

## **Indiana University of Pennsylvania FY2021-22 Comprehensive Planning Process Budget Narrative**

As part of System Redesign and as outlined in the memo received from the Office of the Chancellor on August 3, 2021, the State System has created a comprehensive, strategic planning tool set that aligns multiyear System and university goals, net price strategies, budgets, and academic planning. These efforts have been integrated into the Comprehensive Planning Process, which is a three-year plan (FY2021-22 through FY2023-24).

The following motion will be presented for approval at the public meeting.

### **FY2021-22 Comprehensive Planning Process Budget**

The committee reviewed the FY2021-22 Comprehensive Planning Process Budget, which was submitted to the System on September 13, 2021.

The following motion is recommended for approval:

**THAT THE FY2021-22 COMPREHENSIVE PLANNING  
PROCESS BUDGET THAT WAS SUBMITTED TO THE  
SYSTEM ON SEPTEMBER 13, 2021, BE APPROVED.**

**Comprehensive Planning Narrative  
Indiana University of Pennsylvania**

**As submitted  
September 10, 2021  
Updated October 6, 2021**

**Reports should be no more than 15 pages.**

## Executive Summary

Provide a brief (one page) narrative of the university's plan, based on the projected enrollment, revenue, and expenditure information provided in the completed templates. Consider copying and pasting from Sustainability Plan Version 2 narrative, then update as appropriate.

### Executive Summary:

Indiana University of Pennsylvania (IUP) is an important economic engine for Western Pennsylvania with an economic impact of \$564 million according to a recent state system economic impact report. The planned multi-pronged approach described in the following narrative addresses declining student enrollments and revenues and sets IUP on a path to greater stability and financial sustainability. In January 2020, IUP first submitted a five-year financial sustainability plan that was based on realistic enrollment projections and reductions in expenses through employee attrition and other operating expense reductions to ensure we met full financial stability in the five-year period. This was considered an achievable plan for IUP unless there were unforeseen circumstances that would arise to dramatically change the enrollment projections. That unforeseen circumstance took place with the coronavirus pandemic. IUP's enrollment was projected to decline further than was expected in January. In June 2020, IUP submitted two Financial Sustainability Plans: 1) Version 2a which is based on enrollment declines of 4.5% more than projected in V1 (totaling an 8.2% decline from Fall 2019) and 2) Version 2b which is based on enrollment declines of an additional 10 percentage point decline compared to Version 2a, which was a required assumption per the Chancellor's instructions. Version 2b assumed a 14.5% decline in enrollment for Fall 2020 compared to V1 and is a 17.8% decline from Fall 2019. Given further projected enrollment declines and the need to demonstrate financial sustainability within two years rather than five, IUP knew it would have to exert extra effort to meet this timeframe.

In the CPP (V3) submitted in September 2020, we had already taken steps to address our financial sustainability and had made progress. In this version, we had large workforce reduction targets and other budget reduction strategies set for balancing our budget and meeting the various financial metrics and other ratios. In submitting the CPP in September 2020, we reviewed the enrollment projections that were used in the June 2020 Financial Sustainability Plan 2a and determined that they were still reasonable projections. We kept the same enrollment projections in the September CPP (V3). After the September CPP (V3), a revised projection was made based on early trends for Fall 2021 enrollment. This February projection decreased the number of transfer students and increased retention and persistence for continuing students. This projection proved overly optimistic and further reductions in projections were made throughout summer 2021 and in the projections in this submission. In February of 2021, the IUP Mid-Year Progress Report was submitted which demonstrated significant progress being made towards our financial and workforce targets. We have continued to implement our strategies, which has been quite painful for the university, but we knew that it was necessary to become financially sustainable and to be able to have funding for strategic initiatives and future viability.

This version of the CPP, which IUP calls V8, being submitted on September 13, 2021 demonstrates two things: 1) that we are closer to the finish line than anyone thought we would be, and 2) that we still have another push to get over that finish line. We know we still have more work to do and are prepared to do it.

IUP understands that it will take strength, commitment, and mindful leadership to work through all the implications of the CPP to be sustainable. As a result, IUP will be better and stronger. Data and projections shown in the CPP are conservative and based on analyses in which there is a high level of confidence (no *deus ex machina* assumptions). That said, IUP has launched a number of initiatives that target key drivers of sustainability, of which several important ones are works in progress with expectations that they will be implemented. IUP's financial position will be significantly improved as a result.

IUP has developed three Strategic Goals as part of this CPP that link to the new IUP Strategic Plan: 1) Be a Student-centered university; 2) Embrace the identity and value of IUP as a doctoral research university; and 3) Change IUP's culture to embrace and promote diversity, equity, and inclusion. Using the Strategic Goals as a guidepost, IUP's strategic approach to financial sustainability combines: a) enrollment management and marketing/branding strategies to market the university, b) determining the best mix of academic programs to meet student demand and anticipate workforce needs and emerging potential programs, c) identifying the right balance of tuition discounting, institutional aid, and scholarships to meet our various students' needs, and to reduce the total cost of attendance for students, d) expense reductions primarily in the numbers of employees in all categories through attrition, workforce reductions, and thoughtful planning when essential hires are necessary.

Developing tactics within these strategies is a work in progress and is proceeding in close partnership with our collective bargaining units and other constituency groups. We have and will continue to simplify and flatten the organizational structure by eliminating layers and making it more responsive and nimble. We are continuing to explore merging administrative departments and sharing resources and staff. We are eliminating silos to work better and more effectively across units, departments, divisions, and colleges and encouraging collaboration. IUP is reviewing our processes to make

them more efficient and student friendly. We will be considering what we need to continue to do, what we need to stop doing, and what we need to start doing. Everything is on the table and all topics and items are up for discussion and will continue to be analyzed and evaluated. This includes areas that, perhaps, in the past, would never have been discussed. We are expanding opportunities for new revenue generation. There are strategic opportunities for IUP and targeted areas in which we can grow, such as research and grants. But there are other opportunities for growth, as well. IUP needs to be creative and explore big ideas with the goal of looking to the future.

This is the time for us to reinvent IUP. For IUP to not only survive but to thrive, we know we need to continue to work together across all levels and groups to address IUP's financial sustainability and build upon the good work that has been done so far. We have been at this a long time and the pandemic presented unprecedented challenges that all of IUP pivoted swiftly to overcome. We have had thoughtful discussions with many constituency groups including our Strategic Enrollment Planning Committee, University Planning Council, University Budget Advisory Council, Council of Trustees, NextGen Taskforce, the deans, and many more. Hundreds of IUP faculty and staff were involved in all of these efforts and we will continue to engage our stakeholders. To this end, IUP's submitted plan has and will continue to be discussed with all of the constituent groups that should be consulted including the various IUP committees, councils, and bargaining units. IUP has had interactive discussions beginning with both preliminary budget and financial information with the constituent groups during the Fall and Spring Semesters in FY 2019-20 and FY 2020-21, and continued these discussions through summer 2021 and this new academic year 2021-2022.

**IUP's Strategic Plan** for 2020-25 is designed to transform the culture at IUP to enhance the student experience by fostering exceptional student-centeredness. There are seven core principles in the strategic plan: 1) Every student is a priority; 2) Promote the search for, production of, and dissemination of knowledge for the benefit of our students and society.; 3) Provide a wide range of intellectual and professional opportunities for students that will assist them in developing their potential for becoming productive and responsible citizens; 4) Construct an environment of respect that encourages the growth of diversity, equity, and inclusion; 5) Respond to students and their needs when and where they are to enhance student satisfaction; 6) Design and reengineer processes and procedures logically to improve ease of use for students; and 7) Improve communication, collaboration, and engagement across the university, and with our alumni and community partners.

There are also five impact areas: 1) IUP Readiness; 2) Academic Success; 3) Finding and Creating Community; 4) Mental Health and Wellbeing; and 5) Post-IUP Success.

**The President's 2021-2022 goals** are linked to the strategic plan with the following focus areas: 1) Student centeredness and student success; 2) Growth of diverse, equitable, and inclusive community; 3) Research and graduate programs; 4) Communication, collaboration, and engagement; and 5) Sustainability. Each of these goals are interrelated. Activity and progress in one area will lead to progress in other areas. Below are details for each focus area, their respective leading indicators and actions, and the long-term impacts.

- 1) **Student Centeredness and student success'** leading indicators and actions: increase UG retention/persistence from Fall 2021 to Spring 2022, increase UG retention/persistence from Fall 2021 to Fall 2022, increase percent of UG students completing 30 credits per year, increase GR student success rate, and average net cost of attendance flat or decrease with long-term impacts of increased number of students completing degrees/credentials, decreased cost to degree, and increased enrollment.
- 2) **Growth of diverse, equitable, and inclusive community** leading indicators and actions: For marginalized students, reduce goal 1 leading indicators gap, continue and enhance support programs for black and brown students, revise general education (UG) and GR curriculum for better DEI content, add employee development for DEI, and focused on learning objectives with long-term impacts of increased number of underrepresented students completing degrees/credentials, students better prepared to lead for diverse, equitable, inclusive world, and employees better prepared welcome and support a diverse student population.
- 3) **Research and graduate programs** leading indicators and actions: achieve R2: High Research Carnegie Classification, increase number of large, multi-PI proposal submissions, implement common procedures to increase ROI in graduate student support, and implement common procedures for faculty support to increase ROI with long-term impacts of increase in funded research and efficiency in administering and better ROI for graduate student support.
- 4) **Communication, collaboration, and engagement** leading indicators and actions: Enhance processes that engage internal community in change management (Strategic Plan, NextGen, NextSen, SEP, Campaign planning, streamlining curricula, financial and operational management, etc.), more employee development – supporting new roles, organization, consistent business processes, increase engagement by external stakeholders, and increase reputation in key markets with long-term impacts of post-pandemic, post-retrenchment/furlough

understanding of *new normal* and real engagement in building IUP's future (internal and external stakeholder) and IUP brand re-established.

- 5) **Sustainability** leading indicators and actions: Reduce use of one-time funds for budget balancing, further reduce workforce primarily through attrition, achieve or exceed enrollment targets, simplify and regularize operational practices and provide more training, and develop and apply shared procedures for investing in academic, research, support programs for ROI with long-term impacts of progress on sustainability indicators, better financial position and a base for future success of IUP.

## Part 1: Strategy Narrative

Complete one page for each of the university's top 2-3 strategies that are moving the university toward achieving their mission and strategic plan within the context of financial sustainability and student success. Copy this page, as needed, to complete for each of the top strategies.

