FDNT 151 Foods Laboratory-CrsRvs-2018-10-07

• The workflow icon is no longer available. Please click on the Page Status after the orange circle icon near the page title. *

Form Information

The page you originally access is the global template version. To access the template document that progresses through the workflow, please complete the following steps:

First Step: ONLY change the text in the [brackets] so it looks like this: CRIM 101 Intro to Criminology-CrsRvs-2015-08-10

• If DUAL LISTED list BOTH courses in the page title

Second Step: Click "SAVE" on bottom right

- DO NOT TYPE ANYTHING INTO THE FIRST PAGE OTHER THAN THE TEXT IN BRACKETS
- Please be sure to remove the Brackets while renaming the page

Third Step: Make sure the word **DRAFT** is in yellow at the top of the proposal

Fourth Step: Click on "EDIT CONTENTS." (NOt EDIT) and start completing the template. When exiting or when done, click "SAVE" (NO t Save Draft) on bottom right

When ready to submit click on the workflow icon and hit approve. It will then move to the chair as the next step in the workflow.

Rationale for Proposed Changes (All Categories)

(A) Why is the course being revised /deleted:*

The prerequisites and course description for FDNT 151, Foods Laboratory are being changed because the Nutrition Track, Liberal Studies Natural Science courses have been changed so that students can choose between Biology and Chemistry. Either choice provides an adequate background to succeed in this track.

Please be specific this should be have more detail than the Summary for the Senate. The revised Nutrition Track includes BIOL 104 and 106 as options to CHEM 101 and 102 so that the requirements of the Nutrition Track are the same as the nutrition minor, which accepts BIOL 104 and 106 or CHEM 101 and 102. Currently only chemistry is a prerequisite for FDNT 151.

The prerequisite for FDNT 151, Foods Laboratory, includes only BIOL 104 and not BIOL 106. Knowledge about Human Genetics and Health is not essential for success in completing FDNT 151, Foods Laboratory. Further, Nutrition Track students would typically take FDNT 151, Foods Laboratory (and FDNT 150, Foods) in their second semester, after having only BIOL 104.

Food and nutrition faculty assessed that students with a prerequisite of BIOL 104 who take FDNT 151 perform as well as those with chemistry and recommend the addition of BIOL 104 as a prerequisite for FDNT 151. Food and Nutrition faculty recommend adding BIOL 104: How the Body Works, as a prerequisite to FDNT 151, Foods Laboratory.

In addition, FDNT 151, Foods Laboratory is proposed to be taken concurrently with FDNT 150, Foods so that lab and lecture coordinated in the same semester. The corequisite restriction is needed so that students are required to schedule both classes in the same semester.

Finally, due to food costs, enrollment in FDNT 151, Foods Laboratory is restricted to students whose major requires it.

The course description has been slightly modified to conform to the current catalog editing style.

(B) University Senate Summary of Rationale*

Please enter a single paragraph summary/rationale of changes or proposal for University Senate.

The prerequisties and course description for FDNT 151, Foods Laboratory is being changed for three reasons: (1) Prerequisites for FDNT 151 must now include Biology 104, Human Biology: How the Body Works. This change is necessary because the Nutrition Track has been revised to include BIOL 104, Human Biology: How the Body Works and students in the Nutrition Track are required to take FDNT 151, Foods Laboratory, (2) FDNT 151, Foods Laboratory will be taken during the same semester as FDNT 150, Foods so that the lecture and laboratory are complementary, and (3) due to food costs, enrollment in FDNT 151, Foods Laboratory is restricted to students whose major requires it.

(C) Implications of the change on the program, other

Requiring students to take FDNT 151, Foods Laboratory and FDNT 151, Foods concurrently affects class scheduling and requires communication to Food and Nutrition and Family and Consumer Science Education majors and their academic advisers. Food and Nutrition faculty approve of this change and a meeting with Dr. Kalini Palmer, Coordinator of the Family and Consumer Science Education program, has already occurred.
