revision

Under this proposal, one required core course in the Master of Arts in Sociology Program, SOC 761 Microcomputing Applications in Sociology, will be replaced by SOC 762 Analysis of Social Data, which is already listed in the course catalog. The existing SOC 761 course listing will be deleted.

The course description for SOC 761 is outdated and does not appropriately reflect the needs of a computing or analytical course pursuant to an MA in Sociology. SOC 762 was added to the course catalog with this program revision in mind, but the paperwork was not completed to exchange one required course for another. The course description for SOC 762 is more in keeping with the emphasis and content of the existing required class as it is currently taught. Because the content of the courses is not expected to differ substantially based on the course number, students are expected to be equally prepared for completing program requirements. The course title and description for SOC 762 will also help our MA graduates when applying to doctoral programs, because some admissions committees have questioned whether the current course which is not clearly labeled as an analysis or statistics course, fulfills their expectations of a quantitative masters-level course.

Catalog Description

Current required course, to be <u>deleted</u> from program and from course catalog:

<u>SOC 761 Microcomputing Applications in Sociology 3 cr.</u>
<u>Analysis of data for social research, human service agencies, or policy organizations. Students</u>
<u>develop database management systems which can be applied to social research, human service</u>
<u>agencies, or policy organizations, as well as spreadsheets for program budgeting, evaluations,</u>
<u>and forecasting. Required for M.A. in Sociology. Prerequisite: COSC 101 or equivalent.</u>

The replacement course is **already listed** in the catalog. It will become the new required
course in the program:

SOC 762/862 Analysis of Social Data 3 cr.
Introduces students to statistics and their use in analyzing and understanding social phenomena
and social data. In particular, helps students develop the skills and knowledge needed to
conduct their own quantitative research, both as graduate students and as professionals, and to
better understand and critique research which students come across in their work. By the end of
the course, students will have an understanding of the concepts underlying the use of statistics,
the ability to critique and question statistics they encounter in daily life, the ability to use
professional statistical software (such as SPSS) comfortably, and the ability to use many
different statistical techniques in their own research. It will also provide a foundation for
learning more advanced statistics.

Brief Summaries of Each Change

The current required course, SOC 761 Microcomputing Applications in Sociology, will be
deleted from the catalog. The course SOC 762/862 Analysis of Social Data already exists in
the catalog.

All mentions of the required core course SOC 761 in the MA Program in Sociology will be
replaced with SOC 762 as a required core course in the MA Program in Sociology.

Awards Committee Report
The Awards Committee met on October 4, 2011. A chairman was elected. Next meeting, Nov 3 at
3:45.

 Library and Educational Services Committee (Senator Jozefowicz)

During the Fall 2011 semester LESC has met/is planning to meet face-to-face on September 20,
October 18, November 17, and December 13.

For the 2011-2012 academic year, the following individuals have been elected to the specified positions for committee leadership and committee liaisons:
- o LESC Chair: Stephanie Brewer Jozefowicz
- o LESC Vice Chair: Theresa Gropelli
- o LESC Secretary: Sharon Franklin-Rahkonen
- o LESC Liaison to the Distance Education Planning and Work Group: Beverly Chiarulli
- o LESC Liaison to the Academic Computing Policy Advisory Committee (ACPAC): Ben Ford
- o LESC Liaison to the Educational Services Fee (ESF) Committee: to be determined

Major talking points at the September 20 LESC meeting included the following:
- IUP Acceptable Use of Information Technology Resources Frequently Asked Questions (FAQ) document final review (see below for LESC Item #1—this is a <u>FOR INFORMATION</u> item)…please note: from Fall 2010 through Summer 2011, LESC members worked with IT services staff to develop this document to provide clarification and examples of issues related to the IUP Acceptable Use Policy in the form of Frequently Asked Questions IT services staff has faced since the Fall 2009 implementation of the IUP Acceptable Use Policy (this policy was previously passed by the University Senate on April 28, 2009)…IT services will be posting this FAQs document to the IUP webpages to accompany the IUP Acceptable Use Policy

- Overview of various recent Library services related announcements/issues/reports
    - o Extended main campus regular semester IUP Library hours consistent with last year's pilot program:

Mondays – Thursdays	7:45 am to 12:45 am
Fridays	7:45 am to 7:00 pm
Saturdays	11:00 am to 5:00 pm
Sundays	1:00 pm to 12:45 am