### Identifying strategic goals within major strategy categories

<b>Strategy Categories (Check all that apply):</b>	X	Student Success	X	Financial Sustainability
	X	Affordability	X	Academic Program Array
	X	Diversity/Equity/Inclusion		Other
<b>Strategic Goal:</b>	<b>Be a student-centered university.</b>			
<b>Strategic Goal(s) description and populations impacted:</b>				
The 2020-2025 university strategic plan provides a framework for a culture to enhance the student experience by fostering exceptional student centeredness. To accomplish this task, it will take flexibility to re-order resources, reduce expenses, and provide support to the five major impact areas including IUP-Readiness, Academic Success, Finding and Creating Community, Mental Health and Well Being, and Post-IUP Success. The Strategic Enrollment Plan dovetails and can be used as a tool to assist in recruitment and retention/persistence of our students and help ensure an affordable cost of attendance and aid optimization plan. The development of new programming will also play a key part in the future of IUP.				
<b>Anticipated student success, DEI, or financial sustainability outcomes:</b>				
Fostering student centeredness will enhance retention/persistence, increase credit completion ratios, and increase graduation rates. It provides opportunity for reputation, brand awareness to enhanced recruitment and funding opportunities for IUP. The Strategic Enrollment Plan provides assessment of the cost of attendance, strategies for scholarships and aid optimization for all students, and student success initiatives to be implemented.				
<b>Strategy funding and resources:</b>				
The Cabinet along with the University Budget Advisory Council will continue to review university revenues and expenses to ensure funding of university priorities. The NextGen academic restructuring, which became effective on July 1, 2021, is the first step in redefining IUP's academic program array to focus on areas of significant student and employer demand, and on overall university sustainability. The Strategic Enrollment Plan will identify the return on investment of enrollment initiatives.				
<b>Multi-campus and Systemwide implications, if applicable:</b>				
The Cabinet along with the University Budget Advisory Council will continue to review university revenues and expenses to ensure funding of university priorities. The Strategic Enrollment Plan will identify the return on investment of enrollment initiatives.

### Identifying strategic goals within major strategy categories

<b>Strategy Categories (Check all that apply):</b>	X	Student Success	X	Financial Sustainability
	X	Affordability	X	Academic Program Array
	X	Diversity/Inclusion		Other
<b>Strategic Goal: 2</b>	Embrace the identity and value of IUP as a doctoral research university			
<b>Strategic Goal(s) description and populations impacted:</b>				
<p>IUP will continue to review and expand programs offerings particularly in the masters/doctoral realm to increase visibility in the market and grow enrollments strategically. The academic programs provide enriching degree offerings for a value more than the cost of education. Research and scholarship are a foundational part of IUP's culture. We provide our students with opportunities at the undergraduate, certificate, masters, and doctoral level. Grants and sponsored project funding from federal, state, local, foundation, and corporate partners provide vast opportunities for IUP faculty, staff, and students.</p> <p>The identity and reputation of a doctoral university provides increased awareness for prospective enrollments, stronger engagements with alumni/donors, corporate partners, and federal, state, and local funding agencies, and impactful collaborations with other institutions of higher education and research institutes.</p> <p>Key populations are current students, students looking for bachelors, masters, certificate, and doctoral programming, corporate and foundation partners, alumni and community partners, and research partners around the world.</p>				
<b>Anticipated student success or Financial Sustainability outcomes:</b>				
<p>Outcomes from this goal will help to increase degrees awarded. Research experiences and high-quality instruction provide transformational learning experiences and pave the way for post-IUP opportunities for our students. Outcomes also included the ability to obtain external sponsored project funding to support the work of our faculty, staff, students, and the institution. IUP has developed a university-specific metric related to research and doctoral degrees awarded.</p>				
<b>Strategy funding and resources:</b>				
<p>IUP NextGen Plan is a data-driven restructuring of IUP academic colleges and programs along with the creation of academic areas of focus, to create a sustainable and more student-centered university.</p> <p>The Cabinet along with the University Budget Advisory Council will continue to review revenues and expenditures to ensure funding of university priorities.</p> <p>The State System appropriation allocation formula includes a portion for the doctoral research component and IUP invests significant additional resources above and beyond that. It is recognized that the State System will be revising the appropriation allocation formula.</p>				
<b>Multi-campus and Systemwide implications, if applicable:</b>				
<p>This goal supports IUP's legislated niche as a doctoral university. It further supports IUP's role in providing expertise in sponsored research administration to multiple western PASSHE institutions.</p>				

## Part 1: Strategy Narrative

### Identifying strategic goals within major strategy categories

<b>Strategy Categories (Check all that apply):</b>	X	Student Success		Financial Sustainability
		Affordability		Academic Program Array
	X	Diversity/Inclusion		Other
<b>Strategic Goal: 3</b>	Change IUP's culture to embrace and promote diversity, equity, and inclusion.			
<b>Strategic Goal(s) description and populations impacted:</b>				
<p>In line with the university strategic plan, the university is in the process of developing a DEI strategic plan specifically related to the Office of Social Equity and Title IX. (OSE). This plan incorporates all divisions of the institution along with the student groups and organizations on campus. All students, faculty, staff, and community are impacted with this plan.</p> <p>It is our goal to be a community where students and employees can learn, grow, work, and succeed in an environment that respects each person's dignity, promotes, and fosters a diverse, inclusive, and equitable community life, and supports the success of its members to achieve their goals. Each member of the community can contribute to the mission. In terms of institutional responsibility, IUP has defined avenues for reporting and responding to problems and works to resolve those issues and problems so that students can achieve their educational goals. IUP will refine the processes and resolution options. IUP will work to bring programming to support the messages that move us forward, and education and training to equip us all with the tools to contribute to positive change.</p> <p>Some specific goals include: developing new methods for confronting and disciplining racist behavior, improving academic and social supports for marginalized students, reviewing and updating curricula, policies and programs, implementing training and education regarding DE&amp;I for all students and employees, enriching cultural competency in the IUP community to enhance our students' marketability and improve communities beyond IUP, improving communication about the good work that students and employees accomplish regularly, working with alumni to provide professional role-modeling and career opportunities, and developing clear strategies for recruiting and retaining students and employees of color as well as from other marginalized groups.</p> <p>OSE currently provides a weekly digest for employees to make all aware of opportunities for engagement as does SA for students. OSE's newsletter and social media highlight accomplishments, activities, and events with SA doing the same for students. We are revitalizing a webpage to provide information and interactive participation around DEI issues.</p>				
<b>Anticipated student success or Financial Sustainability outcomes:</b>				
<p>We hope to foster a campus environment that promotes diversity, equity, and inclusion and values individual differences. The expected outcome would be an increased awareness and acceptance of diversity on campus. An increase in awareness and acceptance that will result in increased persistence of both students and employees.</p>				
<b>Strategy funding and resources:</b>				
<p>Funding has been identified as part of the E&amp;G budget for programming efforts on campus. Support for scholarships has been identified within the university and the Foundation for IUP. IUP also received a 350,000 anonymous donation to support this work. The Cabinet along with the University Budget Advisory Council will continue to review revenues and expenditures to ensure funding of university priorities.</p>				
<b>Multi-campus and Systemwide implications, if applicable:</b>				
<p>The strategic plan is inclusive of all regional campuses and sites. The Chief Diversity and Inclusion Officer works with her counterparts at other system universities and the system Chief D&amp;I Officer on shared polities and compliance obligations, recruitment and retention initiatives and response protocols to discrimination and bias incidents and issues.</p>				

## Part 2: Enrollment Projections Used for Revenue Assumptions

Provide a brief description of the university's realistic enrollment projections, including:

1. Rationale for the projections and what the university is doing to achieve those projections (new academic programs, fees, etc.). Include only approved academic programs.
2. Explanation of any specific new revenue associated with those projections (new programs, pricing or fees (both E&G and Auxiliary).
3. Anticipated impact of the COVID-19 pandemic and the university's associated mitigation strategies on enrollment.

### Rationale for enrollment trends and projections:

Since 2018-19 annualized FTE enrollment has declined by 22%. Annualized FTE was 10,429 in FY2018-19, current projections for FY2021-22 are 8,262. A corresponding decline in credit hours has also occurred.

	Actuals			Projection		
	FY2018-19	FY2019-20	FY2020-21	FY2021-22 (Sept. 2021)	Change from 18-19 to 21-22 Projection	% Change
<b>Annualized FTE Enrollment</b>	10,429	9,416	8,896	8,262	(2,167)	-20.78%
<b>Credit Hours</b>	293,438	264,954	248,088	228,639	(64,799)	-22.08%

**Financial Aid and Scholarships:** In fall 2020, IUP partnered with Ruffalo Noel Levitz (RNL) and deployed new scholarship strategies and adjusted institutional aid to provide more financial support to students. Through the continued success of the Imagine Unlimited Comprehensive Campaign, along with an increase in the allocation of institutional (E&G) support by the university, we provided more scholarship dollars than ever before. The results for fall 2020 were promising; we had an increase in yield from admit to enrolled of more than +2.4 percentage points for new freshmen over this same point in time from the prior year. Additionally, the fall 2020 freshman on the Indiana campus have an average high school GPA of 3.41 compared to an average high school GPA of 3.31 for our fall 2019 freshman at the same point in time in the prior year. This increase also indicated that we would likely to see an overall increase in retention and persistence into fall 2021 for the new freshman cohort. Since we did not change the scholarship awarding strategy, it was anticipated that we would see at least the same yield from admit to enroll for fall 2021 when projections were initially created. It was also anticipated that the increase in academic profile, along with the very strong fall 2020 to spring 2021 freshman retention rate, that our fall 2020 to fall 2021 retention rate would be stronger than in prior years as well. That retention increase did not occur as anticipated.

Transfer students responded quite well to our scholarship and financial aid offers and we have an increase in our yield from admit to enroll of 6.71 percentage points. The focus for fall 2021 is to build the applicant pool for our transfer students, as it declined in fall 2021 from fall 2020, and to continue awarding competitive scholarships to transfer students.

To reverse the yield and retention rates that we realized for the fall 2020 incoming class, we have made the decision to increase our scholarship support to students even further for the fall 2021 incoming class. This decision was made in conjunction, again, with our partner RNL, who anticipates an increase in yield, even without an increase in the application base, that will result in a larger freshman class for fall 2021.

