CURRICULUM PROPOSAL COVER SHEET
University-Wide Undergraduate Curriculum Committee

I. Title/Author of Change

Course/Program Title: BI 446/546
Suggested 20 Character Course Title: Dendrology
Department: Biology
Contact Person: Dr. Jerry L. Pickering, Ex. 2356

II. If a course, is it being Proposed for:

Course Deletion
 Course Revision/Approval and Liberal Studies Approval
 Liberal Studies Approval Only (course previously has been approved by the University Senate)

III. Approvals

Robert P. Henderson
Department Curriculum Committee

H. Hamrick
College Curriculum Committee

[Signature]
Department Chairperson

[Signature]
College Dean*

Director of Liberal Studies
(where applicable)

Provost (where applicable)

*College Dean must consult with Provost before approving curriculum changes. Approval by College Dean indicates that the proposed change is consistent with long range planning documents, that all requests for resources made as part of the proposal can be met, and that the proposal has the support of the university administration.

to UWUCC: _____

Semester to be
implemented: _____

Date to be
published in Catalog: _____

Part II: Description of the Curriculum Change

1. BI 446/546-Dendrology will be deleted.
2. Both BI 446/546 and BI 451/551 - Plant Taxonomy are being replaced by a new course, BI 251 - Field Botany. The Biology Department's Botany Track Subcommittee recommended that a Field Botany course be developed for the Botany Tract option for undergraduate students. It is also hoped that by having one plant identification course instead of two the course could be offered on a regular basis with an adequate number of students in the class.
3. These changes will reduce the number of plant identification courses from two to one for undergraduate students. Most of the material that was covered in these courses will be included in the new course. The graduate level course, BI 651 - Plant Taxonomy, will be developed to replace BI 551 in the curriculum.

Date: November 6, 1992

To: Dr. Hilda Richards
Provost

From: William G. Cale *W. G. Cale*
Dean, NS&M

Subject: Curriculum Changes

Attached please find curriculum proposals from the Biology Department. The proposed changes will require no additional resources to implement. The proposed new course, BI 251 Field Botany, would be taught in place of BI 446/546 and BI 451/551 which are recommended to be dropped from the curriculum.
