Rationale for Proposed Changes (All Categories)			
Why is the course being revised/deleted:	To reduce the number of required credit hours in the accounting major from 63 to 60 credit hours in order to conform with PASSHE requirements.		
Implication of the Change on:	The Accounting major will now require students to complete 9 credit hours of major controlled electives rather than the present 12 credit hours of major controlled electives. This change has no impact on other programs.

Subject: ACCT proposal

As I was getting ready to write the email to Geoff Tickell about the ACCT program revision I found that it looked like a course catalog description change was what was in the program catalog description change area. I asked if that was correct. He said yes so since the dean already approved the original proposal. I asked him to just submit a Course Revision proposal to me and then we will log it in and add it to Tuesday's agenda labeling it as 150b and changing 150 to 150a. The course name is on the proposal then we need to change the ACCT program proposal from approved to provisional since the proposal needs to be revised to not include the course description change. He said that he will try and get it to me tomorrow. The end is near.