In total, more than \$6.7 million in E & G funding has been directed to scholarships for FY2020-21. The scholarship support allocated for FY2021-22 is over \$16.3 million, FY2022-23 the amount is over \$19 million, and over \$19 million in FY2023-24. The increases are necessary as more students who were awarded renewable scholarships as freshmen, move towards graduation. In addition to this undergraduate scholarship initiative, over \$5M has been allocated for graduate assistantships and scholarships. With the success of the Imagine Unlimited Comprehensive Campaign, it would be expected that some of the existing costs borne by E&G will be offset by fund raising and resulting in further reducing E&G expenses in the future.

Phase 2 of the scholarship centralization has been implemented for fall 2021. The decision to centralize scholarships was made to enable the university to offer scholarship resources with a data-driven methodology at a level more conducive to increasing yield from offered to enrolled than if made in a decentralized fashion without a prescribed level of support or timing of offer. During this phase, colleges and departments will no longer be making the recommendations of awards in most cases, though we are collaborating with departments if they are interested in still being involved in the selection, but it is within the time frame most effective for awarding and the scholarship level is determined through analysis. This organizational change allows for a more data-driven awarding structure and making offers based on historical yields from offer to enrolled versus only awarding up to the amount available in a scholarship fund then making late awards when a student decides to not attend IUP.

**Continuing Undergraduate Students:** The percent of continuing students in fall 2019 that continued to the fall 2020 cycle increased in fall 2020 over prior years' average rate fairly significantly and our freshman retention rate to spring for the fall

2020 cohort also increased, indicating the expectation of a higher retention rate from fall to fall for these students. As the fall 2021 enrollment cycle continued into early summer, it became apparent that the increase for our continuing students as well as the retention rate of our fall 2020 cohort was not at the level that was anticipated by the prior years' rates nor the historical rates. As part of our Strategic Enrollment Plan, we are developing a student success model linked to our University College in a more centralized, intentional way. The center will be led by a director who will actively be involved in the coordination of retention/persistence activities. This includes an initiative in the SEP plan that is designed to close the retention and persistence gaps for our underrepresented students using peer mentoring and coordinated co-curricular activities. Progress in these strategies will be monitored and assessed for effectiveness. Additionally, we are implementing a registration team model as part of our University Wide Retention and Persistence Committee that will be championing the communication plans to students and faculty, providing reporting solutions to identify students who are not registered, monitoring retention and persistence by program throughout the registration period and providing that information to deans/assistant deans, coordinating outreach campaigns to students, and providing targeted assistance to those students who are not registered and who have financial holds on their accounts. Finally, our scholarship initiative that awards more strategic, renewable scholarship awards to students is expected to help with student affordability, thus lessening the numbers of students who may be prevented from registering due to a financial hold on their accounts. The intended outcome of these activities is to increase the retention and persistence of our students; therefore, future projections in the CPP are using a conservative increase each year for retention and persistence.

**Graduate Enrollment:** International student uncertainty from the COVID-19 pandemic continues to be reflected in this comprehensive plan, and we projected no new international student enrollment at any level, but most notably in the enrollment of graduate students at IUP. Graduate recruitment and enrollment are a significant focus during the implementation of the Strategic Enrollment Plan and includes new investments in new graduate student recruitment methodology as well as an emphasis on graduate student progress towards graduation. The graduate admissions staff will now include two counselors in addition to the graduate admissions director, who was the only professional staff member in the unit. These positions will serve to support the efforts of graduate coordinator faculty by utilizing current and effective "best practice" recruitment strategies to increase the number of inquiries and prospective students (i.e. building the "top end of the funnel"), provide additional personalized outreach to students in the admission pipeline, and work with Marketing and Communications to build effective marketing campaigns, including print, digital, social media, and traditional television exposure. The intention is to improve yield rates from application to decision, admitted to confirmed, and confirmed to enrolled with a larger pool of inquiries and prospects. Providing this additional staff support will also create capacity for outreach and assistance to current graduate students to enhance persistence to graduation. Additionally, the graduate admissions office has worked directly with the School of Graduate Studies and Research to determine the most effective use of graduate assistantships and scholarships to improve the yield from admitted to enrolled and creating a method of ensuring that all available funding to support this effort is fully utilized.

**Clock Hour Programs:** IUP is among the few institutions in PASSHE to offer programs on a clock-hour basis, including our Academy of Culinary Arts, Criminal Justice Training Program, Paramedic Program, Emergency Medical Technician (EMT) training, and School Security Personnel (SSP) Basic Training Program. As a result of the addition of paramedic, EMT, and school security personnel training, the headcount of students in clock hour programs have increased in FY2020-2021 and are anticipated to, at minimum, stay stable for the next three years.

**Re-Enrolled Students:** Efforts are being employed to re-enroll students who entered IUP but were not able to complete their studies due to life circumstances such as financial barriers, family commitments, uncertainty of career choice, military deployment, and various other reasons. We are encouraging students to return and complete their degrees at IUP in a more systematic and centralized manner. In support of this effort, a staff member in Enrollment Management has been assigned as the university lead in these efforts, coordinating the needs of students who would like to return to IUP with the resources needed to accomplish this goal. Focusing our work in this area will be a positive move towards continued enrollment success. With our own outreach activities, coupled with those of the consulting firm ReUp, we are not only re-enrolling students who have left the university but, perhaps as importantly, learning what students may need in order to re-enroll, such as access to more online courses or a wider variety of online programs, access to certificates versus a degree, or job training courses to help them move through their current fields of employment. To date this new structure resulted in approximately 40% more re-enrolled students for fall 2020 than what was projected based on the recent decline we had been seeing with this population of students. The fall 2021 enrollment for this group exceeded projections in the CPP and it is anticipated to be fairly consistent over the next three years; however, Enrollment Management is collaborating with Academic Affairs to determine which programs students could potentially re-enroll in and complete their degrees completely online. Successfully identifying more options for students should result in increased re-enrollment in the future. This strategy will be carefully vetted during this academic year.

**Dual Enrollment:** High school juniors (including rising juniors) or seniors with a 3.0 cumulative high school GPA, may apply for dual enrollment at IUP. Some school districts have their own additional requirements for students. Exceptions have been granted for qualified students who are in lower grade levels. A first-time applicant must have the recommendation of their school counselor. Dual enrolled students may select online or on-campus courses at the Indiana, Punxsutawney, or Northpointe campuses. Historically, only students who attend a high school within a school district that has an active dual enrollment agreement would receive a 75% tuition discount.

An average of 60 high school students have taken advantage of dual enrollment courses over the past three fall semesters and an average of 140 students have taken courses in either the fall, spring, winter, or summer semesters. Over the past three years, an average of 48% of students who are admitted to IUP who have previously been enrolled in dual enrollment courses at IUP have matriculated as new freshmen.

Projections for the comprehensive plan do include a conservative enrollment figure for dual enrollment students and fall 2021 enrollment of dual enrollment students exceeded CPP projections; however, our Strategic Enrollment Plan identified and proposed the removal of potential barriers for students interested in taking advantage of this program, such as the need for a school district agreement in order to receive a discounted tuition rate, to further increase this population. For fall 2021, we have implemented the ability for any high school student to receive this tuition discount if they enroll for courses at IUP. Additionally, we are creating intentional pathways for dual enrollment students to enroll for courses at IUP with an area high school and a community-based organization in the eastern part of Pennsylvania.

**FTE Enrollment**

## Explanation of any new specific revenue:

**University Advancement:** University Advancement’s multi-pronged strategic plan to raise private funds has been impressive in its execution of the Imagine Unlimited Comprehensive Campaign, which completed six months early and \$6 million above its \$75 million goal at \$81.36 million and in growing a positive relationship with the University’s two affiliates: The Foundation for IUP and the IUP Alumni Association. These efforts have led to an increase in the FIUP endowment. The upward trajectory of engagement with external partners, be it alumni, friends, corporate and foundations, and the expanded initiatives with government and community have demonstrated an increase in engagement and funds committed from those sectors. Planned Giving has continued to increase (see second chart with increase in \$ raised in FY 2021), proving a strong level of confidence among IUP alumni in the future of their alma mater. A major highlight of the comparative charts below is FIUP financial assets went from \$30.6 million to \$73 million in the period from 2015-2021. Currently, IUP and University Advancement are in the midst of the needs assessment for the next comprehensive campaign to launch in our 150<sup>th</sup> Anniversary in 2025, with an integrated collaborative action plan with all university partners. It is based on the University Strategic Plan, the Strategic Enrollment Plan, NextGen Academic Planning, Branding, and the Facilities Master Plan.

### Private Funds Raised (Outright Gifts Only)

	FY2015	FY2016	FY2017	FY2018	FY2019	FY2020	FY2021	FY2022	FY2023	FY2024
Indiana	\$5,602,020	\$5,419,190	\$4,187,535	\$8,086,621	\$6,013,577	\$5,236,318	\$4,801,041	\$ 4,777,036	\$ 4,920,347	\$5,363,178

Source: Voluntary Support on Education Survey

Based on a projection of a fluctuations of volatility of economy, new tax laws and in fundraising as a whole as well as in patterns of comprehensive campaigns, based on average of increases and decreases of the past six years. Projections for FY22 account for pandemic impact and extreme volatility of market where anticipated increased outright gifts will be offset by unforeseen impact.

Note that \$250,000+ single gifts have been discounted out of calculations of averages, as these gifts are extraordinary and are not in the norm.

FY 22 projection also takes into consideration vacancies of positions in the Development, Annual Giving and Advancement Services teams.

FY 23 projection will be the start of the quiet phase of the next comprehensive campaign for IUP.

### Total Funds Raised (Commitments)

FY2016	FY2017	FY2018	FY2019	FY2020	FY2021
\$5,808,230	\$5,206,032	\$14,628,414	\$29,726,919	\$11,051,261	\$14,470,886

### Summary of Foundation Funds:

\*FY2019-2020 Foundation Funds information will be available following the financial audit.

## Part 3: Financial Overview – E&G

Provide a brief description of the university's assumptions for the Educational and General (E&G) revenues and expenses. Consider copying and pasting from September 2020 CPP or February 2021 Sustainability Progress submission narrative, then update as appropriate.

### E&G Revenues:

Key revenue assumptions incorporated into the CPP (V8) document submitted on September 13, 2021 include a 1% rate increase in tuition and fees for 2022-23 and 2023-24. Appropriations remain somewhat level at \$56 million for all years of the plan with the implementation of the SERS savings adjustment.

