DESCRIPTION OF CURRICULUM CHANGES

I. Catalog Description

BIOL 310 Applied Entomology and Zoonoses

3 credtis 2 lecture hours 3 lab hours (2c-3l-3sh)

Prerequisite: BIOL 220 or permission

A study of the measures for abatement or control of arthropods, rodents, birds, and other disease vectors of public importance; selection, chemistry, formulation, and safe application of insecticides, rodenticides, and fumigants; pesticiding equipment; application of biological and other measures of control. (Also offered as ENVH 310; may not be taken for duplicate credit)

ENVH 310 Applied Entomology and Zoonoses

3 credtis 2 lecture hours 3 lab hours (2c-3l-3sh)

Prerequisite: BIOL 220 or permission

A study of the measures for abatement or control of arthropods, rodents, birds, and other disease vectors of public importance; selection, chemistry, formulation, and safe application of insecticides, rodenticides, and fumigants; pesticiding equipment; application of biological and other measures of control. (Also offered as BIOL 310; may not be taken for duplicate credit)

II. Listing of Proposed Changes

A. Old Title & Number

BIOL 310 Applied Entomology and Zoonoses

B. New Title & Number

BIOL 310 Applied Entomology and Zoonoses

ENVH 310 Applied Entomology and Zoonoses

C. <u>Justification/Rationale for Changes</u>

BIOL 310 Applied Entomology and Zoonoses will be cross-listed as an ENVH course; indicating that it is appropriate as a Biology Elective for biology and biology-education majors, and as a Controlled Elective for Environmental Health majors. Courses offered by the Department of Biology and designed for environmental health majors will now carry an ENVH prefix. The catalog descriptions for BIOL 310 and ENVH 310 have been slightly modified to indicate that these courses cannot be taken for duplicate credit. These changes will strengthen the Environmental Health Curriculum Revision by grouping all environmental health-related courses under the new ENVH prefix.
