v. 21-98 Social Studies Education/History, BSED, program revision

-The left hand side column is wrong – it does not match the catalog

- Liberal studies heading is needed, especially for information on learning skills.

- Reilly will meet with the proposer to identify other items not listed here.

- The revision includes 43 credits (ENGL 202 is lifted). They have writing plan.

-6 credits learning skills need to include ?? maybe as footnotes

Fix the wording and add footnote. How they want to look in the program.

-Since ACE 103 is now ETIT the order of the courses in Preprofessional area needs to switch.

-Knowledge HIST requirement: They need to name class names, rather than simply said 'it will be fulfilled by courses in the major'

-Should check 'Program description change'

- Should revise the answer related to why the program is being revised. Make it more positive like 'improved flexibility' de-emotionalize the answer.

Returned on a Reilly/Lewis motion- Abstained: Vanier

w. 21-99a History BA, program revision

It matches the catalog closer. Use the same language suggested above for rationale.