Annual Fall FTE student enrollment in FY 2019-20 (excluding clockhours) was 8,678.9 and for the third year of the CPP(V8) is projected to be 7,406.79. Tuition and student fee revenues were calculated based on these projections and reflected in the CPP.

FY2021-22 Fall FTE enrollment is projected at 7,390.44. When IUP submitted the CPP V3 last September we were projecting 7,737.53, new projections are a 4.5% decline from last September. Projected credit hours are also lower than originally projected, which drives our revenue calculations by student category. These lower projections in combination with the updated tuition rate assumptions has lowered IUP's projected FY2021-22 tuition revenue from \$87.0 million to \$81.1 million.

Based on updated enrollment projections for FY2021-22, the two outer years of this CPP also show a decrease in enrollment projections from what was projected last September and therefore a decline in revenue.

*Note: pending further review and discussions between IUP's Institutional Research and PASSHE, it was determined an adjustment to our reported FY2019-20 annualized FTE was necessary. This changed the FTE reported in September 2020 of 9,421 to 9,416. This change has been reflected in our new submission.*

Beginning in 2022-23, IUP plans to eliminate the 20% tuition discount for IUP Northpointe and IUP Punxsutawney, pending Board of Governors approval in April 2022.

E & G revenues were \$200,559,258 in 2019-20 and are projected to drop in year 3 of the CPP, 2023-24 to \$181,749,941. This is due to the decline in projected credit hours and also due to the increased revenue in 2019-20 and 2020-21 because of the one-time CARES act funds received in those prior years. FY2021-22 revenue projections include \$14.6 million in one-time HEERF III and SIP funding, which was claimed as lost revenue. This revenue is offset within expenditure categories.

Additional revenue resulting from the clock hour programs, specifically the Culinary Academy is anticipated in FY2021-22 and beyond.

### E&G Expenses:

IUP has implemented multiple strategies to address the fact that our expenses are exceeding our revenues. The primary strategy was scrutinizing all vacancies and reduction to our workforce which included not filling vacancies and eliminating non-faculty positions, revising positions and position descriptions based on function, organizational structure changes, program reductions, furloughs, and retrenchment of faculty.

**Workforce Reduction:** When comparing annualized faculty and non-faculty FTE as of June 30, 2019 to projected FY2021-22 annualized FTE, faculty workforce has decreased by 29% and non-faculty workforce has decreased by 23%, which totals 25.61% of total workforce. This resulted in an overall decrease of personnel (salary and benefit) expenditures exceeding \$31 million. A total of 334.57 FTE employee reductions is expected to take place by the end of this fiscal year with 174.30 FTE faculty reductions and 160.27 FTE non-faculty reductions.

The IUP president has committed to the campus community that during the fiscal year 2021-2022, no further faculty retrenchments or bargaining unit furloughs will take place. This does not mean that we will not be further reducing our workforce in FY 2021-2022. There will be reductions of personnel costs through a few methods, such as eliminating new vacancies through attrition and focusing on reductions in the non-represented employee group which had not seen the same percentage level of reductions as the other employee groups.

	FY2018-19 Actual Unrestricted Annualized FTE	FY2021-22 Projected Unrestricted Annualized FTE	FTE Change	% FTE Change	Estimated Salary and Benefits Savings
Faculty	607.16	432.86	(174.30)	-28.71%	(16,690,464)
Non-Faculty	699.02	538.75	(160.27)	-22.93%	(14,620,259)
Total	1306.18	971.61	(334.57)	-25.61%	(31,310,723)

Built into the non-faculty budget is a planned reduction of 10 non-represented employee FTE. This decision was based on an analysis which compared IUP and other state system schools which revealed that IUP is overstaffed in non-represented positions, specifically those with pay grade levels of 190 and above.

The decline in workforce as shown on the workforce charts of the CPP below show a two-year reduction to faculty of 156.53 and non-faculty reductions of 134.95, where as the chart above shows the reductions since July 1, 2019.

A similar analysis was completed for the clerical series positions. The analysis showed that IUP had more clerical positions than our 13 sister schools and that we were overstaffed in the clerical positions by approximately 52 FTE. The analysis resulted in IUP reducing overall clerical staff by converting the majority of 12-month employees to 9-month employees and also through position eliminations and furloughs. These efforts resulted in approximately 45 FTE towards meeting our target, with financial savings of approximately \$2.9 million. After the implementation of these clerical changes, various adjustments to FTE savings were made based on department workloads and needs.

IUP also restructured the Facilities area which resulted in substantial amount of eliminated positions, removed an extra level of managers and supervisors, combined multiple departments into one more highly functioning unit, and developed a more professional, team-like, and customer service-oriented department to serve the campus community.

A permanent reduction to temporary faculty FTE resulted in savings of \$1.7 million and approximately 30 budgeted FTE. In addition, permanent reductions of \$600k have been implemented which will reduce expenses related to other faculty budgeted pools (summer school, promotions).

We have exceeded our FY 2020-21 faculty workforce reduction target of 49.2 FTE (as submitted on September 4) by an additional 6.5 faculty FTE for a total reduction of 55.7 FTE. Our two-year total non-faculty workforce reduction target was 160.2 FTE and faculty workforce reduction target was 182 FTE.

Even though we have not met our target student/faculty (19.2) and student/non-faculty (17.7) ratios, we have made significant progress. We are currently projecting a student/faculty ratio of 17.5 and student/non-faculty ratio of 15.5 by FY2023-24.

#### Unrestricted FTE Employees and Associated Metrics

##### COPY AND PASTE FROM PROJECTIONS TEMPLATE

	Target	FY 2019-20	FY 2020-21	% Change	FY 2021-22	% Change	FY 2022-23	% Change	FY 2023-24	% Change
Fall FTE Faculty, net of shared faculty	n/a	585.02	522.80	-10.6%	430.12	-17.7%	425.88	-1.0%	423.90	-0.5%
Annualized Unrestricted FTE Faculty, net of turnover	n/a	589.39	529.39	-10.2%	432.86	-18.2%	428.67	-1.0%	426.71	-0.5%
Annualized Unrestricted FTE Nonfaculty, net of turnover	n/a	673.70	598.88	-11.1%	538.75	-10.0%	538.73	0.0%	538.78	0.0%
Fall FTE Student/Fall FTE Faculty Ratio	19.2	14.8	15.4		17.2		17.4		17.5	
Annualized FTE Student/ Annualized FTE Nonfaculty Ratio	n/a	13.5	14.9		15.3		15.4		15.5	

**Other Expenses:** IUP has been currently performing an in-depth review of budget allocations for areas of potential reductions. This has already resulted in operating budget reductions of nearly \$5 million. Part of the reductions include decreasing operating budgets by 50% this fiscal year, which resulted in savings of \$2.7 million. This budget reduction will be reflected in all three years of the plan. This analysis of cost centers will continue through this fiscal year. Part of what we have observed through this process is that IUP's chart of accounts is much larger, complicated, and cumbersome than it should be and going along with the analysis will be recommendations for simplifying the structure of the chart of accounts.

Student bad debt shows a one-time increased expense in FY2021-22, this is the result of a change in accounting methodology which is expected to result in a one-time -\$900k to the bottom line.

\$14.6 million in HEERF III and SIP funds claimed as lost revenue is reflected in the revenue section and also offset within various expenditure categories for approved strategic initiatives. A portion of the lost revenue claim has been approved to fund a strategic financial aid initiative. \$1.4 million of additional student aid expenses is being reported.

Total E&G and Plant Unrestricted Cash as of June 30, 2019 was \$83 million. With the current projected revenue and expenses, cash balances are projected to be \$39 million at the end of FY 2023-24.

Total E&G Unrestricted Net Assets as of June 30, 2019 were \$80 million. With the current projected revenue and expenses, Net Assets are projected to be \$40 million at the end of FY 2023-24.

The FY2021-22 E&G budget was balanced by implementing various permanent budget reductions to both operating and significant personnel reductions as well as using one-time carry forward and reserves of \$6.2 million.

Although IUP was able to balance the current year's budget by implementing various strategies, FY2022-23 and FY2023-24 are showing deficits of approximately \$12 million each year. By implementing the one-time use of reserves, IUP plans to reduce these deficits to \$7.8 million in FY2022-23 and \$8.1 million in FY2023-24.

A year over year comparison of FY2021-22 and FY2022-23 showed that the increased deficit is primarily the result of increased personnel expenditures due to Collective Bargaining increases as well as benefit assumptions. Also adding to the increased expenditures for FY2022-23 a projected \$2.6 million increase to scholarship funding. The increase in the University's expense is due to declining scholarship support from the Foundation for IUP. While the source of the funding has shifted more to IUP, we have committed to ensuring affordability for all of our students. The decision to reflect the deficits in the two future years is a mindful one.

In combination with less drastic reductions in workforce via attrition and elimination of some manager positions, the University is taking other steps to reduce expenses and increase revenues. These budget balancing ideas include:

- Leveraging foundation funds
- Improving business processes, with focus on our students
- In-depth budget review to identify other permanent non-personnel reductions
- A full review of designated fund centers
- Review of IUP's organizational structure
- Continue to eliminate vacant positions and rethink how we do work
- Analysis of other areas and functions that we have not assessed so far to understand if we can be more efficient

If absolutely necessary, adequate reserves exist to balance the budgets in 2022-23 and 2023-24. At this time we have chosen to show an unbalanced budget in these two years to allow for further development of the ideas above.

**Campus Footprint (aligning space to enrollment and workforce):** IUP plans to demo five building on campus (the R&P Building, Eicher, Pratt, Reschini house, and University Towers) with a savings of \$857,000 annually. This will reduce the assignable square footage by 44,181. Also, Foster dining hall, which closed in FY2017-2018, with the opening of North Dining Hall, is in the process of being demolished, reducing assignable square footage by an additional 43,214.

IUP is in negotiations for the transfer/sale of the IUP Northpointe campus property. These negotiations are in process and we expect for negotiations to be completed by the end of 2021. If successful, IUP will transfer/sell the Northpointe property which is on a 5.4-acre parcel and has 24,000 sq. ft. of academic building space.

Construction began on the new science building, Kopchick Hall, in Fall 2020 and should be completed for the opening of the fall 2023 semester. The present science building will be demolished in the Spring of 2024. The present science building has 159,626 gross square footage and 92,619 assignable square footage compared to the new science building which will have 142,536 gross square footage (17,090 less) and 97,635 assignable square footage (5,016 more). The new building will be more energy efficient, therefore, there will be a minimal change in the operating cost between the two buildings. The funding for the new science building from fund raising and DGS capital funds has been secured. The plan does not use E&G funds.

