E. Revised Course

ED 453 Teaching of Foreign Language in 3c-0l-3sh
the Elementary/Secondary Schools

Prerequisites: Successful completion of 351-352 and 321-322 in the student's major language; passage of a language proficiency examination and permission of the instructor.

Nick Kolb
P-EB

Ernest Glisan

The student will study current theories of language acquisition and methods of language teaching for the elementary and secondary school. Through hands-on practice and peer teaching demonstrations, the student will develop techniques for teaching functional language, planning lessons, setting curricular objectives, testing language skills, and selecting/adapting materials for both elementary and secondary school classrooms. (Course taught fall semester only.)

F. Revised Programs

1. Department of Consumer Services

The following adjustments in Consumer Affairs, Fashion Merchandising, and Interior Design/Housing reflect a deletion of courses that comprised the former College of Human Ecology requirements and a substitution of courses that better meet the objectives of each major.
