#### II. Approval of Minutes from October 21, 2014 Curriculum Committee Meeting

On a Greenawalt/Pararai motion, the minutes for October 21<sup>st</sup> were approved as presented.

#### III. Co-Chairs Report

Update on last meeting's items: Co-chair did not hear back yet about changes to the MUHI courses, BLAW 235, or MGMT 440. No response either from Management about our question about the new position. All of the other items were added to the Senate Agenda. The letters of support for the Applied Statistics Minor had been lost by the college. Provost's email on the SCAT Recommendation suggested an additional sentence:

"If a proposal is rejected after Senate approval for any reason, the entire proposal is deemed as rejected and is sent back to the proposer. This provision applies only to curriculum actions proposed through the process described here, and it is not intended to impede constructive dialog and implementation of minor and mutually agreeable corrections such as misspellings and punctuation." Members had some concern that this would reopen the door for the class size consideration. Killam went to consult with the Graduate Committee.

Additional consultations occurred with the Rules Committee, Graduate Committee and the Provost, which lead to an agreement on the final wording of the second sentence as: "This provision applies only to curriculum actions proposed through the process described here, and it is not intended to impede constructive dialog and implementation of minor and mutually agreeable editorial corrections such as misspellings, punctuation, or rewording." Everyone agreed that the word curricular does include class size.

After conversations with the Provost, Rules Committee, and Graduate Committee, the email from the Provost was accepted by UWUCC with the suggested revisions.