    - o IUP Library information literacy instruction session opportunities
    - o IUP Copyright Guidelines development status across campus

- Overview of various recent IT services announcements/issues/reports
    - o Rollout of Student Picture software for faculty use
    - o PATH Lab availability
    - o Desire2Learn workshop training
    - o Elimination of Legacy as an email option for IUP imail users
    - o Rollout for Online Student Orientation
    - o URSA/Banner downtime/upgrade planned for late September

<u>FOR INFORMATION</u>
LESC Item #1
<div align="center">

Acceptable Use of Information Technology Resources
Frequently Asked Questions (FAQ)
</div>

The following links contain important background information related to Acceptable Use at IUP:

- IUP Acceptable Use Policy: www.iup.edu/itsupportcenter/policies/default.aspx

- IUP's Standard Terms and Conditions for Contracts: www.iup.edu/page.aspx?id=74035

Question: What is an "Acceptable Use of Information Technology Resources Policy" and why does IUP need one?
Information Technology (IT) resources are intended to support the university's instructional, research, and administrative operations. The objective of the Acceptable Use of Information Technology Resources Policy (AUP) is to create a framework to ensure that IT resources are used in an appropriate fashion, and support the university's mission and institutional goals. In addition to legal requirements surrounding computing – such compliance with copyright violations – IUP must create additional requirements upon its user community so the computer network and university-owned computer equipment function in an efficient, cost-effective manner in support of the university's mission as well as within requirements of the Pennsylvania State System of Higher Education (PASSHE). The AUP is intended to address those additional requirements.

Question: I understand that I must abide by the law when using the IUP computer network and university-owned IT equipment. As long as I do this, am I automatically in compliance with IUP‟s AUP?
No. See the AUP's Responsibilities of Users of IT Resources section for details.

Question: What are considered to be „unacceptable‟ uses of IUP IT resources in addition to those uses that are illegal?
A variety of activities would violate the AUP. See the AUP's Prohibited Uses of IT Resources section for details.

Question: I am a student that uses the Internet for social networking, gaming and downloading movies and music. Are these considered acceptable?
Yes – to the extent that the usage complies with the AUP (all legal requirements observed and all AUP compliances met).

Question: What happens if I am charged with violating the Acceptable Use Policy?
Specifics can be found in the AUP's Procedures section.

Question: I am interested in learning more about illegal computer activities, such as those related to copyright infringement. Where can I learn more?
There are numerous websites with important information. The following links are just some of these:
    www.law.cornell.edu/uscode/18/1030.html
    www.brown.edu/cis/policy/copyright.php
    www.cit.cornell.edu/policies/university/privacy/responsible/illegal.cfm

Question: I am a university employee and would like to use the Internet for personal use over lunch, during my break time or during off hours. Is this permissible?
Strictly from the AUP perspective, this is permissible to the extent that the usage complies with the AUP (all legal requirements observed and all AUP compliances met). Employment restrictions could exist that are outside the scope of the AUP.

Question: What is considered to be confidential communication via email?
E-mail contents should always be considered 'public' because the sender does not know who the receiver will forward the e-mail to. Thus, while IUP does have an E-Mail as an Official Means of Communication Policy designed to reduce paper and delivery costs, this Policy never requires that sensitive and/or confidential information be transmitted via e-mail and users should be extremely cautious in using this medium for that purpose.

Question: How can I interfere with the normal operation and proper IT function?
IUP deploys a variety of restrictions in order to protect network integrity for all users. For example, IUP controls wireless bandwidth within the university setting so that non-university traffic does not interfere with IUP wireless users. IUP also prohibits the connecting of devices to the network that could compromise the monitoring of the entire network.

Question: How does IUP define a "user" of the IUP computer network?
Anyone using an information technology-related resource that is owned and/or operated by the university is considered to be a user of the network. See the Definitions portion of the AUP for more details.

Question: I am a faculty member with a business related to my academic discipline. Is use of the IUP network for my business an acceptable use of the network?
Strictly from the AUP perspective, this is permissible to the extent that the usage complies with the AUP (all legal requirements observed and all AUP compliances met). Restrictions could exist from other agreements or requirements outside the scope of the AUP.

Question: IUP encourages civic engagement among students and faculty. May students, faculty and staff use the IUP computing network to engage in civic activities?
Strictly from the AUP perspective, this is permissible to the extent that the usage complies with the AUP (all legal requirements observed and all AUP compliances met). Restrictions could exist from other agreements or requirements outside the scope of the AUP.