IUP has plans to demolish three buildings on the IUP Punxsutawney campus. This project is on the IUP 5-year capital plan and we hope that it will receive approval to move forward by the Board of Governors at their October, 2021 board meeting. If approved, the project would result in another 58,876 square feet being taken offline.

### Part 3: Financial Overview – AUXILIARY

*Progress submission narrative, then update as appropriate. Provide a brief description of the university's assumptions for the Auxiliary revenues and expenses. Consider copying and pasting from September 2020 CPP or February 2021 Sustainability*

#### Auxiliary Revenues:

IUP has submitted an unbalanced auxiliary budget for all three years of the plan. Over the past few years, expenses were scrutinized and reduced significantly in both personnel and operating costs. Continued efforts are currently underway to address the shortfall which is largely due to decrease in occupancy and high debt service. The deficit for auxiliaries totals \$8.1 million for FY2021-22, \$7.6 million for FY2022-23, and \$8.9 million for FY2023-24. The auxiliary budget deficit is negatively impacting the IUP's financial metrics as shown in the tables below. The IUP operating margin, primary reserve ratio and estimated minimum reserves would have been significantly better if not for this auxiliary budget deficit issue, as the E & G financial picture has changed significantly to the positive.

The IUP auxiliary enterprises is projected to experience a decline in assets for FY2020-21, which will impact the university's overall financial health. Two factors have influenced this decline. First, prior to COVID-19, a projected decline in student enrollment resulted in a corresponding decline in the number of students submitting housing agreements to reside in campus housing. Second, because of the COVID-19 pandemic, housing capacity was reduced on the Indiana campus from 3528 beds in IUP and Foundation-owned housing to 2590 beds following social distancing guidance from the CDC and other agencies. Students in on-campus housing have been placed single-occupancy rooms, with few exceptions, within suite-style housing only. Therefore, the housing capacity in the only IUP-owned residence hall, a traditional-style facility with 180 beds, was reduced to zero with no students residing in the building due to the inability to provide the appropriate level of social distancing in this facility. This means there will be no revenue for IUP-owned housing at the Indiana campus. Additional revenue from the sale of private bedrooms and private suites has been significantly reduced to meet the increased need for single rooms due to the COVID-19 pandemic.

Housing occupancy for Phases I and IV are at 35.79% and 74.16% occupancy, respectively. Total Housing occupancy at the Indiana campus is 62.24% occupancy, as of August 6, 2021. Total meal plan participation and dining revenue has increased 17% over Fall 2020. However, participation has decreased by 25.7% compared to 2019, which is the comparison year for the new contract. Most of this decrease, compared to 2019, is in off-campus student meal plans which have decreased by 40% since fall 2019. This is a combined result of more students electing to live on campus as well as a result of COVID. The current loss compared to 2019 is a greater loss than the lowest tier on the new dining contract. An MOA or similar negotiated terms with Aramark will have to be formed to mitigate any financial loss.

IUP-owned housing at the Punxsutawney campus began operating at under 40% occupancy after the Developmental Studies Program moved from the Punxsutawney Campus to the Indiana Campus over four years ago. The reduction in occupancy from above 85% to below 40% has resulted in an operational loss for both housing and dining at the Punxsutawney campus. Occupancy must average at least 83% to avoid operating at a financial loss. This significantly contributes to an annual shortfall for this operation.

FY2020-21 actuals reflect a deficit of \$833k. A one-time use of HEERF II funds in the amount of \$6.9 million was utilized as a one-time funding source to help offset the financial strain that COVID-19 had on the Auxiliary units.

Effective July 1, 2020, IUP put in place master leases in place for Phases I and IV. Revenues associated with these leases is reflected within Housing Fees. FY2021-22 projected revenue associated with these phases are \$6.1 million. FY2022-23 projections are increasing to \$6.9 million, and FY2023-24 are projected to be around \$6.1 million. The decrease in FY2023-24 is attributed to the overall occupancy of all the housing phases as well as an expected decrease in occupancy. Expenses associated with these leases are reflected in both utilities and all other expenses. The change is also evident in the Privatized Housing revenue, FY2020-21 through FY2022-23 no longer reflect revenues collected and paid to IUP (in the form of chargebacks) for all four phases. Phases I and IV will no longer be paying IUP for those chargeback expenses.

Housing and Dining revenues also show an increase in revenue resulting from the \$1,000 per student housing scholarship for students at the Indiana campus. It is anticipated that this incentive would increase the number of new and continuing students living in the residence halls and purchasing a meal plan. This scholarship program is in the first semester of a two-year pilot. It is too soon to assess the efficacy of this program.

The deficit for auxiliaries totals \$8.1 million for FY2021-22, \$7.6 million for FY2022-23, and \$8.9 million for FY2023-24.

### Auxiliary Expenses:

Multiple strategies and analyses are underway to address the auxiliary enterprise financial challenges. The Housing and Dining and the Budget offices worked together to permanently move over \$750k in personnel expenses from auxiliaries to E & G taking effect FY2020-21 as staff assignments were modified and not serving within auxiliary services.

Since 2019-20, the auxiliary units have reduced workforce from 42.74 FTE to 20.47 FTE, or a 52.1% decrease in overall workforce. This was achieved by eliminating positions, re-aligning the funding source with the actual work being performed, not filling positions when vacated, and savings from reducing clerical staff from 12 to 9-month positions.

Efforts are underway to reduce housing-related expenditures and streamline contracted services for the residence halls resulting in reduced total expenditures for FY2020-2021 and beyond. There will be expense reductions related to several revisions to service contracts for FY2020-2021 and FY2021-2022. Additional strategies are being explored with the goal to yield more expenditure reductions in FY2023-2024 and beyond.

The University has been working with the dining services contractor, Aramark, since early January 2020 to identify cost-reduction and revenue generating measures for the second half of FY2019-2020 and for FY2020-2021 while keeping meal plan rates flat for FY2020-2021. These savings strategies are anticipated to continue under the new contract with Aramark which began June 1, 2021.

Due to reduced housing occupancy on the Punxsutawney campus, IUP Dining ended food operations on the Punxsutawney campus at the end of summer 2021 to eliminate operational losses from the dining program. A capital investment of \$96k was made to convert 26 suites into kitchens allowing students to prepare their own meals. Students living on the Punxsutawney campus are no longer required to have a meal plan. This has eliminated the yearly operational loss of \$160k.

The University is currently exploring leasing the unused kitchen and residential space at the Punxsutawney campus for retail purposes. A request for letters of interest has been issued. The University is seeking a partnership with one or more external entities to lease nearly 3,000 square feet of kitchen and dining space and up to 10,645 square feet of residential space that could be used as professional office space. If the space is leased, it will benefit IUP, our students who attend the culinary program, and the Punxsutawney community.

## Part 4: Overall Impact on Unrestricted Net Assets

*Provide a brief description of the university's planned use of unrestricted net assets, including any strategic initiatives and capital investments.*

### Overall Impact on Unrestricted Net Assets:

Planned Use of Unrestricted Net Assets (UNA): UNA at June 30, 2021 was (\$327,298,511). The composition of UNA after excluding unfavorable UNA balances due to unfunded liabilities for compensated absences, other post-employment benefits and pension benefits is as follows (see **Note**):

E&G – General Fund	\$ 6,675,853
E&G - Designated	37,130,638
E&G – Plant	22,130,825
Auxiliary	<u>5,996,321</u>
Total UNA	\$ <u>71,933,637</u>

**Note:** Excludes Long Term Investments, Unrestricted Quasi-Endowments equal to \$4,696,343

Planned uses of E&G UNA include:

- Other Designated Funds \$18,816,522.
- E&G Carryover \$6,675,853.
- Special Programs, Self-Supporting Funds, and Scholarship Funds - \$8,747,794
- E&G Plant

As of June 30, 2019, E&G unrestricted net assets were \$80 million. This CPP is projecting those net assets to drop to \$40 million by June 30, 2024.

Total unrestricted net assets (E&G and Auxiliary) have declined by \$14 million since FY 2018-19 (from \$86 million to \$72 million). This is primarily driven by expenditures exceeding revenues. Even though this trend is expected to continue for all years of the plan, the University is taking steps to address this and get to a balanced budget by FY2023-24.

Financial Projections

<b>Total Estimated End of Year Cash Balance</b>	<b>\$78,304,151</b>	<b>\$81,705,001</b>	<b>4.3%</b>	<b>\$67,402,191</b>	<b>-17.5%</b>	<b>\$47,596,007</b>	<b>-29.4%</b>	<b>\$26,746,849</b>	<b>-43.8%</b>

Projected Ratios resulting from the Annual Projection Plan - Will NOT Match Final Metric Results

	Target <sup>1</sup>	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23	FY 2023-24
<b>Fall FTE Student/Fall FTE Faculty Ratio</b>	19.2	14.8	15.4	17.2	17.4	17.5
<i>Fall FTE student/Fall FTE faculty</i>						
<b>Estimated Student/Nonfaculty Ratio</b>	n/a	13.5	14.9	15.3	15.4	15.5
<i>Annualized FTE Student/Annualized FTE Nonfaculty</i>						
<b>Estimated Annual Operating Margin<sup>2</sup></b>	>2%	-2.4%	-4.5%	n/a	n/a	n/a
<i>End of Year Surplus/(Deficit)—excluding Transfers to Plant/Total Revenues</i>						
<b>Estimated Annual Primary Reserve Ratio<sup>2</sup></b>	>40%	34.9%	34.0%	n/a	n/a	n/a
<i>Estimated End of Year Balance in Net Assets/Total Expenses</i>						
<b>Estimated Minimum Reserves<sup>2</sup></b>	>180 days	143	159	n/a	n/a	n/a
<i>Unrestricted cash*365/total unrestricted expenses</i>						

<sup>1</sup> Target for student/faculty ratio is based on fall 2010 FTE student and fall 2010 FTE faculty. Other targets reflect the procedure/standard requirements for overall financial sustainability.

<sup>2</sup> Ratios are for one year only; ratios used in the sustainability scorecard are based on a three-year rolling average.

