## Part II. Description of Curriculum Change

### 1. Proposed Catalog Description:

#### **CHEM 493 – Internship in Chemistry**

var-4-9cr

**Prerequisites:** CHEM 111 or 113, CHEM 112 or 114, and CHEM 231, 232, 321, 341, Junior status, and departmental approval

Full-time involvement in an actual “on-the-job” situation in an industrial or research laboratory under the tutelage of a selected preceptor. A department faculty member will work closely with the student and preceptor and will assume responsibility for making the final evaluation and assigning a grade.

### 2. Proposed Change: Add CHEM 111 and CHEM 112 as prerequisites.

#### **Old Catalog Description:**

#### **CHEM 493 – Internship in Chemistry**

var-4-9cr

**Prerequisites:** CHEM 113, 114, CHEM 231, 232, 321, 341 and departmental approval

Full-time involvement in an actual “on-the-job” situation in an industrial or research laboratory under the tutelage of a selected preceptor. A department faculty member will work closely with the student and preceptor and will assume responsibility for making the final evaluation and assigning a grade.

### 3. Justification/rationale for the change.

CHEM 111 and CHEM 112 are added as prerequisites, as these may have been taken by students who become Chemistry majors after their freshman year. Junior status is a course restriction that the Registrar’s Office has asked us to incorporate into the catalog description.

## Part III. Letters of Support or Acknowledgement
