    - 1) The first footnote referenced in the program needs to be numbered 1 not 6.

    - 3) There were also several course titles that do not match the catalog and four course numbers that do not match the catalog.]
- r. 16-55 Global Health Minor, new minor
  - Consider retooling the proposal to be a potential new track in the recently approved Public Health major. There is also a rural health track in public health that may be a good fit.
  - Many courses do not fit the title—they do not seem global.
  - Suggest that the proposers look at the accreditation criteria for the Public Health program to sharpen the focus.
  - Consider adding economics and political science for policy.
  - There was a concern raised that a student could potentially pick courses that would not provide them with enough courses in the global health area. More natural science classes might be needed.