## Part 5: Academic Program Strategies

*Briefly describe anticipated changes to the academic program array, as applicable. Note: this is for academic planning and does not substitute for the new program proposal or notification process. It also does not preclude seizing upon unforeseen or innovative opportunities.*

**New credentials (degrees, credit-bearing certificates) to be added over the indicated planning period and a brief rationale for why *this* credential and why *this* university.**

**Next two years:**

6-Digit CIP Code	Credential level and type	Program Name	Brief Rationale
11.0103	B.S.	<b>Information Technology (STEM)</b> <i>New program. Approved by Council of Trustees. Letter of Intent (LOI) submitted to PASSHE on January 12, 2020.</i>	This program will prepare students for positions as system administrators, network administrators or IT infrastructure managers. We believe women, minority, and socio-economically disadvantaged students with less STEM confidence or less interest in hard-core computer programming will be attracted to the business leadership and soft skills orientation of this program, allowing IUP to give them a 'tech elevator' to success. This program has been moved into the Department of Mathematical and Computer Sciences to further strengthen its core curriculum and align it with our other STEM programs.
52.0304	M.S.	<b>Accounting and Finance</b> <i>New program. Approved by Council of Trustees. Letter of Intent (LOI) submitted to PASSHE on April 21, 2020.</i>	No other school in PASSHE or in the state of Pennsylvania has a graduate degree that combines these two disciplines. This collaborative program is designed to cover the major content areas of both the Certified Public Accountant (CPA) and Chartered Financial Analyst (CFA) exams. The program will also give students the required 150 hours of academic credit mandated by the State Board of Accountancy in Pennsylvania and most other states. <b>Complete.</b>
15.1501	M.B.A.	<b>Supply Chain Management (STEM-MBA)</b> <i>New program. Approved by Council of Trustees. Letter of Intent prepared but not submitted.</i>	Designed to prepare junior and mid-level business executives for the growing need to manage complex supply chains in the manufacturing, distribution, and service industries in the Commonwealth of Pennsylvania and around the world. With this STEM-designated degree, students will gain the quantitative, analytical, and managerial knowledge, tools, and capabilities required to be successful in the fast-paced and global field of supply chain management.
11.1099	M.B.A.	<b>Information Systems. (STEM-MBA)</b> <i>New program. Approved by Council of Trustees. Letter of Intent prepared but not submitted.</i>	While the demand for the traditional M.B.A. has remained stable or declined, the demand for new and emerging technology-focused M.B.A. programs has strongly increased. The proposed STEM-designated program will enable graduates to apply existing and trusted Information Technology (IT) solutions as well as new and novel IT solutions to address technological business goals.
13.0301	Ph.D.	<b>Curriculum and Instruction</b> <i>Conversion from existing program.</i>	This would be a degree change for an existing DEd program which no longer meets workforce needs. Students interested in our program have told us they prefer an academic research credential to enable them to work in higher education rather than K-12 schools.
13.1319	A.A or A.A.S.	<b>Vocational Education</b> <i>New program. Currently in the planning stage.</i>	A degree/credential for Career and Technical Educators that seek teacher certification only (60 credits).

6-Digit CIP Code	Credential level and type	Program Name	Brief Rationale
50.0102	B.F.A.	<b>Graphic Design and Illustration</b> <i>New program. Curriculum proposal in progress; anticipated Senate and Council of Trustees approval in Fall 2020.</i>	This new program would provide students with a variety of design skills in layout, typography, brand design, web design, three-dimensional modeling, and digital illustration, leading to careers as graphic designers, illustrators, art directors, and web designers while also preparing students for entrepreneurial design opportunities made possible by social media platforms. The recent closure of two privately-operated design schools in the region, the Art Institute of Pittsburgh and the Bradford School, suggests that populations recently served by those institutions would be good recruitment targets for this program.
45.1004 (tentative)	B.A.	<b>Philosophy, Politics, and Economics</b> <i>New concentration. Curriculum proposal in progress; anticipated Senate and Council of Trustees approval in Fall 2020.</i>	This interdisciplinary program is designed to recruit students interested in careers in law, government, public policy, public administration, the non-profit sector, advocacy, business administration, consulting, finance, journalism, and education. It should also appeal to students who are concerned about the impact of law, policy, and government on individuals, social groups, and the broader world. <b>Complete.</b>
13.1299 (tentative)	Sub-Baccalaureate Certificate	<b>Certificate in Secondary Science Education</b> <i>New shared certificate required to eliminate four individual science education tracks.</i>	This shared certificate will allow students interested in teaching Biology, Chemistry, Earth & Space Science or Physics to meet state Secondary Science Education Certificate requirements as part of their BS program and become certified middle- and high-school science teachers in Pennsylvania and other states. Creation of this certificate will allow four individual education degree programs to be eliminated from the array. <b>Complete.</b>
54.0105	Sub-Baccalaureate Certificate (PASSHE-wide)	<b>Public History</b> <i>New system sharing format for existing academic program that would include faculty from several PASSHE institutions.</i>	This system-sharing undergraduate public history certificate is designed to be taken as part of the curriculum for a Bachelor's degree or as a stand-alone professional development curriculum for in-service public history professionals. The certificate combines the rich variety of public history offerings at several PASSHE schools into a single, state-of-the-art program.
51.0203	Post-Baccalaureate Certificate (100% Online)	<b>Speech-Language Pathology Pre-Graduate Certificate</b> <i>New program. Currently in the planning stage.</i>	This certificate will allow students with a Bachelor's degree in a program other than SLP to acquire the pre-requisite coursework for entry into an SLP graduate program. The program would be offered in an asynchronous, online modality to recruit students who are working daylight hours. There is potential to recruit nationwide with the asynchronous format.
13.0101	M.A.	<b>Teaching</b> <i>New program. Currently in the planning stage.</i>	This hybrid master's degree would prepare someone with an undergraduate content area (Early Childhood/Child Development, English, Social Studies, Math or Science) to teach with an initial certification. Students would be comprised of career changers, paraprofessionals in schools, etc – a returning PASSHE student population with a bachelor's degree in a non-education background.
31.0505	BS	<b>Exercise Science</b> <i>Conversion from existing program track</i>	Currently the BS is a track under Physical Education and Sport while the M.S. is a track under Sport Science. In order to improve our marketing and clarify the program to accreditations, we would like to separate the tracks into their own academic programs. No additional resources would be needed.
31.0505	M.S.	<b>Exercise Science</b> <i>Conversion from existing program track</i>	
31.0501	BS	<b>Sport Administration</b> <i>Conversion from existing program track</i>	Currently the BS is a track under Physical Education and Sport while the M.S. is a track under Sport Science. In order to improve our marketing and clarify the program to accreditations, we would like to separate the tracks into their own academic programs. No additional resources would be needed.
31.0501	M.S.	<b>Exercise Administration</b> <i>Conversion from existing program track</i>	

**Next three to five years:**

6-Digit CIP Code	Credential level and type	Program Name	Brief Rationale
51.0203	Post-Graduate Certificate	<b>Certificate in Speech-Language Pathology Service Delivery</b> <i>New program. Currently in the planning stage.</i>	This certificate will allow students who have completed a Master's degree in SLP to pursue a post-graduate specialization certificate in clinical service delivery. The 15-18 credit certificate would focus on advanced service delivery knowledge and skills such as dosage, telehealth, and clinical supervision. The certificate would particularly appeal to SLPs in school settings who have credit-based incentives for advancement in salary scales.
51.0203	Clinical Doctorate (SPLD)	<b>Speech-Language Pathology</b> <i>New program. Currently in exploration stage.</i>	This professional doctorate would pair the intra-disciplinary coursework from the Post-Graduate Certificate in SLP proposed above with existing doctoral level coursework from inter-disciplinary programs for additional specialization in Interprofessional Education. University expense for the program would be minimized by including existing doctoral coursework.
50.1003	B.S.	<b>Music Industry</b> <i>New program. Currently in exploration stage.</i>	This new program would combine offerings in the Department of Music, The Eberly College of Business and Information Technology, and the Department of Communications Media. It would give students the skills and knowledge to work in various aspects of the music industry, including management, marketing, sound recording, and artist development.
50.0411	B.S.	<b>Game Design and Development</b> <i>New program. Currently in exploration stage.</i>	A program that focuses on the design, development, and programming of interactive media entertainment, including computer and video games, virtual environments, Internet applications, and other interactive media. Includes instruction in theory of games, turn-based games, real-time games, visual and interactive design, story development, animation, simulation, and programming.
19.0501	A.S.	<b>Food and Nutrition</b> <i>New program. Currently in the planning stage.</i>	This new program would prepare students to work as nutritional aides or dietary assistants in care homes, hospitals and other group settings.
11.1003	M.S.	<b>Cybersecurity (STEM)</b> <i>New program. Currently in exploration stage.</i>	This new graduate program meets a growing demand in the marketplace and allows PASSHE computer science and criminology students an advanced credential for a career in the cybersecurity industry.
51.2201	M.P.H.	<b>Public Health</b> <i>New program. Currently in exploration stage. Would require accreditation of the BS in Public Health first.</i>	The Master of Public Health (MPH) is a broadly focused multi-disciplinary professional degree designed to provide students the skills and knowledge to advance in public health careers. Graduating from an MPH program allows students to work in public healthcare settings, government agencies, and non-profit organizations as administrators or managers.

Credentialing programs. being considered for moratorium over the indicated planning period and a brief rationale.

