Program Revision Template

Steps to the approval process:

1. Complete the applicable template(s) and email them to the departmental or program curriculum committee chair.
2. The curriculum chair emails the proposal to the curriculum committee, then to the department/program faculty for a vote and finally to the department/program chair.
3. The department/program chair emails the proposal to curriculum-approval@iup.edu; this email will also serve as an electronic signature.
4. Curriculum committee staff will log the proposal, forward it to the appropriate dean's office(s) for review within 14 days and post it on the X Drive for review by all IUP faculty and administrators. Following the dean's review the proposal goes to the UWUCC/UWGC and the Senate.
5. Questions? Email curriculum-approval@iup.edu.

Current Narrative Catalog Description	This program prepares students to use a variety of skills to function in a management capacity within the sport industry. Graduates of this program can seek employment in such areas as school and college athletic departments, coaching, community recreation organizations, minor and major league sports franchises, commercial sport facilities, and golf courses, as well as other athletic and sports-related industries. Students acquire management skills that can be used in multiple career tracks. Successful completion of this program will also earn the student a minor in business from IUP's Eberly College of Business and Information Technology.	Proposed Narrative Catalog Description <i>(if changing)</i>	This program prepares students to use a variety of skills to function in a management capacity within the sport industry. Graduates of this program can seek employment in such areas as school and college athletic departments, coaching, community recreation organizations, minor and major league sports franchises, commercial sport facilities, and golf courses, as well as other athletic and sports-related industries. Rationale for Proposed Changes			
<p>Why is the program being revised?</p>	<p>This revision will allow students to enroll in minors other than business. The sport industry has broad spectrum of specialty areas. This revision will allow student to select a minor that will help them better meet their professional goals in these specialty areas. All students will be strongly encouraged to pursue a minor..</p>		

Template G

<p>Identify the Program Student Learning Outcomes (SLO). Mark any SLOs that are changing as a part of the Program Revision.</p>	<p>Student Learning Outcomes for the Sport Administration Program follow the standards set forth by The Commission on Sport Management Accreditation (COSMA).</p> <ol style="list-style-type: none"> 1. Students will be able to demonstrate management principles as they relate to sport operations, as well as event and venue management. 2. Students will be able to apply principles of marketing, economics, finance, law and accounting in the context of sport. 3. Students will be able to recognize the role of sport and sport management in social, psychological, and international issues. 4. Students will be able to assess and analyze ethical issues in sport and sport leadership. 5. Students will participate in an integrative sport management experience, which will enable them to demonstrate the capacity to synthesize and apply knowledge. <p>This revision will not change any of the learning outcomes.</p>
<p>Implication of the Change on:</p> <ul style="list-style-type: none"> - Program - Other programs - Current Students 	<p>These changes will have little impact on the program's ability meeting SLO set forth by COSMA. Most changes, in regards to courses, fall outside of the department, and therefore will have minimal impact on faculty complement within the program. HPED 135 is a new 1 credit course that is replacing the 3 credit course HPED 142. Moving HPED 135 into the curriculum will allow the department to accommodate a greater number of students with the same faculty complement. HPED 225 has already been approved and is being taught by the department. It has also been approved for distance education. It is the programs hope that with the addition of 14 free elective credits students will be able to tailor their education to meet their educational and career goals. Through advising, students will be strongly encouraged to obtain a minor that meets their career objects either in business, accounting, marketing, economics, communications media or hospitality management.</p> <p>The sport administration program has contacted and has the support of the communications media and hospitality management programs to include courses from those disciplines in controlled electives. Courses from other departments not listed were a part of the prior curriculum. The business school has been made aware that we will no longer require the business minor as part of the major.</p> <p>Current students will be able to continue their education following the curriculum in which they originally entered.</p>