Question: May the university monitor my use of the IUP computing network?
While the university recognizes the role of privacy in institutions of higher learning and will endeavor to honor that ideal, there is no expectation of privacy of information stored on or sent through PASSHE/University-owned IT resources, except as required by law.

Question: Who is responsible for providing security for my Internet-connected devices on the IUP network?
The user and their actions are at the core of security practices. See the Responsibilities of Users of IT Resources section in the AUP for details.

Question: What happens to my use of the system if my computer becomes infected with a virus?
No explicit action is taken by the university. If, however, the virus subsequently results in activity that in some manner violate the AUP, it is possible IUP may take steps to disable connections to the network by that individual and/or machine until the situation is resolved.

Question: If a user uses too much of the system, can the user be disconnected from the system?
The university is obligated to maintain the integrity of its IT resources and therefore reserves the right to disable access when the integrity is jeopardized by an individual user's excessive bandwidth usage.

Question: If so, how would I know when I'm using too much of the system?
Only extreme situations would typically result in a user having their access disabled due to excessive use, though the university retains the right to adjust these measures as the situation warrants. In a shared user community such as IUP's, a number of factors would determine if the usage was considered excessive for the given situation – such as the demands of other users at the time.

Question: May I use the system to help me find my lost pet or to sell my house?
Strictly from the AUP perspective, this is permissible to the extent that the usage complies with the AUP (all legal requirements observed and all AUP compliances met). Restrictions could exist from other agreements or requirements outside the scope of the AUP. However, members of the IUP community are strongly encouraged to utilize website-centric avenues such as IUP Daily and/or The Beak to communicate this type of information.

Research Committee (Senator Bonach)

The committee met on September 20, 2011. Overall there were 17 USRC Small Grant proposals and the decision was made to fund 9 proposals totaling $11,801.00. The next USRC meeting is October 18, 2011 at 3:15 pm in 110 Stright Hall.

- Dr. Timothy Austin
- Dr. Ronald See
- Dr. Christy Chunta
- Dr. Kevin Eisensmith
- Dr. Kelly Heider
- Dr. Valeri Helterbran
- Dr. Christopher Kuipers
- Dr. Lisa Hammett Price
- Dr. Varinder Sharma

Student Affairs Committee (Senator Desmond)

 Involuntary Withdrawal Policy - DRAFT   **SENT BACK TO THE COMMITTEE**

Several questions were raised on this policy regarding the students who would be affected by this policy and the process they would then have to go through.

A suggestion was made to change the language in IV A 3. from …the Review Team <mark>may</mark> request to the Review Team <mark>will</mark> request a meeting…This was considered a major change and should be returned to the committee.

A motion was made the remove the proposal from the table and return to the committee. The motion passed 64 for 36 against.

I. **Purpose**

The purpose of this policy is to provide a procedure for determining whether an identified student's behavior poses a Direct Threat (as defined herein) and for responding to such behavior. Rarely does student behavior pose a Direct Threat. However, involuntary withdrawal may be appropriate when:

- the student displays behavior which would not fall within the scope of the Student Behavior Regulations or the Academic Integrity Policy, but that poses a Direct Threat;
- the student demonstrates a risk of repeated display of such behavior.

II. **Policy**

In the absence of other reasonable means or University procedures available for addressing a student's behavior which poses a Direct Threat, the University will consider and, if appropriate, implement the involuntary, total withdrawal of the identified student from the University.

The student may appeal an involuntary withdrawal decision, or may seek reenrollment to the University at a later time, in accordance with the guidelines and procedures articulated below. The decision regarding an appeal or reenrollment request will be considered on the basis of whether the student continues to pose a Direct Threat.

III. **Definitions**

A. **Direct Threat** – behavior which poses:

- significant risk to the health or safety of the identified student or others, or
- significant risk of damage to University property, or
- substantial disruption to the activities or education of the identified student or others, or
- substantial disruption to the orderly operation of the University.

B. **Significant Risk**–behavior which has a high probability of *substantial harm* to the student and/or the University community, given information concerning the behavior that is available at the time of concern.

