Part II. Description of the Curriculum Change

1. New Catalog Description

BIOL 460: Fundamentals of Environmental Epidemiology

3c-0l-3cr

Prerequisites: MATH 216 or 217; BIOL 104 or 112; or instructor permission

Study of the health consequences of involuntary exposure to harmful chemical and biological agents in the general environment. Disease etiology, occurrence, and intervention in human populations are examined through epidemiologic study using analytical methods and applications.

2. Listing of Proposed Change and Old Catalog Description

The ENVH cross-listing notation is being deleted.

BIOL 460: Fundamentals of Environmental Epidemiology

3c-0l-3cr

Prerequisites: MATH 216 or 217; BIOL 104 or 112; or instructor permission

Study of the health consequences of involuntary exposure to harmful chemical and biological agents in the general environment. Disease etiology, occurrence, and intervention in human populations are examined through epidemiologic study using analytical methods and applications. (Also offered as ENVH 460; may not be taken for duplicate credit)

3. Justification/Rationale for Change.

The B.S. in Environmental Health is being converted to a B.S. in Biology / Environmental Health Track and all ENVH courses are being deleted.

Part III. Letters of Support or Acknowledgement

Not applicable.