Next two years:

6-Digit CIP Code	Credential level and type	Program Name	Brief Rationale
45.0601	B.A.	Economics, Pre-Law Track	These Pre-Law programs are being discontinued. An existing Interdisciplinary Pre-Law minor will serve as the replacement.
38.0101	B.A.	Philosophy, Pre-Law Track	
54.0101	B.A.	History, Pre-Law Track	
45.1101	B.A.	Sociology, Disability Services Track	This track is being discontinued due to overlap with another.
52.0201	B.S.	Management, Energy Management Track	This track is being discontinued due to lack of demand
52.0201	B.S.	Management, Supply Chain CCAC Track	This track is being discontinued due to lack of demand.
30.0101	B.S.	Natural Science, Pre-Podiatry Track	This track is being discontinued due to lack of demand.
30.0101	B.S.	Natural Science, Pre-Audiology Track	This track is being discontinued due to lack of demand.
51.0908	B.S.	Respiratory Care, CRT Track	This track is being discontinued due to lack of demand.
51.1005	B.S.	Medical Technology	This track is being discontinued due to lack of demand.
13.1015	B.S.Ed.	Early Childhood Special Ed Urban Track	This track is being discontinued due to changes in PDE regs.
13.1015	B.S.Ed.	Early Childhood Special Ed (BC3 campus)	This program is being discontinued due to lack of demand.
45.9999	B.S.Ed.	Anthropology, Social Studies Track	These three B.S.Ed. programs are being discontinued. An existing B.S. Ed. program in History/Social Studies will be used as the replacement for students.
45.9999	B.S.Ed.	Economics, Social Studies Track	
45.9999	B.S.Ed.	Geography, Social Studies Track	
26.0101	B.S.Ed.	Biology Education	All four of these B.S.Ed. programs will be discontinued and replaced by their respective existing BS programs (Biology, Chemistry, Geology, and Physics) plus a new shared Certificate in Secondary Science Education. (PDE approved).
40.0501	B.S.Ed.	Chemistry Education	
40.0601	B.S.Ed.	Earth and Space Science Education	
40.0801	B.S.Ed.	Physics Education	
15.1601	M.S.	Physics, Nanomanufacturing	This program is being placed in moratorium for redesign.
51.1504	Sub-bac Cert	Child and Adult Advocacy Certificate	This program is being discontinued due to lack of demand.
30.1101	Sub-bac Cert	Gerontology Certificate	This program is being discontinued due to lack of demand.
14.2501	Post-bac Cert	Shale Gas Energy Certificate	This program is being discontinued due to lack of demand.

Note: Over the past two months, IUP has placed 13 additional academic programs in moratorium with the intention to close or consolidate them. They are not included in this chart, but their impact has been addressed in our discussion below.

Credentialing programs to be curtailed, consolidated, and/or offered via shared delivery over the planning period, in order to keep them in the program array, and a brief rationale.

Next two years:

6-Digit CIP Code	Credential level and type	Program Name	Brief Rationale
03.0104	B.A.	Geography, Environment/ Energy Track	These three programs are being consolidated into a single B.A. in Geography and Geospatial Information Science (GIS).
45.0799	B.A.	Geography, Human Geography Track	
45.0702	B.A.	Geography, GIS and Technology Track	
19.0501	B.S.	Nutrition, Dietetics Track	These two programs are being consolidated into a single B.S. in Nutrition.
19.0501	B.S.	Nutrition, Nutrition Track	
04.0301	B.S.	Regional Planning, Community Planning and Development Track	These two programs are being consolidated into a single B.S. in Regional Planning.
04.0301	B.S.	Regional Planning, Environmental Track	
40.0899	B.S.	Physics, Applied Physics Track	These two programs are being consolidated into a single B.S. in Physics.
40.0801	B.S.	Physics, Physics Track	
511103	B.S.	Natural Science, Pre-Pharmacy	These two programs are being consolidated into a single B.S. in Chemistry, Pre-Pharmacy.
511103	B.S.	Chemistry, Pre-Pharmacy	
27.0301	B.S.	Mathematics, Applied Mathematics Track	These two programs are being consolidated into a single B.S. in Mathematics.
27.0101	B.S.	Mathematics, Mathematics Track	
27.0101	B.S.Ed.	Mathematics Education	These two programs are being consolidated into a single B.S.Ed. in Mathematics Education
27.0101	B.S.Ed.	Middle-Level Education, Math Track	
04.0301	M.S.	Geography, Environmental Planning Track	These three programs are being consolidated into a single M.S. in Geographical Sciences and Planning.
45.0702	M.S.	Geography, GIS Cartography Track	
04.0301	M.S.	Geography, Regional Planning Track	
27.0101	M.Ed	Mathematics Education, Secondary Track	These two programs are being consolidated into a single M. Ed. in Mathematics Education.
27.0101	M.Ed	Mathematics Education, Elementary and Middle Level Track	
27.0301	M.S.	Applied Mathematics	These two programs are being consolidated into a single M.S. in Applied Mathematics.
27.0301	M.S.	Applied Mathematics, Community College Track	
19.0505	M.S.	Food and Nutrition, Administration Track	The Administration track was eliminated in favor of a new DNP track due to changes in accreditation requirements from ACEND. <b>Complete.</b>
19.0505	M.S.	Food and Nutrition, Education Track	

## What impact will the above actions have on the academic program array metrics (i.e., student/faculty ratio, average section size, number of programs) in the coming years?

### **Number of Programs:**

IUP Next Gen is a plan for IUP's future that includes focus on academic areas that we do well and are in demand and a restructuring to strengthen our academic disciplines and commitment to student success. The academic areas of focus include:

- science, math, computer science, pre-engineering and engineering
- allied health disciplines
- behavioral health
- business
- new cross-disciplinary and multi-thematic areas

Phase One of IUP Next Gen was focused on academic restructuring resulting in reducing the number of academic colleges from six to five (College of Arts and Humanities, the College of Education and Communications, the College of Health and Human Service, the Eberly College of Business, and the Kopchick College of Natural Sciences and Mathematics) and a redesigned University College. As of July 1, 2021 we eliminated eleven academic departments through mergers or closures, and discontinued four additional academic programs (three graduate, one undergraduate). Prior to our NextGen realignment, IUP had already simplified our academic portfolio by reducing the number of programs, concentrations and specializations by 34 through curricular integrations and moratoria as recommended by the Inspire expedited program review process (2019-2020). We have plans over the next 2-5 years to invest in new and revised programs in the focus areas outlined above. This is reflected in CPP Section 5 along with the specific details of our Inspire-recommended program consolidations.

We are now in Phase Two of IUP Next Gen which aims to leverage the new academic structures and realize our strategic priorities. Guiding the continuation of this transformation are five IUP NextGen Coordination Councils comprised of individual from across the divisions of the university. Each Council is charged with examining and imagining IUP's future around one of the following areas. Student Support is re-envisioning academic and support services for all students. NextGen Campus is exploring what the NextGen Campus looks like in terms of space and modality. Budget Planning is focused on both the immediate transition to NextGen, but also how to align budget with strategic priorities. Core Curriculum is focused on refreshing our general education program with a focus on diversity, equity and inclusion And Future Initiatives is taking stock of our strengths and resources in order to recommend future programs and research initiatives. The outcomes of each of the Council's work will include recommendations for immediate and future plans due in December 2021.

### **Average Section Size:**

The merging of highly structured tracks into more flexible holistic majors will cause average section sizes to rise over time. Students in the more flexible programs will be able to graduate on time without departments being required to provide small upper-level courses to just a few students in a particular track.

### **Student-Faculty Ratio:**

Our faculty-student ratio has increased from 14.8 in 2019-20 to 17.2 in 21-22. Even though we have not met our target ratio of 19.2 we have made significant progress. We continue to monitor our program array, majors, and completers at the undergraduate and graduate levels in alignment with our faculty capacity.

**This year's Comprehensive Planning Template submission (both Excel and Word) is due via electronic transmission by Friday, September 10, 2021. When saving your university's file to the workspace, please name it according to the following table:**

**University Codes and Filenames**

2 Letter Code	University Name	Filename
BL	Bloomsburg University of Pennsylvania	BL-CPP-23
CA	California University of Pennsylvania	CA-CPP-23
CH	Cheyney University of Pennsylvania	CH-CPP-23
CL	Clarion University of Pennsylvania	CL-CPP-23
EA	East Stroudsburg University of Pennsylvania	EA-CPP-23
ED	Edinboro University of Pennsylvania	ED-CPP-23
IN	Indiana University of Pennsylvania	IN-CPP-23
KU	Kutztown University of Pennsylvania	KU-CPP-23
LO	Lock Haven University of Pennsylvania	LO-CPP-23
MA	Mansfield University of Pennsylvania	MA-CPP-23
MI	Millersville University of Pennsylvania	MI-CPP-23
SH	Shippensburg University of Pennsylvania	SH-CPP-23
SL	Slippery Rock University of Pennsylvania	SL-CPP-23
WE	West Chester University of Pennsylvania	WE-CPP-23
OC	Office of the Chancellor	OC-CPP-23

**FTE Instructional Faculty Positions**

This section should reflect your best estimate of instructional faculty FTE, defined as the FTE complement (HR definition) whose primary purpose is instruction. Figures should be net of any faculty being shared between universities.

<sup>3</sup> Fall FTE Student/Fall FTE Faculty Ratio, as calculated in CPP projections submitted by EA, MI, SL, and WE in September 2020, in sustainability progress updates submitted by CH, IN, KU, and SH in February 2021 and updated integrating university projections submitted by BL, CA, CL, ED, LO and MA in June 2021. Excludes clock hour students and clock hour faculty. Ratio for 2020-21 fall FTE student/ fall FTE faculty ratio is actual. All other information is from CPPs submitted in September 2020.

<sup>4</sup> Actual results for University Financial Strength ratios should be input using the updated Financial Risk Assessments available in the BI portal, via ESS. Updated Metrics will be available beginning on September 2, 2021.

<sup>5</sup> These ratios are calculated on an annual basis; ratios in the sustainability scorecard use a three-year rolling average.

<sup>6</sup> Total Funds Raised: Grand total amount (outright gifts only) from the Voluntary Support of Education Survey. See Appendix B.

\*Avg financial need minus gift aid for fall in state UG degree/cert seeking students, as per previous CPP submissions.

**University Specific Metric - Research**

**Total Research Expenditures/Total Research Degrees awarded**

	University				
	2018-2019	2019-2020	2020-2021	2021-2022	2022-2023
Research Expenditure	7,099,113	5,500,000	5,500,000	5,500,000	5,500,000

	University					
	2017-2018	2018-2019	2019-2020	2020-2021	2021-2022	2022-2023
Research Degrees Awarded						
DED - Curriculum &	8	9	15	16		
DED - School Psych	6	3	7	5		
PHD	60	68	78	72		

TOTAL	74	80	100	93	45	45
-------	----	----	-----	----	----	----

The research metric will be a combination of research expenditures and degrees awarded.

The research expenditures will be based on the NSF - HERD Survey

The target will be to maintain 10% over the required \$5 million for the Carnegie Classification for an R2 Institution which would be \$5.5 million

The number of degrees is also based on at least 20 research degrees for Carnegie Classification for an R2 Institution.

The university target will be to maintain at least 45 degrees awarded per year including the PH.d, DED for Curriculum and Instruction and DED School Psych

<sup>1</sup> Target for Student/Nonfaculty ratio is based on fall 2019 FTE student and fall 2019 FTE faculty. Other targets reflect the procedure/standard requirements for overall financial sustainability.  
<sup>2</sup> Ratios are for one year only; ratios used in the sustainability scorecard are based on a three-year rolling average.

