Rationale for Proposal

<p>(Q) Why is this Course Being Proposed?*</p>	<p>In 2016, The American Speech-Language Hearing Association (ASHA) changed the certification standards for speech-language pathology clinical training that now allows for 75 out of 400 clinical contact hours to be acquired using simulation techniques. In 2018, the speech-language pathology program built a simulation lab with a manikin for task training in swallowing evaluations and tracheostomy care and assessment. This clinical practicum course will allow students to gain acute care training in swallowing disorders prior to their hospital internships and count the clinical hours toward their certification. The course hours and credits are consistent with the other clinical practicum courses in the program.</p>
<p>(R) University Senate Summary of Rationale</p>	<p><i>Please enter a single paragraph summary/rationale of changes or proposal for University Senate.</i></p> <p>In 2016, The American Speech-Language Hearing Association (ASHA) changed the certification standards for speech-language pathology clinical training that now allows for 75 out of 400 clinical contact hours to be acquired using simulation techniques.
