Part II. Description of Curriculum Change

1. Catalog Description

GEOS 402 Northern Rockies Field Workshop (var-3cr)

Prerequisite: GEOS 401; instructor permission required

A field study of the major geologic features and relationships involved in the development of the northern Rocky Mountains. National Park and Monument areas of South Dakota, Wyoming and Montana are included among the areas investigated. (Three weeks, taught in the summer only).

2. Proposed Changes

Old Catalog Description:

GEOS 336 Geology of Northern Rockies (var-3cr)

Prerequisite: Instructor permission required, at least 14cr of Geoscience courses recommended

A field study of the major geologic features and relationships involved in the development of the northern Rocky Mountains. National Park and Monument areas of South Dakota, Wyoming and Montana are included among the areas investigated. (Three weeks, taught in the summer only).

Proposed changes include a) a change in course number, b) elimination of the requirement that a student have completed 14 credits of Geoscience coursework, and c) addition of GEOS 401 as a prerequisite

3. Justification/Rationale for Proposed Changes

a) The change in course number is proposed to be consistent with the Geoscience Department's new course numbering system.

b) and c) Fourteen credits of Geoscience courses were only ever recommended with the final decision as to whether a student could take the course being left up to the instructor. As one goal of the Geoscience Department's proposed program revisions is to make these field courses more accessible to students earlier in their IUP careers, we are removing this recommendation. To prepare students for the field course we are adding as a prerequisite a one-credit pre-trip seminar (GEOS 401; see attached New Course Proposal). This seminar will introduce the regional geology of the field area, discuss controversies in the interpretation of the region's geologic history, and develop the skills necessary to successfully complete the field exercises conducted on the trip.

Part III. Letters of Support or Acknowledgement

No other departments or programs are affected by this change.