**FY 2022-23 Comprehensive Planning Process (CPP) Projections Workbook**  
**Indiana University of Pennsylvania**  
**Impact of Coronavirus Pandemic**

**IT SHOULD TAKE NO LONGER THAN 45 MINUTES TO COMPLETE THIS TEMPLATE.**

The intent of this schedule is to capture the total impact the COVID pandemic has had at each university, including any lost revenues and/or expenses that will not be covered by stimulus funds or reimbursements from FEMA/PEMA. Figures included in this schedule are those provided by universities in April 2021. Figures for FY2020/21 should be final; estimates for FY2021/22 should be refreshed from what was provided in April 2021.

Revenues and expenses related to emergency student aid are reported separately at the bottom of this schedule. All other CARES Act, Coronavirus Response and Relief Supplemental Appropriation Act (CRRSAA), and American Rescue Plan Act (ARPA) funds appropriated to the university, along with any reimbursements anticipated from FEMA and/or PEMA (regardless of what fund they are recorded in), should be included in this schedule. Fees refunded to students and/or lost revenues, whether or not they will be covered with CRRSAA and/or ARPA funds, should also be included in this schedule. Expenses should include any costs related to the COVID pandemic (e.g., payroll for student workers and eligible employee payroll costs; purchases of PPE, signage, COVID testing, and technology for distance education), savings realized from the suspension or renegotiation of certain contracts due to campus closures or reduced occupancy of students (e.g., dining or shuttle bus), and any other operational savings (e.g., utilities and travel).

**E&G and Auxiliary Fee Refunds and Rate Reductions** - these lines should include any refunds provided to students and/or reductions in revenues due to reduced fee rates.

**Title V Funds** - All expenditures funded by the Title V appropriation received from the Commonwealth were to be incurred by December 30, 2020 and should be reflected in the appropriate expenditure categories listed below.

**Lost Revenues** - Revenues lost as a result of reduced occupancy in FY2020/21 should be listed separately from any other revenues that may have been lost due to the pandemic. Examples of lost revenues due to reduced occupancy could include things like fees for housing, dining, student activities, parking, etc. Other lost revenues could include things like revenues from camps and conferences, revenues related to athletic events and/or student activities, and any other imputed revenues that have been lost due to the pandemic.)

**Student Reengagement Expense** - these lines should reflect the amount of institutional share dollars from CRRSAA and/or ARPA funds being used to discharge a student's unpaid balance.

**Each university's allocations from the CARES Act, CRRSAA, and ARPA can be found in the Data & Reference tab of this template. Totals for rows 16, 17, 18, 19, 61, 65, and 69 should match amounts in the Data & Reference tab.**

Note: A deficit would reflect the fiscal impact on the university and the amount of institutional funds used for COVID-19 pandemic.

**CARES Act Emergency Student Aid Pass-Through:**

Revenues Received	\$576,806	\$576,806	n/a	n/a	n/a	\$576,806	\$0	\$576,806
Emergency Aid Awarded	\$576,806	\$576,806	n/a	n/a	n/a	\$576,806	\$0	\$576,806

**CRRSAA Emergency Student Aid Pass-Through:**

Revenues Received	\$5,025,231	\$5,025,231	n/a	n/a	n/a	\$5,025,231	\$0	\$5,025,231
Emergency Aid Awarded	\$5,025,231	\$5,025,231	n/a	n/a	n/a	\$5,025,231	\$0	\$5,025,231

**ARPA Emergency Student Aid Pass-Through:**

Revenues Received	\$13,508,299	\$13,508,299	n/a	n/a	n/a	\$0	\$13,508,299	\$13,508,299
Emergency Aid Awarded	\$13,508,299	\$13,508,299	n/a	n/a	n/a	\$0	\$13,508,299	\$13,508,299

Notes: HEERF II claims were submitted for lost revenue in the amount of \$10.3 million for FY2020-21. The majority of lost revenue was associated with the Auxiliary units, approximately \$7 million. Other lost revenue from Fee income and tuition losses were claimed. For 2021-22 HEERF III claims will follow a similar approach but claiming lost tuition revenue. Beyond what was claimed, IUP anticipates the following expenses: Air circulation projects, PPE, COVID testing costs, emergency aid to students, summer faculty academy (upgrade technical skills for online teaching and hybrid learning), distance ed payments, UV lights, contactless water stations for students.

<b>Net Tuition Revenue per FTE Student</b>	<b>\$7,331</b>	<b>\$6,454</b>	<b>\$5,517</b>		<b>\$5,539</b>		<b>\$6,174</b>	
<i>Undergraduate academic year tuition revenue less institutional aid/annualized undergraduate FTE enrollment. Note: this estimate may include aid awarded to graduate students.</i>								

**ESTIMATED SUSTAINABILITY METRIC PROJECTIONS BASED ON AGGREGATED DATA; ACTUAL RESULTS WILL VARY.**

	Actual	Actual	Estimated	Estimated	Estimated
<b>Fall FTE Student/Fall FTE Faculty Ratio</b>	14.8	15.4	17.2	17.4	17.5
<i>Fall FTE student/Fall FTE faculty (excludes clock hour students and faculty)</i>					
<b>Student/Nonfaculty Ratio</b>	13.5	14.9	15.3	15.4	15.5
<i>Annualized FTE Student/Annualized FTE Nonfaculty</i>					
<b>Annual Operating Margin<sup>1</sup></b>	-2.4%	-4.5%	n/a	n/a	n/a
<i>Total Annual Revenues less Total Annual Expenses/Total Annual Revenues</i>					
<b>Annual Primary Reserve Ratio<sup>1</sup></b>	34.9%	34.0%	n/a	n/a	n/a
<i>Estimated End of Year Balance in Expendable Net Assets/Total Expenses before Transfers</i>					
<b>Minimum Reserves Ratio<sup>1</sup></b>	143	159	n/a	n/a	n/a
<i>Unrestricted Total Cash*365/Unrestricted Total Operating Expenses (excluding capital and transfers)</i>					
<b>Viability Ratio</b>	<i>Ratio cannot be calculated based on level of information provided in this template; ratio is calculated in annual financial risk assessments.</i>				
<i>Expendable Net Assets/Total Outstanding Debt</i>					
<b>Nonfaculty Costs/Unrestricted Revenues</b>	31.9%	30.1%	29.4%	32.6%	32.9%
<i>Total Unrestricted Nonfaculty Compensation/Total Unrestricted Revenues</i>					

<sup>1</sup> Ratios are calculated on an annual basis; ratios in the sustainability scorecard use a three-year rolling average. 2020-21 actual results will be available beginning September 2, 2021.

Description of Edit Check										
1. Initials for University are filled in on Start Page:		IN								ok
2. Date budget was/will be reviewed by Council of Trustees has been filled in:		12/9/2021								ok
3. Date Council of Trustees will Approve University Fee Rates for FY 2022-23 and Tentative Rates for FY 2023-24:		12/9/2021								ok
4. Will university will be presenting a tuition pricing proposal in spring 2021:		Undecided								ok
5. Fall Headcount										
<i>The Fall Headcount in Prior Year on Student Profile sheet must match the Fall Headcount for Prior Year on the Data &amp; Reference</i>										
		<u>FY 2019-20</u>	<u>FY 2020-21</u>							
Fall Headcount on Student Profile sheet		10,636	10,067					FY 2019-20	ok	
Fall Headcount on Data sheet		10,636	10,067					FY 2020-21	ok	
Difference		<u>0</u>	<u>0</u>							
% Difference		0.0%	0.0%							
6. Annualized FTE Enrollment										
<i>Actual Annualized FTE Enrollment should match annualized FTE Enrollment provided in the Data &amp; Reference Worksheet.</i>										
		<u>FY 2019-20</u>								
FTE Enrollment in Student Profile worksheet		9,416.00								
FTE Enrollment in Data & Reference worksheet		9,416.00								
Difference		0.00						FY 2019-20	ok	
7. Calculated Revenue FTE										
<i>The Calculated Revenue FTE in Current Year, Request and Future Years should be within 10% of the Annualized FTE. For those universities charging tuition on a per-credit basis, the calculated revenue FTE should be within 25% of the Annualized FTE.</i>										
		<u>FY 2021-22</u>			<u>FY 2022-23</u>			<u>FY 2023-24</u>

10. Tuition Revenue										

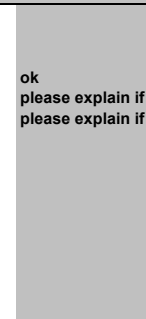

FY 2022-23 Comprehensive Planning Process (CPP) Projections Workbook  
 Indiana University of Pennsylvania  
 Edit Checks

**Description of Edit Check**

*The % change in Tuition Revenue should be similar to the cumulative change in enrollment **and the tuition rate** \*.*

	<u>FY 2021-22</u>	<u>FY 2022-23</u>	<u>FY 2023-24</u>
% Change in Enrollment	-7.1%	0.3%	1.1%
% Change in Tuition Revenue	-9.0%	2.0%	2.9%
Difference	-1.8%	1.8%	1.9%

FY 2021-22  
 FY 2022-23  
 FY 2023-24

ok  
 please explain if difference is greater than 1.0%  
 please explain if difference is greater than 1.0%

\*If there is a legitimate reason that these would not match (e.g., alternate pricing structures, significant increase in summer and/or winter session enrollment will increase tuition revenue more than the change in enrollment), please provide an explanation below:

The tuition revenue is based on a per credit basis and not on head count. Therefore, the change in revenue is not based on the change in head count. Also, there are multiple out of state rates for non-resident undergraduate students (145% to 250%). The change in tuition revenue is based on the mix of the rates with corresponding enrollment (credit hours).

		Description of Edit Check						
<b>11. Utilities</b>								
<i>The % increase in Utilities should be similar to the Assumptions given.*</i>								
		<b>DUE TO COVID PANDEMIC, THIS EDIT CHECK WILL NOT BE USED THIS YEAR.</b>						
<b>12. Loans Between E&amp;G and Auxiliary</b>

Source: AFRP Debt Service Schedule (principal only). Note: the annual interest payments in this schedule will not equal the respective annual amounts in the AFRP debt service schedule due to anticipated interest earnings. The principal portion of the AFRP project(s) should be reflected as a Debt Principal Payment in the Transfer section; the interest should be shown as an Interest Expense.

**FOR INTEGRATING UNIVERSITY PLANNING PURPOSES  
ONLY**