IV. **Guidelines and Procedures**

A. **Review Process**

1. When made aware of an identified student whose behavior could warrant involuntary withdrawal, the Vice President for Student Affairs (or designee) will convene and oversee an Involuntary Withdrawal Review Team, to advise him/her whether or not a Direct Threat exists. Members of this team will include a representative from the Health Center, the Counseling Center, Disability Support

Services, and the student's academic dean (or designee). Depending on the nature of a particular case, other individuals who can assist in evaluating the potential risk posed by the student may be identified to advise the Vice President and Review Team.

The goal of the Vice President and Review Team will be to ascertain whether the student's behavior poses a Direct Threat. Factors to consider may include:
- the nature, duration, and severity of the risk of harm;
- the likelihood that the potential harm will occur;
- if the student asserts to have a legally protected disability entitled to reasonable accommodation, consideration should be given to whether reasonable modification of University policies, practices, and procedures would sufficiently mitigate the risk.

2.   The Vice President and Review Team may request to review educational records and/or to consult with various University community members or others who may be knowledgeable of the student and/or the behavior of concern.

3.   The Vice President and Review Team may request that the student take part in a medical/psychological evaluation. In such a case, the Vice President and Review Team will identify a qualified and licensed health professional who is independent from the University to conduct the evaluation. The University will be responsible for the fees associated with this evaluation.

4.   The Vice President and Review Team ~~may~~ will request a personal meeting(s) with the student, assuming s/he is cooperative and able to safely comply with such a request. Although it is highly desirable that the student choose to attend such a meeting(s), the review process may proceed if s/he does not attend. At the meeting(s), the Vice President and Review Team should present and discuss the information that is available for consideration.

5.   Based upon the Review Team's assessment, if the Vice President concludes that a Direct Threat exists, an appropriate next step will be determined, which may entail involuntary, total withdrawal of the student from the University, but would not preclude other actions depending on the particular situation.

6.   The review decision will be communicated by the Vice President to the student, and will provide the primary information that led to the decision. Any conditions for later reenrollment will also be communicated at that time.

7.   At any time prior to conclusion of the review process, the student may withdraw voluntarily. Conditions for reenrollment when such student withdraws can be determined by the Vice President and Review Team, and will be communicated to the student by the Vice President.

B. Appeal Process

1. The decision of the Vice President may be appealed in writing by the student to the IUP President.

2. An appeal must be filed within 10 calendar days after the decision of the Vice President is communicated to the student.

3. The President's decision on the appeal will be final and conclusive.

4. During the appeal process the student will remain totally withdrawn from the University.

C. **Reenrollment Process**
    1. An involuntarily withdrawn student may later request reenrollment to the University. A request must be made to the Vice President for Student Affairs. In his/her request, the student should provide evidence that s/he would no longer pose a Direct Threat, and that any conditions for reenrollment have been met. Such student is responsible for any fees associated with treatment, activities, and/or evaluations that s/he has taken part in or obtained in an attempt to demonstrate appropriateness for reenrollment.

    2. The Vice President will convene and oversee the Involuntary Withdrawal Review Team regarding the reenrollment of the student.

    3. The Vice President and Review Team may request an updated, independent, University-obtained medical/psychological evaluation and/or request to meet with the student. The University will be responsible for the fees associated with this evaluation.

    4. The decision of the Vice President will be based on a determination of whether the student can return safely to the University community and no longer pose a Direct Threat.

D. **Emergency Situation**
    At any time prior to the initiation or conclusion of the review process, the Vice President may implement an interim involuntary withdrawal of the student from the University, should immediate action appear warranted. A review process, as outlined above, should occur as soon as reasonably possible to consider the interim decision.

    Reasonable deviation from these procedures due to crisis and/or emergency situations will not invalidate the need for a review process and its subsequent decision.

V. **Recision**
    This policy shall not be rescinded or modified except by action of the IUP President, following consultation with the University Senate, and in accordance with University Senate By-Laws and Constitution.

VI. Publication Statements and Distribution

The IUP office of the Vice President for Student Affairs will publicize and transmit this policy to all members of the University community.

University Planning Council (Senator Reilly)

The council met on Oct 3, 2011

1. Dr. Werner provided a brief recap of the performance funding. June 1, 2012 is the deadline for selecting the remaining 5 variables we are allowed to select. The allocation of funding for next year will be made using the old variables.

2. Dr. Mack discussed issues and possible solutions on the steady decline of graduate students in particular students at the Masters level during the past 4 years.

Adjournment

The meeting was adjourned at 4:43 PM.

Respectively Submitted

Edel Reilly, Senate Secretary
